

Better Care Fund 2019/20 Template

1. Guidance

Overview

Note on entering information into this template

Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a grey background, as below:

Data needs inputting in the cell

Pre-populated cells

Note on viewing the sheets optimally

For a more optimal view each of the sheets and in particular the drop down lists clearly on screen, please change the zoom level between 90% - 100%. Most drop downs are also available to view as lists within the

The details of each sheet within the template are outlined below.

Checklist (click to go to Checklist, included in the Cover sheet)

1. This section helps identify the data fields that have not been completed. All fields that appear as incomplete should be complete before sending to the Better Care Support Team.
2. It is sectioned out by sheet name and contains the description of the information required, cell reference for the question and the 'checker' column which updates automatically as questions within each sheet are
3. The checker column will appear 'Red' and contain the word 'No' if the information has not been completed. Clicking on the corresponding 'Cell Reference' column will link to the incomplete cell for completion. Once completed the checker column will change to 'Green' and contain the word 'Yes'
4. The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word
5. Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will
6. Please ensure that all boxes on the checklist are green before submission.

2. Cover (click to go to sheet)

1. The cover sheet provides essential information on the area for which the template is being completed,
 2. Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green. Only when all cells are green
 3. Please note that in line with fair processing of personal data we collect email addresses to communicate with key individuals from the local areas for various purposes relating to the delivery of the BCF plans including plan development, assurance, approval and provision of support.
- We remove these addresses from the supplied templates when they are collated and delete them when they are no longer needed.

4. Strategic Narrative (click to go to sheet)

This section of the template should set out the agreed approach locally to integration of health & social care. The narratives should focus on updating existing plans, and changes since integration plans were set out until 2020 rather than reiterating them and can be short. Word limits have been applied to each section and these

1. Approach to integrating care around the person. This should set out your approach to integrating health and social care around the people, particularly those with long term health and care needs. This should
- 2 i. Approach to integrating services at HWB level (including any arrangements at neighbourhood level where relevant). This should set out the agreed approach and services that will be commissioned through the BCF. Where schemes are new or approaches locally have changed, you should set out a short rationale.
- 2 ii. DFG and wider services. This should describe your approach to integration and joint commissioning/delivery with wider services. In all cases this should include housing, and a short narrative on use of the DFG to support people with care needs to remain independent through adaptations or other capital
3. How your BCF plan and other local plans align with the wider system and support integrated approaches. Examples may include the read across to the STP (Sustainability Transformation Partnerships) or ICS

You can attach (in the e-mail) visuals and illustrations to aid understanding if this will assist assurers in

5. Income ([click to go to sheet](#))

1. This sheet should be used to specify all funding contributions to the Health and Wellbeing Board's Better Care Fund (BCF) plan and pooled budget for 2019/20. On selected the HWB from the Cover page, this sheet will be pre-populated with the minimum CCG contributions to the BCF, DFG (Disabled Facilities Grant), iBCF
2. Please select whether any additional contributions to the BCF pool are being made from Local Authorities or the CCGs and as applicable enter the amounts in the fields highlighted in 'yellow'. These will appear as funding sources when planning expenditure. The fields for Additional contributions can be utilised to include
3. Please use the comment boxes alongside to add any specific detail around this additional contribution including any relevant carry-overs assigned from previous years. All allocations are rounded to the nearest
4. For any questions regarding the BCF funding allocations, please contact

6. Expenditure (click to go to sheet)

This sheet should be used to set out the schemes that constitute the BCF plan for the HWB including the planned expenditure and the attributes to describe the scheme. This information is then aggregated and utilised to analyse the BCF plans nationally and sets the basis for future reporting and to particularly The table is set out to capture a range of information about how schemes are being funded and the types of services they are providing. There may be scenarios when several lines need to be completed in order to fully describe a single scheme or where a scheme is funded by multiple funding streams (eg: iBCF and CCG minimum). In this case please use a consistent scheme ID for each line to ensure integrity of aggregating and On this sheet please enter the following information:

1. Scheme ID:

- This field only permits numbers. Please enter a number to represent the Scheme ID for the scheme being entered. Please enter the same Scheme ID in this column for any schemes that are described across multiple

2. Scheme Name:

- This is a free field to aid identification during the planning process. Please use the scheme name consistently if the scheme is described across multiple lines in line with the scheme ID described above.

3. Brief Description of Scheme

- This is free text field to include a brief headline description of the scheme being planned.

4. Scheme Type and Sub Type:

- Please select the Scheme Type from the drop-down list that best represents the type of scheme being planned. A description of each scheme is available at the end of the table (follow the link to the description section at the top of the main expenditure table).

- Where the Scheme Types has further options to choose from, the Sub Type column alongside will be editable and turn "yellow". Please select the Sub Type from the drop down list that best describes the scheme being planned.

- Please note that the drop down list has a scroll bar to scroll through the list and all the options may not appear in one view.

- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field

5. Planned Outputs

- The BCF Planning requirements document requires areas to set out planned outputs for certain scheme types (those which lend themselves to delivery of discrete units of delivery) to help to better understand and account for the activity funded through the BCF.

