1. Number of fixed penalty notices for littering and dumping increased by 20% from 1,500 to 1,800 by March 2008	31/03/2008	Fixed Penalty Notices issued in 2007/08 totalled 706 well below the target of 1800. An action plan to boost numbers of FPNs was implemented in October 2007 but whilst an improved rate was recorded the total was not achieved. Factors that contributed are: Virement of funds to support the change to recycling contractors and inability to fill vacancies, two secondments and one long term sick person led to staff shortages amounting to about 7 FTEs (approx 20% reduction) which impacted on the number of investigations that could be carried out and hence FPNs issued. Implemented in 2007/08 was a decision to remove coloured trade waste bags from service and their replacement by, in effect, black bin bags. This had an adverse impact on the level of effective enforcement in the Borough. LETs Officers found it very difficult to identify legitimate trade waste deposited in the public realm and so in enforcement activity was reduced. A wider range of general enforcement activities were undertaken and in real terms the absolute number of enforcement activities (FPNs, prosecutions, issue of statutory notices etc) was slightly greater in 2007/08 than the previous year.

The local project consists of family nurses, who have a background in midwifery or health visiting. There are four family nurses that undertake intensive home visits with young first time parents. These visits start early pregnancy, through until the child is 2 years of age. Intensive home visits are either weekly or every 2 weeks. The services delivered through Children Centers are an integral part of the work with these families. The sustainable plan is still be negotiated locally. The evaluation of the intensive home visiting programme is being undertaken nationally by Birbeck. Monthly each of the ten pilot sites must submit a collection of data.

2. Delivery of milestones and progress against targets monitored on a 6-monthly basis from March 2008	31/03/2008	A draft plan for the Council was completed in August 2007. Finalising the document was subject to the expected publication of the updated Local Government Workforce Strategy in November 2007 and the move to develop joint HR strategies with the PCT whose future workforce needs will be dependent of the outcome of NHS London's consultation on Healthcare for London launched in July 2007. Further work has been undertaken on the strategy to reflect these developments and will be finalised in during April and May 2008.
