Additional resources have been put in place which are starting to have an impact.</p> <p>Our current cumulative performance is 35% (year to date) and increasing with May (42%), June (45%) and July (45%) demonstrating an improved trajectory. We hold weekly meetings with services to monitor the impact of the increasing demand for EHCPs on timeliness of advice requests coming back into the SEN Service.</p> <p>This measure is a SEND improvement plan priority. The service are working on a backlog of cases which they plan to clear by the autumn term. In terms of benchmarking, the national figure for EHC timeliness is expected to be around 50% for 2020/21.</p>

	<p>3. Workforce - Change of working hours and use of flexible retirement schemes (SAV/All 002/ 21-22 appendix B - MTFS Savings tracker 2022/25)</p> <p>Can the committee be provided a note on the numbers on take up for a reduction in hours and early partial retirement?</p>	<p>Director of Workforce, OD & Business Support</p> <p>Nisar Visram Director of Finance, Procurement and Audit</p>		<p>There were 6 people in total that took the offer of a reduction in hours/early retirement. This generated a saving of £126,491. This offer has now been closed having been publicised twice.</p>

24.10.22	Youth Justice 1. The committee requested details on the annual budget for Youth Justice and whether this is enough to sufficiently tackle the challenges the service faces. 2. The committee asked if the Sub-Committee could receive an update on Youth Justice performance in 6 months' time with a focus on KPIs. This	James Thomas Corporate Director of Children & Culture	OSC Chair	19.11.22	<p>1. The total Youth Justice Services Budget for 2022-2023 is £1,482,008. This is an increase of £50,000 on the figure that the OSC received in the report due to the Youth Justice Board increasing our funding after the Youth Justice Plan was submitted. This figure includes our core budget from the Local Authority as well as the Youth Justice Board Grant and contributions from the City of London.</p> <p>In addition, we receive staff from the Probation Service and the Metropolitan Police as part of our multi-agency agreement. We have also just received information from the Ministry of Justice that we will be receiving an additional £351,641 for the 'Turnaround' project, something that each Youth Justice Service in England and Wales will be receiving. The Turnaround Project is due to take place between December 2022 and March 2025. The purpose of the Turnaround funding is to target those children who are at risk of entering the formal Criminal Justice System which will support our ongoing focus of reducing our FTE figure. In addition to this, the Mayor recently reviewed our Growth Bid submission and agreed to £45,000 for training for the Youth Justice Service.</p> <p>Therefore, with the potential £45,000 from a council growth bid and the above monies then at this point there is now sufficient to tackle the issues.</p> <p>2. We will provide the Children and Education Scrutiny Sub-Committee an update on the progress of the Youth Justice Plan in March 2023 with a focus on key performance indicators.</p>

Page 10	Waste and Recycling Services 1. The Committee requested benchmark data on missed collections from neighbouring boroughs to help us understand where we can learn, improve, and review best practice.	Dan Jones Director of Public Realm	OSC Chair	19.11.22	Response received on 25.11.2022 As the benchmarking data is not publicly available, the service have had to contact individual councils directly to request their data. The service is in the process of collecting and review data and seeing how they can best benchmark this data

28.11.22					
12.12.22	1. The Committee requested a breakdown of the funding sources for: - The Mayor's Energy Fund - £2.7m cost of living package	Nisar Visram Director of Finance, Procurement and Audit	OSC Chair		<p>Response received 11.01.2023.</p> <p><u>Cost of Living Crisis grants £2.7m</u> This was an estimated figure based on approx. £1m of Household Support Fund, and a growth item of £1.75m. Both sources of funding have been fully spent, with approx. 1,750 grants of £100 accounting for the growth item and the Household Support Fund element being made up of supermarket vouchers that are made available to families at risk of poverty. The terms of the Household Support Fund meant the first tranche had to be fully allocated by the end of December. Payments were administered through a contract with the Post Office.</p> <p><u>Mayors Energy Fund £1.0m</u> This fund is also backed by the household support fund, one of the key objectives of which is to support families through fuel poverty. As with the element of Household Support Fund in the Cost-of-Living item above, this was also fully spent by the end of December 2022 and payments were made to vulnerable families through the Post office.</p>
	2. Can you provide the Committee with a breakdown of how each of these initiatives are funded, please?	Nisar Visram Director of Finance, Procurement and Audit			<p>Recommendation 1 Devise a financial strategy that delivers a sustainable budget without the need to rely on reserves.</p> <p>A financial strategy is currently in development and this will involve reviewing areas of council expenditure and income in depth, holding joint sessions between officers and Members to analyse the budget and commencing the 24/25 budget planning process immediately. Progress on the Finance Strategy can be reported back to Overview and Scrutiny as required during the year.</p>