- The Planned Outputs fields will only be editable if one of the relevant scheme types is selected. Please select

6. Metric Impact

- This field is collecting information on the metrics that a chem will impact on (rather than the actual planned impact on the metric)

- For the schemes being planned please select from the drop-down options of 'High-Medium-Low-n/a' to provide an indicative level of impact on the four BCF metrics. Where the scheme impacts multiple metrics, this can be expressed by selecting the appropriate level from the drop down for each of the metrics. For example, a discharge to assess scheme might have a medium impact on Delayed Transfers of Care and

7. Area of Spend:

- Please select the area of spend from the drop-down list by considering the area of the health and social system which is most supported by investing in the scheme.

- Please note that where 'Social Care' is selected and the source of funding is "CCG minimum" then the planned spend would count towards National Condition 2.

- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.

- We encourage areas to try to use the standard scheme types where possible.

8. Commissioner:

- Identify the commissioning entity for the scheme based on who commissions the scheme from the provider. If there is a single commissioner, please select the option from the drop-down list.
- Please note this field is utilised in the calculations for meeting National Condition 3.
- If the scheme is commissioned jointly, please select 'Joint'. Please estimate the proportion of the scheme being commissioned by the local authority and CCG/NHS and enter the respective percentages on the two

9. Provider:

- Please select the 'Provider' commissioned to provide the scheme from the drop-down list.
- If the scheme is being provided by multiple providers, please split the scheme across multiple lines.

10. Source of Funding:

- Based on the funding sources for the BCF pool for the HWB, please select the source of funding for the scheme from the drop-down list
- If the scheme is funding across multiple sources of funding, please split the scheme across multiple lines,

11. Expenditure (£) 2019/20:

- Please enter the planned spend for the scheme (or the scheme line, if the scheme is expressed across

12. New/Existing Scheme

- Please indicate whether the planned scheme is a new scheme for this year or an existing scheme being

This is the only detailed information on BCF schemes being collected centrally for 2019/20 and will inform the understanding of planned spend for the iBCF and Winter Funding grants.

7. HICM (click to go to sheet)

National condition four of the BCF requires that areas continue to make progress in implementing the High Impact Change model for managing transfers of care and continue to work towards the centrally set

- An assessment of your current level of implementation against each of the 8 elements of the model – from a
- Your planned level of implementation by the end March 2020 – again from a drop-down list

A narrative that sets out the approach to implementing the model further. The Narrative section in the HICM ta

8. Metrics (click to go to sheet)

This sheet should be used to set out the Health and Wellbeing Board's performance plans for each of the Better Care Fund metrics in 2019/20. The BCF requires plans to be agreed for the four metrics. This should

1. Non-Elective Admissions (NEA) metric planning:

- BCF plans as in previous years mirror the latest CCG Operating Plans for the NEA metric. Therefore, this

- This section requires inputting the information for the numerator of the measure.

- Please enter the planned number of council-supported older people (aged 65 and over) whose long-term support needs will be met by a change of setting to residential and nursing care during the year (excluding transfers between residential and nursing care) for the Residential Admissions numerator measure.

- The prepopulated denominator of the measure is the size of the older people population in the area (aged 65 and over) taken from ONS subnational population projections.

- The annual rate is then calculated and populated based on the entered information.

- Please include a brief narrative associated with this metric plan

2. Reablement (NEA) planning:

- This section requires inputting the information for the numerator and denominator of the measure.

- Please enter the planned denominator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (or from hospital to a residential or nursing care home or extra care housing for rehabilitation, with a clear intention that they will move on/back to their own home).

- Please then enter the planned numerator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (from within the denominator) that will still be at home 91 days after discharge.

- The annual proportion (%) Reablement measure will then be calculated and populated based on this

4. Delayed Transfers of Care (DToC) planning:

- The expectations for this metric from 2018/19 are retained for 2019/20 and these are prepopulated.

- Please include a brief narrative associated with this metric plan.

- This narrative should include details of the plan, agreed between the local authority and the CCG for using the Winter Pressures grant to manage pressures on the system over Winter.

9. Planning Requirements (click to go to sheet)

This sheet requires the Health & Wellbeing Board to confirm whether the National Conditions and other Planning Requirements detailed in the BCF Policy Framework and the BCF Requirements document are met.

Please refer to the BCF Policy Framework and BCF Planning Requirements documents for 2019/20 for further The Key Lines of Enquiry (KLOE) underpinning the Planning Requirements are also provided for reference as they will be utilised to assure plans by the regional assurance panel.

1. For each Planning Requirement please select 'Yes' or 'No' to confirm whether the requirement is met for the

2. Where the confirmation selected is 'No', please use the comments boxes to include the actions in place towards meeting the requirement and the target timeframes.

10. CCG-HWB Mapping (click to go to sheet)

The final sheet provides details of the CCG - HWB mapping used to calculate contributions to Health and Wellbeing Board level non-elective activity figures.

