1. SUMMARY

- 1.1. This paper submits the report and recommendations of the Health Scrutiny sub-committee's review of the LBTH Reablement Service for consideration by the Health Scrutiny Sub-Committee.

2. RECOMMENDATIONS:

- 2.1. The Health Scrutiny Sub-Committee is recommended to note the report and recommendations.

3. DETAILS OF REPORT

- 3.1. Over the course of 2016-17 the Health Scrutiny Sub-Committee has taken a thematic approach to its work programme and focussed on issues relating to the access of health and social care services in Tower Hamlets. As part of this, the Sub-Committee identified the performance of the Council's Reablement Service as the subject for a Scrutiny Review, as it is a key gateway into the social care system from both acute and community health services. The ever increasing pressure on the NHS and adult social care arising from the needs of a growing, older population and continued public spending restraint, means the performance of the Reablement Service is an issue of major importance to the sustainability and effectiveness of the boroughs social care services.

- 3.2. The Reablement Service offers a short-term, six week Occupational Therapy-led intervention that supports people to regain their abilities to manage everyday tasks following an accident, ill health, disability or a stay in hospital, enabling them to live as independently as possible in the community. An effective Reablement Service is beneficial for residents, local authorities, and the NHS as it assists individuals to lead full and independent lives whilst reducing the overall cost of provision. Reablement can play a decisive role in helping people to regain their independence and maximising their health and wellbeing following hospitalisation or ill health. It can also reduce the amount of time a person needs to stay in hospital, therefore aiding faster recovery.
- 3.3. The Sub-Committee wanted to review the performance of the Reablement Service in Tower Hamlets to understand whether the current service offers accessible and effective care, and determine whether this is delivered to the right people, in the right place and at the right time. Moreover the Sub-Committee wanted to review the service user experience to ensure it was supportive, safe and compassionate
- 3.4. The review is underpinned by four core questions:
- How is the Reablement Service delivered and how does it perform in Tower Hamlets?
 - What is the patient experience for residents of Tower Hamlets being supported by the Reablement Service?
 - How do partner organisations view the Reablement Service in Tower Hamlets and what level of integration exists across services?
 - How does the Reablement Service in Tower Hamlets compare to London and national benchmarks, and what can be learnt from areas of good practice in London?
- 3.5. The report with recommendations is attached at Appendix 1. 18 recommendations have been made:

Recommendation 1: That the Reablement Service delivers additional training to social care staff in strength based practice to ensure they are able to convey the aims of the service and the reablement approach positively to service users and their families/carers.

Recommendation 2: That the Reablement Service works with Real to review cases where concerns were raised, and use this information to improve service delivery for disabled service users via tailored training for specific teams or individuals in association with Real.

Recommendation 3: That the Reablement Service develops a communications plan linked into the launch of the new integrated single pathway to educate the community on the role and aims of the Reablement Service so they are better advocate for themselves, and identify and challenge poor practice.

Recommendation 4: That the Reablement Service explores options to provide emergency provision for supplies through pre-payment cards and food vouchers to assist those who are discharged from hospital into the service.

Recommendation 5: That Barts Health reviews its discharge procedures so that all patients are provided with dosette boxes when they leave hospital and medication is accompanied by a Medicine Administration Record (MAR) chart.

Recommendation 6: That Barts Health reviews its discharge planning process to ensure that the appropriate quantity of correctly fitted continence pads are provided to the at the point of discharge.

Recommendation 7: That Barts Health reviews its discharge planning process to ensure that discharge does not take place at the end of the week without advance communication to the Reablement Service, allowing for better planning that takes account of service users full range of needs and smoother handovers.

Recommendation 8: That the Reablement Service reviews service user data to identify which hospital wards require further training to educate staff members on the purpose of the Reablement Service, its referral pathways and how it aligns with other rehabilitation provision.

Recommendation 9: That the Reablement Service examines the procedures for liaison with environmental health so that response times to address issues faced by some patients upon discharge, such as bed bugs, are improved.

Recommendation 10: That the Reablement Service improves its engagement with service users by working with the Third Sector to help strengthen the transparency of its performance monitoring process, including closer involvement of the OPRG.

Recommendation 11: That the Reablement Service establishes procedures for contacting service users by phone or in person within 24hrs of discharge to ensure they are safe and have no immediate issues about their care and support.

Recommendation 12: That the Reablement Service learns from observed good practice in Greenwich and introduces a questionnaire for all Reablement service users within the first 5-10 days after discharge from hospital.

Recommendation 13: That the Reablement Service learns from observed good practice in Greenwich and explores how they could use ICT systems to improve the coordination and efficiency of staff planning and rostering

Recommendation 14: That the Reablement Service explores options to link the Reablement Service into existing mental health provision to provide more integrated physical and mental health support as part of the six week reablement intervention.

Recommendation 15: That the Reablement Service explores the possibility of performing a social prescribing or commissioning function to refer people on to appropriate community support/activities at the end of its formal intervention.

Recommendation 16: That the Reablement Service develops a forum to share information on ongoing projects, available services, and opportunities for partnership working between the third sector and statutory services, perhaps building on the multi-agency meetings of each of the GP localities.

Recommendation 17: That the Reablement Service explores options to train formal and informal carers and volunteers to support the reablement process and promote the principles of recovery and independence.

