Hi Mohshin,

As I understand it, the Council's licensing committee are looking to understand how Aldgate has changed with regard to the balance of commercial and residential properties.

The planning service doesn't have data readily available on the use of individual properties, but Ann Horwood has provided spreadsheets showing 576 residential addresses within 100 m of Whites, 326 residential addresses within 100m of Flamingos and 264 residential addresses within 100 m of Nags Head.

There are a number of large scale residential developments taking place within Aldgate which are starting to transform its character from a mainly office and commercial location to a more mixed area with a growing residential community.

Notable major developments that the Committee should be aware of:

**Goodman's Fields – land between Leman Street, Alie Street, Gowers Walk and Hooper Street**

Permission granted on 17/02/2011 for the redevelopment of the former RBS buildings west of Leman Street. This permission was for 754 residential units, 650 student bedrooms, 337 bed hotel and just over 9000sqm of commercial floorspace for a range of uses, including a health centre. The permission was subsequently varied on two occasions taking the total number of new homes to 1138. The development is being built in four phases and construction on the final phase is well underway.

The nearest SEV is Whites, approx. 25 meters from Cashmere House, the NW block in Goodmans's Fields.

**Aldgate Place – land bounded by Whitechapel High Street, Leman Street, Buckle Street and Commercial Road**

Planning permission was granted on 18 October 2013 for demolition of existing buildings and creation of a mixed use development, comprising three towers of 22, 25 and 26 storeys and a series of lower buildings ranging from 6 to 9 storeys. Provision of 463 private and affordable residential dwellings, together with office, hotel, retail including restaurants, cafes and drinking establishments, leisure, creation of new pedestrianized street, public open spaces, children's play spaces and associated car and cycle parking together with associated highways works and landscaping.. Construction of the first phase of this development has been completed and flats are being occupied.

The nearest SEV to this development is Whites, 50 metres away from the SW block which has been built and occupied.

**Altitude – 61-75 Alie Street and 20 Buckle Street**

Permission granted on 14/03/2008 for demolition of existing buildings and erection of two buildings of 7 and 28 storeys to provide 235 residential units, A1/A3 (retail/restaurant/cafe) floor space and B1(business), formation of

associated car and cycle parking and highway access, hard and soft landscaping and other works associated to the redevelopment of the site. This development was completed some years ago and has been occupied.

The nearest SEV is Whites, 67 metres away.

The three developments above represent the introduction of **1,836 new homes** in Aldgate.

We also looked at smaller scale planning permissions granted recently within the zones you provided that include an element of residential. Only one came up in our search – Permission granted on 31/10/2017 for erection of one additional storey to provide three additional flats at 14-20 Alie Street. This extension related to a new development of 31 residential units granted permission on 15 June 2010. Nearest SEV is Flamingos – 65 meters away.

I trust the above is helpful.

Paul