4. Strategic Narrative

Selected Health and Wellbeing Board:

Tower Hamlets

Please outline your approach towards integration of health & social care:

When providing your responses to the below sections, please highlight any learning from the previous planning round (2017-2019) and cover any priorities for reducing health inequalities under the Equality Act 2010.

Please note that there are 4 responses required below, for questions: A), B(i), B(ii) and C)

[Link to B\) \(i\)](#)

[Link to B\) \(ii\)](#)

[Link to C\)](#)

A) Person-centred outcomes

Your approach to integrating care around the person, this may include (but is not limited to):

- Prevention and self-care

- Promoting choice and independence

Remaining Word Limit:

16

Tower Hamlets Together (THT)

The shared principle mission of our Borough based health and care partnership, Tower Hamlets Together, is to 'transform people's health and lives, reduce inequalities and reorganise services to match people's needs'. In order to achieve this shared mission, THT has an agreed vision, objectives and priorities for action to ensure that each local organisation is aligned as a system partner to deliver care that is integrated around the person.

Background

Tower Hamlets Together was established in 2016 and is a partnership made up of health and care organisation's who are responsible for the planning and delivery of prevention, health and care services. The partnership is made up of;

- London Borough of Tower Hamlets • NHS Tower Hamlets Clinical Commissioning Group • Barts Health NHS Trust • East London Foundation Trust • Tower Hamlets GP Care Group • Community and Voluntary Sector

As noted above Tower Hamlets Together have identified four priorities for action which are to (1) develop our partnership and collaborate as health and care providers and commissioners, with service users and carers, to plan and solve problems together, (2) deliver on health priorities and inequalities to support individuals, families and communities to live healthy thriving lives, (3) design care around people by providing accessible and responsive health and care services, and deliver person-centred integrated health and social care for those who need it and (4) develop our teams and infrastructure to ensure Tower Hamlets Together staff and teams have the right support, skills, knowledge and approach.

Integrating care around the person

Our third priority for action, to design care around people, is especially important to people who have complex health and/or care needs as they are much more likely to be in touch with multiple services. Tower Hamlets Together partners take a 'population segmentation' approach which identifies those who are most at need of coordinated support. The population is primarily divided into three segments; whole population, people with complex needs and healthy people. The aims for each population grouping, as defined by the partnership, are listed below. These aims are addressed through three life-course programme boards known locally as workstreams. 'Born Well, Growing Well' (Children 0-18) 'Living Well' (Healthy Adults) and 'Promoting Independence' (Complex Adults).

Whole population (overseen by Born Well, Growing Well and Living Well workstreams)

- Support individuals and communities to self-care
- Simplify the health and care system, making it easier to understand and access
- Deliver a streamlined urgent care pathway
- Tackle the wider determinants of health and reduce health inequalities
- Ensure service users and carers are equal and active partners

People with complex needs (overseen by the Promoting Independence workstreams)

- Provide whole person, mental physical health and social care
- Support people to meet life, as well as health goals

B) HWB level

(i) Your approach to integrated services at HWB level (and neighbourhood where applicable), this may include (but is not limited to):

- Joint commissioning arrangements
- Alignment with primary care services (including PCNs (Primary Care Networks))
- Alignment of services and the approach to partnership with the VCS (Voluntary and Community Sector)

[^^ Link back to top](#)

Remaining Word Limit:

Tower Hamlets Together (THT) is a partnership of local health and social care organisations working towards the shared aim of improving the health and wellbeing of people in Tower Hamlets. It's plans involve working together to design services that address local priorities through joint planning, joint commissioning, and the alignment of operational health and care teams in the community, whilst at the same time working with wider planning footprints to ensure the system as a whole secures the best possible outcomes and maximum value for the collective investment. The partnership includes Tower Hamlets Council, CCG, GP Care Group, East London Foundation Trust, Barts Health Trust and TH Council for Voluntary Service.

At a place level Tower Hamlets are taking a whole population approach and have developed three lifecourse workstreams which are:

1. Born Well and Growing Well – focussing on maternity, children and young adults
2. Living Well – focussing on mainly healthy adults
3. Promoting Independence – focussing on complex and older adults

On behalf of the THT Board, each workstream takes a leading role in promoting the health and well-being of the sector of the population with which it is concerned. It also has an oversight role of health and social care integration, including service redesign, transformation and innovation.

At the neighbourhood level, THT have developed the Locality Health and Well Being Committees which have a wider remit that involves the delivery of integrated care and of the broader population health strategy to embed a prevention approach across the system, which will focus on the wider determinants of health, with the long-term aim of reducing health inequalities.

At the network level Tower Hamlets have the nationally recognised GP Care Group, with its eight Primary Care Networks (PCN) across the borough, which provides one of the foundations for the four locality-based committees and the Multi-Disciplinary Team ("MDT") arrangements now operating across the borough. These are supported by locality based community health teams and the intention is to integrate mental health teams into this locality model. In addition, the council have aligned its social care delivery to the locality structures. These changes build on a number of initiatives, including the work of the Community Health Teams, the work of the seven-day hospital social work team and the community equipment service and the proactive use of Reablement to reduce pressure on the health system. Our reablement service was recently inspected by the Care Quality Commission (CQC) and is rated as 'good'.

