Tower Hamlets Youth Sport Foundation	Active Families	A project aimed at improving understanding of health, increasing levels of physical activity, reducing obesity and improving knowledge of borough sporting opportunities amongst parents and families at schools focussed on by Tower Hamlets' National Child Measurement Programme.	The member of staff who had taken temporary charge for the oversight of this project took up a role overseas and left his post in mid April This was another significant blow to THYSF's capacity in administering and reporting on the Active Families Programme, particularly as both the operational involvement and oversight roles have had to be taken on by THYSF's CEO at a time when a considerable amount of other pressures and demands exist. Nevertheless, delivery of frontline activities and programmes have been relatively simple to maintain during the quarter and all sites/activities have been maintained during the quarter aside from sailing activities at Cubitt Town Junior School where there has been a break. The quarter has actually seen a significant growth in users (and particularly new users) as a programme to get parents active and engage them in their son's involvement in Tower Hamlets District Football has been very successful. Whilst parents participated in activities at the same times as District training sessions, their attendance was rewarded by a subsidy to costs for a residential football festival where they again engaged with different activities and excursions.