<p>Page 12</p>					<p>Recommendation 2 Provide the pro formas detailing growth and saving proposals in sufficient time for OSC to review as part of its budget scrutiny.</p> <p>Once Committee dates are confirmed for the new financial year, the budget timetable for 24/25 will be set and as part of this officers will endeavour to provide these pro formas earlier, before the Christmas period for next year.</p> <p>Recommendation 3 Explore increasing Educational Maintenance Allowance for those children above the threshold - even if only temporarily during cost-of-living crisis.</p> <p>As part of delivering a financial strategy that delivers a sustainable budget, the Council needs to identify efficiencies or additional funding of £30.8m for 2024/25, rising to £37.8m in 2025/26. The Council had introduced an Educational Maintenance Allowance, in line with the Mayor's manifesto and any review of this in the new year will need to be considered in the context of the funding challenges facing the organisation. Any expansion of the Educational Maintenance Allowance would increase the budget gap facing the Council.</p> <p>Recommendation 4 Review funding arrangements for the Resident Support Scheme</p> <p>The Council has received a number of grants from Government which are for specific purposes and are time limited, that would need to be repaid to Government if not utilised within the specified timescale. These grants have meant that for one year only, 2023/24, the Council will not be required to draw on its own resources to fund the Resident Support Scheme. Any changes to funding arrangements would need to be considered in the context of ensuring a financial strategy that delivers a sustainable budget, and any additional commitment of council resources to this scheme for</p>

23.01.23	Home Care Can OSC be provided with information on the process/ necessary changes required to amend the Charging Policy	Warwick Tomsett Joint Director of Integrated Commissioning			The introduction of free homecare has been agreed for 2024/25. Work has already been undertaken to profile the cost implications of this decision, but further work is required before implementation including amendment to the charging policy, service user consultation and analysis of the staffing implications. The council had also wanted to better understand the interplay between free homecare and the Government's wide-ranging Adult Social Care reforms, in particular the national charging cap. This cap had been due to come into effect from autumn 2023, but has now been delayed for two years

	Mayor's Office Can the Committee receive a note on whether officers believe the proposed expansion of the Mayor's Office to include 12 more caseworkers and a similar number of political advisors meets the authority's obligations for even handedness between Executive/majority and Opposition members	Janet Fasan Director of Legal and Monitoring Officer Matthew Manion			The Mayor/Leaders have always had additional staff supporting them and their role. As part of the budget proposals the Mayor has submitted a growth bid to increase the capacity of his office. This does not present issues of even-handedness. If additional staff were providing support to some backbenchers but not others then this would present concerns but this is not what is being proposed. This will go to Council on 1 March so Members can debate the merits of this proposal.
	Savings Tracker Can the committee be provided information on the current unmet savings trackers.	Nisar Visram Director of Finance, Procurement and Audit			See attached PDF. 	sourcing leisure provision				
	Leisure provision Can the committee be provided with a list of councils that have an in-house leisure service and then benchmark against these	Matthew Eady Director of Commissioning and Culture			Councils are not required to publish whether their leisure provision is managed in-house and there is no organisation that collects or monitors this information. In London, Richmond upon Thames leisure services are managed in-house with Southwark and Lambeth council bringing their services in house this year. Hounslow deliver their leisure services through a Local Authority Trading Company. Therefore, benchmarking is not possible at this moment in time as officers aren't aware or able to ascertain (other than those outlined) where their leisure services is insourced.
20.02.23	Borough Commander Spotlight Can the committee be provided with further data to better understand the composition of the borough's Police - focusing on race & gender.	James Conway Borough Commander			<ul style="list-style-type: none"> We have produced a simplified version of the data on the attached link, which will show slightly different variants. https://www.met.police.uk/sd/stats-and-data/met/workforce-data-report/ <p>We realise that some people may describe gender and ethnicity differently to MPS recording systems but this is the current workforce data to Feb 2023. Response to Scrutiny Action Log Request

April 2023

The summary below provides information on *the reason behind missed EHCP targets. What activity has been taken to understand the root causes of this increased demand, forecast the demand for 23-24 and make plans to ensure we are better placed to manage the demand next year?*

a) The reason behind missed EHCP targets.