The CCG and the local authority are forging ahead with integrated commissioning, as the best means of meeting the financial challenges ahead and established a Joint Commissioning Executive in 2016, comprised of senior managers from the CCG and the council. The JCE sits within the THT and the Health and Well Being Board governance structure and is responsible for the joint strategic commissioning of services in Tower Hamlets for children and young people, adults and public health. The JCE is responsible for coordinating the development of joint strategies for health and social care and ensuring necessary arrangements are in place to implement these strategies and procure service changes. In addition, it is responsible for strategic market development and management and overseeing plans to recommission and de-commission services, as well as aligning this work with joint strategic procurement plans.

The CCG and council have appointed a Joint Director of Integrated Commissioning under whom the commissioning teams have been brought together. Key priorities here are to further align and pool budgets across commissioning, further align/integrate commissioning and service delivery and develop a framework for governance and accountability for the THT system to include decision making and risk share, within the emerging WEL model.

(ii) Your approach to integration with wider services (e.g. Housing), this should include:

- Your approach to using the DFG to support the housing needs of people with disabilities or care needs. This should include any arrangements for strategic planning for the use of adaptations and technologies to support independent living in line with the

[^^ Link back to top](#)

57

The Disabled Facilities Grant (DFG) plays an important part in Tower Hamlets' approach to integrated care. Expenditure of the 2019-20 DFG has been agreed with the local Housing Authority and centres on meeting our duties to provide adaptations and facilities in the homes of disabled people, as set out in the Housing Grants, Construction and Regeneration Act, 1996.

The local authority provides services to clients requiring adaptations through its Occupational Therapist service and Home Improvement Agency. It works closely with Registered Providers which own the majority of social housing in the borough. The tenants of the borough's Registered Providers account for around 75% of DFG expenditure. This spend reflects the relatively low level of owner occupied housing in the borough.

Since the integration of DFG into the Better Care Fund, a cross divisional DFG Working Group has been established within the council to review the DFG programme, consider a pathway redesign for DFG and the DFG's integration with assistive technology and other Home Care services. The Working Group is also currently giving consideration to how it can make better use of the flexibility allowed in DFG spending by the Regulatory Reform (Housing Assistance)(England and Wales) Order 2002 by ring-fencing part of our allocation for innovative projects to tackle wider housing and social care issues, including for example, hoarding.

Since 2008, the grant level had been capped at £30,000 per household, however this was not deemed as adequate enough to cover the cost of some extensions. In November 2017, the Mayor in Cabinet agreed to amend the existing policy to enable discretionary grants beyond the £30,000 limit, primarily to enable the Council to facilitate extensions to properties where alternative, suitable, and less expensive adaptations could not be provided.

In 2018, we carried out a full review of emerging good practice in regards to the wider use of DFG and engaged with Foundations, the Government's appointed advisory agency for best practice in the delivery of DFGs and extended use of the grant allowed under the RRO. In order to create greater flexibility within the fund and address housing issues on a wider preventative basis, it was agreed by the Mayor in Cabinet to extend the fund on a discretionary basis to allow the use of the grant in the following areas:

- Relocation Grants - Relocation grants enable the Council to assist homeowners to move to a more suitable property where an in situ solution cannot be provided. Although they are rarely likely to be used, grants could cover removal costs, reconnection fees and legal costs.
- Hospital Discharge Grants – DFG grants are available for fast track works, including deep cleaning; decluttering and minor repairs which can speed up the hospital discharge process.
- Dementia Grants – Dementia grants can be used to replace gas, electric cooking facilities with microwaves and specialist assistive technology such as GIS tracking devices where appropriate.
- Assistive Technology and Equipment - The Council provides comprehensive assistive technology and equipment services including deaf/blind aids. DFG spend is used to supplement this service where an unmet demand can be identified.

Independent Living Project (ILP)

The Independent Living Project was initiated in July 2018 and reports into our Frontline Services Programme Board and the Tower Hamlets Together "Living Well" workstream and aims to develop a cohesive model for the provision of assistive technology/telecare, equipment and adaptations to enable more people to live as independently as possible for as long as possible and that allows people to access support quickly when they need it, without the need to unnecessarily come into the health and social care system and to ensure that requests are dealt with as quickly as possible.

C) System level alignment, for example this may include (but is not limited to):

- How the BCF plan and other plans align to the wider integration landscape, such as STP/ICS plans
- A brief description of joint governance arrangements for the BCF plan

The Tower Hamlets Together place based partnership will ensure that the development and delivery of the commissioning strategy is aligned with, and exploits opportunities for added value in developments with the East London Health and Care Partnership (ELHCP - the North East London STP) and at other relevant footprints including the Waltham Forest & East London System (WEL).