Recommendation 18: That the Reablement Service reviews how social care staff introduce reablement positively to residents and their families and examines how the annual re-assessment procedure for people with long term care packages to establish how reablement may assist service users.]

4. COMMENTS OF THE CHIEF FINANCE OFFICER

- 4.1 The Council's Reablement Service, which is funded from the Better Care Fund (BCF), has a base budget of £2.4m in 2017/18 and is required to deliver efficiency savings of £0.85m by 2019/20 as agreed in the 2017/18 budget approved by Full Council on the 22nd February 2017. The recommendations within this report will need to be delivered in the context of these budget reductions.

5. LEGAL COMMENTS

- 5.1 The Council is required by section 9F of the Local Government Act 2000 to have an Overview and Scrutiny Committee and to have executive arrangements that ensure the committee has specified powers. Consistent with this obligation, Article 6 of the Council's Constitution provides that the Overview and Scrutiny Committee may consider any matter affecting the area or its inhabitants. The Committee may also make reports and recommendations to the Full Council or the Executive in connection with the discharge of any functions.

- 5.2 Section 2 of the Care Act 2014 imposes a duty on the Local Authority to provide or arrange for the provision of services, facilities or resources, or take other steps, which it considers will—
- (a) contribute towards preventing or delaying the development by adults in its area of needs for care and support;
 - (b) contribute towards preventing or delaying the development by carers in its area of needs for support;
 - (c) reduce the needs for care and support of adults in its area;
 - (d) reduce the needs for support of carers in its area.
- 5.3 Section 3 of the Care Act 2014 imposes an additional obligation that local authorities must exercise its social care functions with a view to ensuring the integration of care and support provision with health provision and health-related provision where it considers that this would—
- (a) promote the well-being of adults in its area with needs for care and support and the well-being of carers in its area,
 - (b) contribute to the prevention or delay of the development by adults in its area of needs for care and support or the development by carers in its area of needs for support, or
 - (c) improve the quality of care and support for adults, and of support for carers, provided in its area (including the outcomes that are achieved from such provision).
- 5.4 The Care and Support (Preventing Needs for Care and support) Regulations 2014 make further provisions relating to reablement support which is defined as a ‘facilities or resources provided by an adult... which consist of a programme of services, facilities or resources are for a specified period and have as their purpose the provision of assistance to an adult to enable to maintain or regain the ability needed to live independently at their home.’ These regulations require that the local authority must not charge the adult for any services, facilities or resources provided for the first 6 weeks of the specified period.
- 5.5 The Care Act guidance, which the local authority is obligated to follow unless there are cogent reasons to disapply, sets out additional consideration for the Local Authority when designing reablement services so as to ensure that these are able to fulfil additional duties, including the provision of information and advice under s.4 Care Act 2014, duties under s.5 Care act to promote the efficient and effective operation of a market in services for meeting care and support needs and under s6-7 to cooperate with relevant partners including health bodies. It should also be noted that, in providing these services, the Local Authority must have regard to the duty to promote the wellbeing of the individual in line with the duty set out in s.1 Care Act 2014.
- 5.6 The review explored the current offer within the borough and made the recommendations set out within this report. Whilst it will be for statutory

partners to implement some of these recommendations, the recommendations reflect the duty for those partners to cooperate with the Council in fulfilling their statutory functions under s6 of the Care Act 2014. It should be noted that, under this provision, partners are expected to comply with any request, including in relation to provision in specific cases (section 7 Care Act) unless this would be incompatible with their own duties or otherwise have an adverse effect on the exercise of their functions.

- 5.7 When considering the recommendations above regard must be given to the public sector equalities duty to eliminate unlawful conduct under the Equality Act 2010 and the duty set out at Section 149 of the 2010 Act. This requires the Council, when exercising its functions, to have 'due regard' to the need to eliminate discrimination (both direct and indirect discrimination), harassment and victimization and other conduct prohibited under the Act, and to advance equality of opportunity and foster good relations between those who share a 'protected characteristic' and those who do not share that protected characteristics. Provision of an effective reablement service, particularly if additional consideration is given to how to address mental health as well as physical health needs, should ensure greater compliance with these duties.

6. ONE TOWER HAMLETS CONSIDERATIONS

- 6.1. The core focus of this review is on the council's approach to delivering an effective Reablement Service as part of its statutory obligations under the Care Act 2014. Reablement is available for all residents, however the significant majority of service users are aged 65 and over. This review makes a number of recommendations to ensure all elderly people in the borough are supported to be as independent as possible and have easy access to reablement services through improved partnership working with the NHS and other key stakeholders, strengthening engagement with the third sector, and improving communication to effectively convey the role of the reablement service.

7. BEST VALUE (BV) IMPLICATIONS

- 7.1. The recommendations in this report are made as part of the Overview & Scrutiny Committee's role in helping to secure continuous improvement for the council, as required under its Best Value duty

8. SUSTAINABLE ACTION FOR A GREENER ENVIRONMENT

- 8.1. There are no direct environmental implications arising from the report or recommendations.

9. RISK MANAGEMENT IMPLICATIONS

- 9.1. There are no direct risk management implications arising from the report or recommendations.

10. CRIME AND DISORDER REDUCTION IMPLICATIONS

- 10.1. There are no direct crime and disorder reduction implications arising from the report or recommendations.
