

**OZONE COFFEE ROASTERS  
LEONARD ST –  
A proven concept**

“I have been a regular at Ozone since it first opened its doors in Shoreditch in March 2012. The combination of great coffee, vibrant environment and speedy wifi has made it a central hub for the local tech community to congregate. No matter what time of day, it always has a high-energy feel. It’s just a shame that there aren’t more places like it in London”

*Anthony Impey*  
Founder & CEO, Optimity IT

“Ozone Coffee Roasters not only makes exceptionally good coffee but at the heart of its culture, is support for the local community. Ozone has invested time and money to train and support local residents from disadvantaged backgrounds into employment both within their cafe and other speciality cafes in the area.

To Well Grounded Jobs, Ozone has enabled us to support young people into work, through training, equipment, coffee supplies and endless advice. In roasting and providing great coffee Ozone is also supporting community engagement and regeneration in so many more ways.”

*Eve Wagg*  
Founder, Well Grounded Jobs

“Ozone has long been my spiritual home. From the minute it opened I was in love with quality, care and craft of the service.

Ozone has been an essential resident, location and active in the TechCity community around Old Street.”

*Benjamin Southworth*  
Co-founder, 3beards  
Unicorn Hunt & former  
deputy-CEO TechCity UK

“The team at Ozone Coffee Rosters are an amazing bunch who always seem to go the extra mile to delivery outstanding service.

Both James and Lizzie have an exceptional entrepreneurial approach to business and as a business owner it is inspiring to watch them go from strength to strength. Ozone is far more than meets the eye, and hidden behind the first-rate cafe is a business that cares about all the people who make it successful.”

*Stretch Rayner*  
Director and Head Strength Coach,  
Momentum Training  
Local Resident

“Ozone is almost ‘everyone’s meeting room’ - which makes me wish sometimes that it wasn’t as popular as it is!

I work in Technology (as a Manager in PricewaterhouseCoopers Emerging and Digital Technology practice) and the number of times I’ve brought clients to my ‘defacto meeting room’ for business meetings, well I don’t have the fingers and toes for it. What impresses me the most about the cafe is its unique blend of excellent service (as a regular, amongst many regulars, you can always count on having a cheerful conversation with any of the baristas, or front of house staff) excellent antipodean food (I’ve had clients sign on the dotted lines almost entirely because of what they do in the kitchen there) and their passion for great coffee (exhibited by their boutique roasting operation onsite).

Lizzie and James have built a remarkable business and community of regular customers here in Old Street.”

*Lichan Cheah*  
Technology Management Consultant,  
PricewaterhouseCoopers  
Local Resident

“We met Lizzie and James at a charity dinner when we we’re in the early stages of planning our coffee shop. We kept in touch and although we met with many different coffee roasters over the subsequent months, when it came time to choose a supplier Ozone was top of our list.

We loved their coffee; their experience in the industry was second to none and no other roasting company came close to providing the support and guidance I knew they would give us.”

*Jodie Whitelaw*  
Owner, Iris & June,