Some of the Tower Hamlets Together partners already work across several East London boroughs and beyond, for example Barts Health also work across Waltham Forest and Newham, and ELFT across City & Hackney and Newham and beyond. In this context, Tower Hamlets commissioning & provider partners are also working together across the East London Health and Care Partnership and the WEL systems to plan and deliver services and manage problems at scale, where this makes sense. Across North East London we have broadly agreed what happens at the various levels of integration as per the below, however discussions on the design of the Integrated Care System continue as we develop our response to the NHS Long Term Plan:

NETWORK – LOCALITY HEALTH AND WELLBEING COMMITTEES including PCNs:

- Understanding local need, including predictive analysis
- Coordinating care for the defined population
- Improving service access and quality
- Addressing inequalities and unmet need
- Co-producing and co-designing health services with patients and the public
- Helping people to stay healthy to include the wider determinants of health and positive mental wellbeing
- Using personalised interventions to support care navigation e.g. social prescribing
- Mobilising community assets to improve health and wellbeing

BOROUGH/PLACE - TOWER HAMLETS TOGETHER:

- Developing local health and care plans to integrate delivery of health and social care, voluntary and community services at
- Neighbourhood/network and borough level to address key challenges and improve outcomes
- Ensuring borough-based service commissioning and delivery
- Supporting the development of neighbourhoods and networks and to hold them too account
- Addressing inequalities within and between neighbourhoods/networks
- Focus on effective use of resources across the system, improving outcomes and quality improvement

MULTI-BOROUGH - WEL:

- Strengthen system support for local health and care integration partnerships and plans
- Enable and support greater provider collaboration, increasing utilisation of existing capacity and resource
- Scale up transformation efforts to maximise population impact
- Develop and enable a collaborative approach to tackling significant system challenges

REGION - EAST LONDON HEALTH AND CARE PARTNERSHIP (ICS):

- Oversight and support of system development and 'once for north east London' infrastructure development e.g. new payment mechanisms
- Delivering on enablers to support system development including digital, workforce and estates
- Holding systems to account for delivery of outcomes-based care
- Develops the evidence base that tests new and innovative solutions for specific population
- Leading planning and commissioning of service change best planned across the East London Health and Care Partnership footprint
- Overall financial strategy including transformation funds and risk management
- Strategic commissioning development around key priorities and outcomes
- Commissioning governance and decision making
- Future responsibility for specialised commissioning

The Waltham Forest and North East London (WEL) partnership covers three of the local boroughs within the East London Health and Care Partnership known as WEL (spanning the London Boroughs of Tower Hamlets, Waltham Forest and Newham). Within WEL there are three CCGs and councils and three NHS trusts: Barts Health, East London Foundation Trust and North East London Foundation Trust serving a population of 1.2 million people.

[^^ Link back up](#)

<u>Scheme Type</u>	<u>Description</u>	<u>Sub Type</u>
Assistive Technologies and Equipment	Using technology in care processes to supportive self-management, maintenance of independence and more efficient and effective delivery of care. (eg. Telecare, Wellness services, Digital participation services).	Telecare Wellness Services Digital Participation Services Community Based Equipment Other
Care Act Implementation Related Duties	Funding planned towards the implementation of Care Act related duties.	Deprivation of Liberty Safeguards (DoLS) Other
Carers Services	Supporting people to sustain their role as carers and reduce the likelihood of crisis. Advice, advocacy, information, assessment, emotional and physical support, training, access to services to support wellbeing and improve independence. This also includes the implementation of the Care Act as a sub-type.	Carer Advice and Support Respite Services Other
Community Based Schemes	Schemes that are based in the community and constitute a range of cross sector practitioners delivering collaborative services in the community typically at a neighbourhood level (eg: Integrated Neighbourhood Teams)	
DFG Related Schemes	The DFG is a means-tested capital grant to help meet the costs of adapting a property; supporting people to stay independent in their own homes.	Adaptations Other

Enablers for Integration	Schemes that build and develop the enabling foundations of health and social care integration encompassing a wide range of potential areas including technology, workforce, market development (Voluntary Sector Business Development: Funding the business development and preparedness of local voluntary sector into provider Alliances/ Collaboratives) and programme management related schemes. Joint commissioning infrastructure includes any personnel or teams that enable joint commissioning. Schemes could be focused on Data Integration, System IT Interoperability, Programme management, Research and evaluation, Supporting the Care Market, Workforce development, Community asset mapping, New governance arrangements, Voluntary Sector Development, Employment services, Joint commissioning infrastructure amongst others.	
High Impact Change Model for Managing Transfer of Care	The eight changes or approaches identified as having a high impact on supporting timely and effective discharge through joint working across the social and health system. The Hospital to Home Transfer Protocol or the 'Red Bag' scheme, while not in the HICM as such, is included in this section.	Chg 1. Early Discharge Planning Chg 2. Systems to Monitor Patient Flow Chg 3. Multi-Disciplinary/Multi-Agency Discharge Teams Chg 4. Home First / Discharge to Access Chg 5. Seven-Day Services Chg 6. Trusted Assessors Chg 7. Focus on Choice Chg 8. Enhancing Health in Care Homes Other - 'Red Bag' scheme Other approaches
Home Care or Domiciliary Care	A range of services that aim to help people live in their own homes through the provision of domiciliary care including personal care, domestic tasks, shopping, home maintenance and social activities. Home care can link with other services in the community, such as supported housing, community health services and voluntary sector services.	
Housing Related Schemes	This covers expenditure on housing and housing-related services other than adaptations; eg: supported housing units.	

