6. UNRESTRICTED REPORTS FOR CONSIDERATION

6.1 Idea Stores Post Consultation Report

Councillor Sabina Akhtar, Cabinet Member for Culture, Arts and Brexit, introduced the report setting out a revised approach to Idea Stores and Library Services. She clarified that at no point had there been an intention to close any services. She thanked Councillors and residents who had engaged with the consultation exercise. She tabled a supplement to the report which proposed increased opening hours from those set out in the options in the report including providing some Saturday and evening opening hours.

The consultation had shown strong responses in support of the Councils Idea Store and Library services and the proposals set out showed how the Council listened to responses in public consultations. She thanked officers for their

hard work on this issue. The revised proposal ensures that the four main sites in the borough would be open seven days a week whilst still delivering some savings as required by the Council's budget pressures. The changes would be reviewed after 18 months of operation.

The meeting heard from a number of residents and Members who expressed strong support for the services provided and had significant concerns about the proposed reductions in hours of service at the different locations. They highlighted how important libraries and Idea stores were in helping local people including in their studies and supporting children in their reading. Particular support was heard for Cubitt Town library.

The Pre-Decision Scrutiny Questions and officer responses were noted and in particular the desire to make best use of the buildings was noted and officers confirmed that only appropriate shared-space users would be sought.

Cabinet discussed the report and welcomed the work that had been done to fully consult with residents. In particular, the tabled amended proposals were welcomed and supported by Members. The extent of the reduction in government funding over recent years was highlighted and the impact that had on the provision of local services generally and libraries in particular.

The **Mayor** highlighted the excellent library and Idea Store services that the Council was still able to provide and proposed the recommendations as set out in the Supplement to the main report to the Cabinet. These were **agreed** without dissent and it was:

RESOLVED

1. To note the results of the public consultation and other feedback received.
2. To approve the revised proposals as set out as the 'New Option' on pages 2 and 3 of the supplement to the Report presented at the meeting.

6.2 Outcome of consultation on revised approach to day support in adult social care

Councillor Rachel Blake, Deputy Mayor and Cabinet Member for Adults, Health and Wellbeing, introduced the report on the outcome of the consultation in relation to day support in adult social care. She thanked the service users and carers who had taken part in the consultation highlighting the services they most value. Lockdown had been a very difficult time for service users and the Council was grateful for their time and contributions.

The purpose of the review was to look at pressure on the services and how services could be shaped in the future. She noted that there was significant opposition to the closure of the physical disability day centres but she confirmed the Council's view that these services could successfully be

provided under the new community hub model. Appendix 1 set out the vision for the community hub at Somali Gardens. The equalities impacts were set out as well as how those were mitigated. It was important that services could improve mental and physical health of users and benefit their carers. The Community Hub would offer them a safe space where services could be provided and advice given. There would also be a specific hub for dealing with Dementia.

The equalities impact assessment noted the risks to those with protected characteristics and the mitigation measures were set out. It was also noted that pilot projects for new service idea would be trialled.

The Cabinet then heard from a number of speakers including Councillors, residents and service users who raised a number of issues including:

- Whether service users would be able to cope with the changes and the extent to which it could set them back.
- The excellent provision of the existing services and that new solutions may result in lower quality care.
- Whether the consultation had been effective and that the responses were not in favour of many of the changes.
- The impact on women, older people, those from ethnic minorities and others with protected characteristics.

The **Mayor** thanked everyone for their responses and contributions to the meeting. He highlighted how important it was that people were able to access services that can support them when they really need it. He noted how the hub would work and how other locations would be used. Support would be provided to service users as the changes were made. Finally, he noted there was a lot to do to ensure everyone could enjoy all the opportunities available in Tower Hamlets.

The **Mayor** noted the pre-decision scrutiny questions and officer responses. He proposed the recommendations as set out. These were **agreed** without dissent and it was:

RESOLVED

1. To agree the closure of Physical Disability Day Opportunities, Riverside day centre and Pritchard's Road day centre with effect from 4 May 2021
2. To agree to develop Russia Lane as a 'dementia hub' day service
3. To agree to open a community support hub from May 2021 onwards (if it is safe to do so in light of the Covid-19 pandemic)
4. To endorse the proposal to encourage more people to organise their own day support through a direct payment
5. To agree the commitment to make Tower Hamlets a more inclusive place for people with care and support needs.

6.3 Bow bus gateway and timed closures exemptions considerations

Councillor Dan Tomlinson, Cabinet Member for Environment and Public Realm (Job Share) – Lead on Public Realm, introduced the report to Cabinet. He explained that the road closure and bus gate set out in the report had been supported by a significant majority of respondents in the recent consultation exercises. However, Aware that there was a potential impact on those who still needed to use their cars and so a number of exemption options were being offered as well as different timings and hours of operation.

It was noted that there was an error in the report in that the Western boundary to the scheme was by the canal and not on Grove Road.

The Cabinet then heard from a number of members of the public and councillors with a wide range of views on the proposals, including:

- Support for the changes and in particular encouragement to move forward on the Liveable Streets programme as quickly as possible.
- That the restrictions should be for much longer periods of the day/week.
- Concern about whether the taxi card scheme could be properly enforced.
- A variety of views on whether the consultation exercises had been sufficient.
- Would the closures just result in traffic being diverted to other roads and whether those who could be impacted in these areas should have been consulted.
- The potential impact on local businesses and the increased time residents may have to spend driving around the borough.
- Making sure the equalities impact had been properly assessed.

From the discussion the Mayor noted the thorough consultation with good response levels from different groups and types of residents. The negative health impacts of pollution on residents, especially the young. That the Council would continue to actively monitor the schemes and that it could react to any positive or negative impacts if required. The Pre-Decision Scrutiny Questions and officer responses were also noted.

The **Mayor** welcomed the report. Noting, the correction to the scheme boundary, the **Mayor** proposed the recommendations in the report with Option 1. This was **agreed** by the Cabinet without dissent and it was:

RESOLVED

1. To note the content in this report and in particular the alternative options considered in section 2 of the report.
2. To agree the hours of operation for the Roman Road bus gateway to be 6.30am to 9.30am and 3.30pm to 7pm, Monday to Friday.

To agree the following exemptions during the hours of operation for both the Roman Road bus gateway and Coborn Road timed closure: local buses, emergency services, blue badge holders, carers, Local GPs on-call, Taxicard users and Royal Mail vehicles while fulfilling their Universal Service Obligation as defined in 3.16 onwards within the report.
5. To agree to charge a £20 annual fee for exemptions to cover the cost of administration.
6. To agree that in line with the experimental traffic order procedures any necessary alterations are made within 6 months and the hours of operation and exemptions are reviewed between 6 and 18 months after implementation.
7. To note the Equalities Impacts as set out in section 4 of the report and the full Equalities impact Analysis (EqIA) in Appendix B to the report.
8. It was noted that the scheme boundary should include Clinton Road, Haverfield Road and Cadogan Terrace (from Wick Lane to Cadogan Close).

The **Mayor** put the recommendations to the vote and they were **agreed** without dissent and it was:

Councillor Sabina Akhtar, Deputy Mayor and Cabinet Member for Children, Youth Services and Education, introduced the report following a statutory consultation on closing Shapla Primary School. This stemmed from a primary review which highlighted the need to reduce the number of primary places in the West of the Borough. Shapla School had significant financial challenges which indicated it could not continue. Responses to the consultation exercise were set out in the report. The Council had proposed savings of £21 million for the year of which £11.7 million was being forecast as to be delivered.