There has been significant increase in the number of new requests for EHCNA in recent years:

- o A 45% growth in the last three months, relative to the 2021/22 academic year.
- o A 35% growth, 2022 against 2021.
- o A 70% growth, across the whole of the last 2 years.

Workforce capacity challenges, including the recruitment and retention of key SEND roles, as well as some leadership gaps made it difficult to keep up with the increased number of requests. This resulted in a backlog and impacted timeliness.

There were also considerable delays in assessing the needs and providing advice on the needs of children and young people (CYP). CYP with complex needs frequently require more detailed assessments, these often take additional to complete and also impact timeliness.

The current Management Information System did not and continues not to provide the support required to speedily and effectively access and utilise data.

b) What activity has been taken to understand the root causes of this increased demand.

SEN practices and procedures have been fully reviewed as part of the Islington/Tower Hamlets Improvement Partnership. This included an audit which looked at the quality of plans and quality of advice.

c) Forecast of demand for 23-24

The increased demand outlined in (a) mirrors the national landscape. In 2021, the national number of requests for new assessments rose by 23%. This high level of demand, continued throughout 2022 and into 2023 – both locally and nationally. Tower Hamlets has historically high levels of need with one of the highest percentages of EHCPs in the country, thus, we predict that the demand will continue to rise.

d) Plans to ensure we are better placed to manage the demand next year?

Additional funding has meant that sufficient interim staff are now in place to ensure the timely administration of, and the annual review of Education, Health and Care Plans (EHCPs). Increased capacity has ensured there has been month by month improvement in the timeliness of decisions to assess, the request for advice and the number of EHCPs issued within 20 weeks. An approved growth bid has enabled the service to replace the interim workers with permanent staff. The recruitment has begun (April 2023).

Additional funding has meant that there is extra resource within the EP Service to deliver timely statutory advice.

Plans and interventions are being put in place to ensure the Health Service have the capacity to produce advice in a timely manner.

A specific and dedicated team is working to clear all overdue and outstanding assessments (with a due date of up to 31/03/2023). These will be cleared in reverse date order. This exercise will provide other officers with the space to focus on new assessments whilst actively working to prevent another backlog. This exercise has a completion date of July 2023.

Advice is tracked weekly, and all professionals are provided with clear, set and expected return dates. To mitigate further missed EHCP targets, all partner services have been informed that advice is to be provided 6 weeks from the decision to assess rather than 6 weeks from allocation.

Partner services are expected to allocate work for assessment within 3-5 working days of the decision to assess. This is communicated informally on the day the decision is made and before advice is formally requested.

Partner services are met with weekly to identify and track late or outstanding advice and progress these cases where possible, either for expedited advice or progression to a Draft EHCP.

The SEN service has introduced weekly tracking of assessments – this will ensure ‘flagging’ cases are identified and addressed earlier than previously done.

Plans are in progress to put an efficient Management Information System (MIS) in place. This will be used to record and track all annual reviews, the EHCNA process, and post 16 destinations. The new system will also include online modules for monitoring and completing workflows and for reporting on timeliness and SEN2.

Further information

Work has started on the development of an Inclusion Framework which will set out the provision that should be made ordinarily available for CYP with SEN in mainstream schools (and later, in colleges). This framework, in part, will promote early intervention and action through settings and help schools to meet the needs of pupils identified as requiring SEN Support. It will also offer parents and carers transparency around the available SEN provision in Tower Hamlets. The eventual goal is that this framework will facilitate a reduction in EHCP requests, as SEN support needs will be met earlier.

There is an expectation that the LA will at least meet national averages of 50% timeliness in the month April 2023.

There is an expectation that at the LA will exceed the national average (up to 65-75% timeliness) in the months of May, June and July 2023.