<p>Integrated Care Planning and Navigation</p>	<p>Care navigation services help people find their way to appropriate services and support and consequently support self-management. Also, the assistance offered to people in navigating through the complex health and social care systems (across primary care, community and voluntary services and social care) to overcome barriers in accessing the most appropriate care and support. Multi-agency teams typically provide these services which can be online or face to face care navigators for frail elderly, or dementia navigators etc. This includes approaches like Single Point of Access (SPoA) and linking people to community assets.</p> <p>Integrated care planning constitutes a co-ordinated, person centred and proactive case management approach to conduct joint assessments of care needs and develop integrated care plans typically carried out by professionals as part of a multi-disciplinary, multi-agency teams.</p> <p>Note: For Multi-Disciplinary Discharge Teams and the HICM for managing discharges, please select HICM as scheme type and the relevant sub-type. Where the planned unit of care delivery and funding is in the form of Integrated care packages and needs to be expressed in such a manner, please select the appropriate sub-type alongside.</p>	<p>Care Coordination Single Point of Access Care Planning, Assessment and Review Other</p>
<p>Intermediate Care Services</p>	<p>Short-term intervention to preserve the independence of people who might otherwise face unnecessarily prolonged hospital stays or avoidable admission to hospital or residential care. The care is person-centred and often delivered by a combination of professional groups. Four service models of intermediate care are: bed-based intermediate care, crisis or rapid response (including falls), home-based intermediate care, and reablement or rehabilitation. Home-based intermediate care is covered in Scheme-A and the other three models are available on the sub-types.</p>	<p>Bed Based - Step Up/Down Rapid / Crisis Response Reablement/Rehabilitation Services Other</p>

Personalised Budgeting and Commissioning	Various person centred approaches to commissioning and budgeting.	Personal Health Budgets Integrated Personalised Commissioning Direct Payments Other
Personalised Care at Home	Schemes specifically designed to ensure that a person can continue to live at home, through the provision of health related support at home often complemented with support for home care needs or mental health needs. This could include promoting self-management/expert patient, establishment of 'home ward' for intensive period or to deliver support over the longer term to maintain independence or offer end of life care for people. Intermediate care services provide shorter term support and care interventions as opposed to the ongoing support provided in this scheme type.	
Prevention / Early Intervention	Services or schemes where the population or identified high-risk groups are empowered and activated to live well in the holistic sense thereby helping prevent people from entering the care system in the first place. These are essentially upstream prevention initiatives to promote independence and well being.	Social Prescribing Risk Stratification Choice Policy Other
Residential Placements	Residential placements provide accommodation for people with learning or physical disabilities, mental health difficulties or with sight or hearing loss, who need more intensive or specialised support than can be provided at home.	Supported Living Learning Disability Extra Care Care Home Nursing Home Other
Other	Where the scheme is not adequately represented by the above scheme types, please outline the objectives and services planned for the scheme in a short description in the comments column.

Better Care Fund 2019/20 Template

7. High Impact Change Model

Selected Health and Wellbeing Board:

Tower Hamlets

Explain your priorities for embedding elements of the High Impact Change Model for Managing Transfers of Care locally, including:

- Current performance issues to be addressed
- The changes that you are looking to embed further - including any changes in the context of commitments to reablement and Enhanced Health in Care Homes in the NHS Long-Term Plan
- Anticipated improvements from this work

Over the next 6 months our focus remains on

- choice as a key priority for further embedding. Although we consider ourselves to be Mature in this regard, the scale of activity and turnover of staff at the Royal London Hospital means that it is necessary to continuously focus on ensuring that patients are getting the right messages about discharge from point of admission forward
- additional Community Geriatrician capacity which will support increased levels of engagement with care homes in respect of EHCH activity
- introducing a 'no DST in acute settings' ambition, initially on care of the elderly wards, from Autumn 2019 which will continue to drive improvements in DST's being completed at home or in step down provision

