Dear Sirs,

RE: Licensing Sub Committee 25<sup>th</sup> September 2018 @ 2:30pm

Application for a New Premises Licence No: 16096 –

Property: Mailinda, 62 Mellish Street, London E14 8NS

**Applicant's further response:-**

The Applicant is holder of the current License of the premises at 62 Mellish Street, London E14 8NS. He is applying for a Premises Licence to enable him to make use of the upper floors of the premises and for an extension of the existing hours of the premises for such use.

He is very well aware of the concerns of the local residents for any potential nuisance particularly noise that may be caused as a result of use of the premises in the fashion proposed and the requested extension of hours.

In order to deal with the issue of noise, special sound proofing has been installed at the premises, and it is proposed that a Sound Limiter will be installed so that noise level will be kept to a level which is permitted and accepted by the local authority. If the Sub Committee were so minded to consider granting the Licence the Applicant would be content to accept an additional Condition that operation of the licence will not commence until the Sound Limiter has been properly installed and inspected and approved by the relevant authority. It is submitted that this would satisfy the concerns as to noise and would help to alleviate the concerns of local residents. Operation of the premises under the licence could not commence until the local authority approval.

In addition, the current permitted hours are until 11:00pm, and that is when the current premises are required to close. The proposed new hours are that the premises should remain open for one hour longer until midnight. In the circumstances, our client would be again prepared to accept the suggestion of

Email: n [REDACTED]

the local authority that operation under the Licence should conclude at 11:30pm with closure of the premises at 12:00pm.

The Applicant is extremely concerned to ensure that concerns of local residents are met. This is important to him as the restaurant depends on local patronage, and he would not be successful in this if there was any unnecessary antagonism as a result of noise resulting from persons attending the restaurant premises. It is hoped that the proposed Conditions will be sufficient to satisfy concerns of the Sub Committee that issue on nuisance can be dealt with, and the Applicant will be prepared to accept any further Conditions which the Committee may be minded to impose.
