<b>Reports of:</b>  NHS East London and the City London Borough of Tower Hamlets  <b>Presenting Officer:</b>  Somen Banerjee Co-Director Public Health NHS East London and the City and LBTH		<b>Title:</b>  Joint Strategic Needs Assessment – Summary Document and Factsheets  <b>Ward(s) affected:</b>  All		

## **1. Summary**

This document provides an overview of the Joint Strategic Needs Assessment (JSNA) 2010-11 for Tower Hamlets. It is still in draft format currently. It is underpinned by a series of factsheets which detail the supporting evidence and rationale for the recommendations provided. Sections 1-3 of this document set out the aims and methodology adopted by Tower Hamlets for this process. Sections 4 and 5 describe the key findings for the borough, including population, social determinants of health and health and wellbeing throughout the course of someone's life. Recommendations based on this evidence are reported in section 6, spanning all areas outlined in the previous sections. These recommendations are the key outcome of this process and will be audited in the following financial year in order to chart progress and improvement.

Accompanying the summary document are 5 examples of the JSNA Factsheets, and Child Health Locality Profiles.

## **2. Recommendations**

The Health Scrutiny Panel is asked to consider the information in these documents and note the recommendations made in the JSNA.