See the table below for our focus on each of the 8 HICM

		Please enter current position of maturity	Please enter the maturity level planned to be reached by March 2020	If the planned maturity level for 2019/20 is below established, please state reasons behind that?
Chg 1	Early discharge planning	Established	Established	Over the next 6 months we will be starting a pilot on 14th floor at the Royal London Hospital (RLH) for a no DST in hospital policy which commences in October. ECIST are working with the RLH on early discharge planning starting w/c 23.9.19. There have been updates to the internal hospital CRS system to enable live data reporting to support planning. We are looking at national areas of good practice and visiting Bristol hospital on 24.9.19
Chg 2	Systems to monitor patient flow	Mature	Mature	
Chg 3	Multi-disciplinary/Multi-agency discharge teams	Mature	Mature	over the next 6 months we will be embedding the new triage arrangements which are designed to ensure that all individuals being discharged to one of our rehabilitation / reablement services are streamed to the most appropriate service to minimise the risk of re-admission.
Chg 4	Home first / discharge to assess	Established	Mature	over the next 6 months we will be progressing our 'no DST in acute' programme across the Care of the Elderly wards at the Royal London Hospital prior to rolling the approach out across the whole hospital.
Chg 5	Seven-day service	Established	Mature	
Chg 6	Trusted assessors	Mature	Mature	over the next 6 months we will be continuing to increase the number of care homes who accept the Trusted Assessor's assessments and increasing TA capacity over the winter period to ensure out of hours cover.
Chg 7	Focus on choice	Mature	Mature	
Chg 8	Enhancing health in care homes	Mature	Mature	over the next 6 months we will be increasing the community geriatrician time available to provide specialist support to both nursing and residential care homes via 'ward rounds' and other focused interventions.

Better Care Fund 2019/20 Template

8. Metrics

Selected Health and Wellbeing Board:

Tower Hamlets

8.1 Non-Elective Admissions

	19/20 Plan	Overview Narrative
Total number of specific acute non-elective spells per 100,000 population	<p>Collection of the NEA metric plans via this template is not required as the BCF NEA metric plans are based on the NEA CCG Operating plans submitted via SDCS.</p>	<p>Tower Hamlets annual 2018/19 target for non-elective admissions (NEA) was exceeded. As of the Month 3 of 2019/20, the CCG is reporting being 1.49% above the activity plan submitted to NHS England; a reduction compared to the previous month (3.77%).</p> <p>Why is performance off target? The non-elective over performance can be linked to the increase in A&E attendances being above plan, the main driver being type 1 ED attendances.</p> <p>What actions will be taken? A full audit of non-elective including ambulatory care was completed at Bart's although the results are yet to be published. The three Audits of Non Elective Activity and Coding are as follows: Accuracy of recording of non- elective admissions, Ambulatory Care activity, counting and coding changes. As a system, we continue to offer and promote extended access in primary care hubs. The hub slots are also available to clinicians in A/E. The opening of the Urgent Treatment Centre will support the system in the reduction. In 19-20, we will be focusing on OIPP schemes aimed at a reducing</p>

Please set out the overall plan in the HWB area for reducing Non-Elective Admissions, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Plans are yet to be finalised and signed-off so are subject to change; **for the latest version of the NEA CCG operating plans at your HWB footprint please contact your local Better Care Manager (BCM)** in the first instance or write in to the support inbox: ENGLAND.bettercaresupport@nhs.net

8.2 Delayed Transfers of Care

19/20 Plan	Overview Narrative
------------	--------------------

<p>Delayed Transfers of Care per day (daily delays) from hospital (aged 18+)</p>	<p>13.3</p>	<p>During 2018/19 the new revised target of 13 DTOCs per month was only met in 4 out of the 12 months. In 2019/20 year to date figures show that we have not met this target.</p> <p>The monthly performance (where published) for the year of 2019/20 is below:</p> <ul style="list-style-type: none"> • 22 delayed days in April 2019 • 15 delayed days in May 2019 • 16 delayed days in June 2019 • 18 delayed days in July 2019 	<p>Please set out the overall plan in the HWB area for reducing Delayed Transfers of Care to meet expectations set for your area. This should include any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric. Include in this, your agreed plan for using the Winter Pressures grant funding to support the local health and care system to manage demand pressures on the NHS, with particular reference to seasonal winter pressures.</p>
--	-------------	---	---

Please note that the plan figure for Greater Manchester has been combined, for HWBs in Greater Manchester please comment on individual HWBs rather than Greater Manchester as a whole. Please note that due to the merger of Bournemouth, Christchurch and Poole to a new Local Authority will mean that planning information from 2018/19 will not reflect the present geographies.

8.3 Residential Admissions

		18/19 Plan	19/20 Plan	Comments
Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000 population	Annual Rate	477	480	<ul style="list-style-type: none"> The hospital social work teams are working towards a Home First culture. We are currently reviewing the processes used for agreeing placements and are working towards setting up a scrutiny process to ensure alternative care is considered prior to agreeing a placement Mental Health – we are in the process of developing a project focusing on reviewing all MH placements to ensure the service users continue to meet the criteria for a residential placement. The aim will be to mimic the scrutiny process developed in Adult Social Care in Mental Health. The target last year was not achieved therefore it has been agreed to retain the current target for this year.
	Numerator	95	97.6	
	Denominator	19,931	20,354	

Please set out the overall plan in the HWB area for reducing rates of admission to residential and nursing homes for people over the age of 65, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000 population (aged 65+) population projections are based on a calendar year using the 2016 based Sub-National Population Projections for Local Authorities in England;

