3. Background

- 3.1. From April 2005, we have assigned each review one of four ratings, depending upon the level of our findings. The ratings we use are: -

Assurance	Definition
Full	There is a sound system of control designed to achieve the system objectives, and the controls are being consistently applied;
Substantial	While there is a basically sound system there are weaknesses which put some of the control objectives at risk or there is evidence that the level of non-compliance with some of the controls may put some of the system objectives at risk;
Limited	Weakness in the system of controls are such as to put the system objectives at risk or the level of non-compliance puts the system objectives at risk;
Nil	Control is generally weak leaving the system open to significant error or abuse, or significant non-compliance with basic controls leaves the system open to error or abuse.

- 3.2. In addition, each review is also considered in terms of its significance to the authority in line with the previously agreed methodology. The significance of each auditable area is assigned, based on the following factors: -

Significance	Definition
Extensive	High Risk, High Impact area including Fundamental Financial Systems, Major Service activity, Scale of Service in excess of £5m.
Moderate	Medium impact, key systems and / or Scale of Service £1m- £5m.
Low	Low impact service area, Scale of Service below £1m.

4. Overall Audit Opinion

- 4.1. Overall, based on work performed in the year to date, I am able to give a substantial level of assurance over the systems and controls in place within the authority.

5. Overview of finalised audits

- 5.1. Since the last Assurance Report that was presented to the Audit Committee in September 2012, fifteen final reports have been issued. The findings of these audits are presented as follows:

The chart below summarises the assurance rating assigned by the level of significance of each report.

Appendix 1 provides a list of the audits organised by assurance rating and significance.

Appendix 2 provides a brief summary of each audit.

- 5.2. **Members are invited to consider the following:**

The overall level of assurance provided (para 5.3-5.5).

The findings of individual reports. The Audit Committee may wish to focus on those with a higher level of significance and those assigned Nil or Limited assurance. These are clearly set out in Appendix 1.

- 5.3. The chart ranks the overall adequacy and effectiveness of the controls in place. This assurance rating will feed into Internal Audit's overall assessment of the adequacy of governance arrangements that is required as part of the Accounts and Audit Regulations 2003 and the CIPFA Code of Practice for Internal Audit in Local Government in the United Kingdom 2006.

(Please refer to the table below).

Chart 1 Analysis of Assurance Levels

SUMMARY		Assurance				
		Full	Substantial	Limited	Nil	Total
Significance	Extensive	-	5	1	-	6
	Moderate	-	7	2	-	9
	Low	-	-	-	-	-
Total Numbers		-	12	3	-	15

Total %	-	80%	20%	-	100%
----------------	---	------------	------------	---	-------------

- 5.4. From the chart it can be seen that of the six finalised audits which focused on high risk or high value areas; five were assigned Substantial Assurance and one was assigned Limited assurance. A further nine audits were of moderate significance and of these; seven were assigned Substantial Assurance and two, Limited Assurance.
- 5.5. Overall, 80% of audits resulted in an adequate assurance (substantial or full). The remaining 20% of audits have an inadequate assurance rating (limited or nil).

6. Performance Indicators

- 6.1. At the start of the year, three performance indicators were formulated to monitor the delivery of the Internal Audit service as part of the Chief Executive's Monitoring process. The table below shows the actual and targets for each indicator for the period:

Performance measure	Target	Actual
Percentage of Audit Plan completed up to October 2012	47%	57%
Percentage of Priority 1 Audit Recommendations implemented by Auditees at six monthly follow up audit stage	100%	100% 2 out of 2
Percentage of Priority 2 Audit Recommendations implemented by Auditees at six monthly follow up audit stage	95%	83% 15 out of 18

The table above shows that the proportion of internal audit work completed to October 2012 is 57% against the target of 47%. This is principally due to most of the schools being audited in the first two quarters of the financial year which has meant that the audit plan is ahead of the target.

- 6.2. The percentage of priority 1 recommendations implemented at the follow up stage was 100%, whereas the percentage of priority 2 recommendations was 83%. Relevant Corporate Directors were sent copies of the final Follow Up audit reports. Details of all priority 2 recommendations not implemented are set out in Appendix 3. Further to the usual actions, meetings are being convened with key officers to seek assurances that agreed recommendations will be implemented promptly.
