Notice of Application

RE: 56 Skylines Village Limeharbour E14 9TS

Dear Whom It may Concern at the London Borough of Tower Hamlets.

I am contacting you regarding the application for the Ground level of 56 Skylines Village's Planning Application to get permission to operate and obtain a licence for 'Special Treatments'.

I really needed to contact you today as I saw this notice on this unit's window and had to contact someone stating my absolute rejection of this application.

I work in another unit of Skylines Village and it is considered by many that this place calling for this "Special Treatment" license is being used unsavourily.

This ground floor unit has its windows completely blacked out at the front and rear. From lunchtime until late evening there are ONLY men who go into the ground floor unit and men who come out. There are a couple of Chinese women who work there. It is well in the area that this place is a place where only men go to get a massage AND Special extras. Some in the area would call this place a brothel. Therefore, given this is a working village where I work it is not pleasant to have this type of business so nearby and I reject the license application.

A few residents here really think this unit needs to be investigated.

Thank you for your time