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

8.4 Reablement

		18/19 Plan	19/20 Plan	Comments
Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement / rehabilitation services	Annual (%)	83.1%	83.1%	<ul style="list-style-type: none"> The service was inspected by the CQC and was rated Good. There is a robust internal performance monitoring framework to ensure effectiveness of the service. There will be more work done around the referral process and criteria to ensure people are medically well before accessing the service. Last year the service missed the target by 13%, therefore it was agreed to retain the target for this year.
	Numerator	108	108	
	Denominator	130	130	

Please set out the overall plan in the HWB area for increasing the proportion of older people who are still at home 91 days after discharge from hospital into reablement/rehabilitation, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

Better Care Fund 2019/20 Template

9. Confirmation of Planning Requirements

Selected Health and Wellbeing Board:

Tower Hamlets

Theme	Code	Planning Requirement	Key considerations for meeting the planning requirement These are the Key Lines of Enquiry (KLOEs) underpinning the Planning Requirements (PR)	Please confirm whether your BCF plan meets the Planning Requirement?	Please note any supporting documents referred to and relevant page numbers to assist the assurers	Where the Planning requirement is not met, please note the actions in place towards meeting the requirement	Where the Planning requirement is not met, please note the anticipated timeframe for meeting it
NC1: Jointly agreed plan	PR1	A jointly developed and agreed plan that all parties sign up to	<p>Has a plan; jointly developed and agreed between CCG(s) and LA; been submitted?</p> <p>Has the HWB approved the plan/delegated approval pending its next meeting?</p> <p>Have local partners, including providers, VCS representatives and local authority service leads (including housing and DFG leads) been involved in the development of the plan?</p> <p>Do the governance arrangements described support collaboration and integrated care?</p> <p>Where the strategic narrative section of the plan has been agreed across more than one HWB, have individual income, expenditure, metric and HICM sections of the plan been submitted for each HWB concerned?</p>	Yes	BCF template		
	PR2	A clear narrative for the integration of health and social care	<p>Is there a narrative plan for the HWB that describes the approach to delivering integrated health and social care that covers:</p> <ul style="list-style-type: none"> - Person centred care, including approaches to delivering joint assessments, promoting choice, independence and personalised care? - A clear approach at HWB level for integrating services that supports the overall approach to integrated care and confirmation that the approach supports delivery at the interface between health and social care? - A description of how the local BCF plan and other integration plans e.g. STP/ICs align? - Is there a description of how the plan will contribute to reducing health inequalities (as per section 4 of the Health and Social Care Act) and to reduce inequalities for people with protected characteristics under the Equality Act 2010? This should include confirmation that equality impacts of the local BCF plan have been considered, a description of local priorities related to health inequality and equality that the BCF plan will contribute to addressing. <p>Has the plan summarised any changes from the previous planning period? And noted (where appropriate) any lessons learnt?</p>	Yes	TH partnership vision: https://www.towerhamletstog.ether.com/resource-library		
	PR3	A strategic, joined up plan for DFG spending	<p>Is there confirmation that use of DFG has been agreed with housing authorities?</p> <p>Does the narrative set out a strategic approach to using housing support, including use of DFG funding that supports independence at home.</p> <p>In two tier areas, has:</p> <ul style="list-style-type: none"> - Agreement been reached on the amount of DFG funding to be passed to district councils to cover statutory Disabled Facilities Grants? or - The funding been passed in its entirety to district councils? 	Yes			
NC2: Social Care Maintenance	PR4	A demonstration of how the area will maintain the level of spending on social care services from the CCG minimum contribution to the fund in line with the uplift in the overall contribution	Does the total spend from the CCG minimum contribution on social care match or exceed the minimum required contribution (auto-validated on the planning template)?	Yes			
NC3: NHS commissioned Out of Hospital Services	PR5	Has the area committed to spend at equal to or above the minimum allocation for NHS commissioned out of hospital services from the CCG minimum BCF contribution?	Does the total spend from the CCG minimum contribution on non-acute, NHS commissioned care exceed the minimum ringfence (auto-validated on the planning template)?	Yes			
NC4: Implementation of the High Impact Change Model for Managing Transfers of Care	PR6	Is there a plan for implementing the High Impact Change Model for managing transfers of care?	<p>Does the BCF plan demonstrate a continued plan in place for implementing the High Impact Change Model for Managing Transfers of Care?</p> <p>Has the area confirmed the current level of implementation and the planned level at March 2020 for all eight changes?</p> <p>Is there an accompanying overall narrative setting out the priorities and approach for ongoing implementation of the HICM?</p> <p>Does the level of ambition set out for implementing the HICM changes correspond to performance challenges in the system?</p> <p>If the current level of implementation is below established for any of the HICM changes, has the plan included a clear explanation and set of actions towards establishing the change as soon as possible in 2019-20?</p>	Yes			

Agreed expenditure plan for all elements of the BCF	PR7	Is there a confirmation that the components of the Better Care Fund pool that are earmarked for a purpose are being planned to be used for that purpose?	<p>Have the planned schemes been assigned to the metrics they are aiming to make an impact on? Expenditure plans for each element of the BCF pool match the funding inputs? (auto-validated)</p> <p>Is there confirmation that the use of grant funding is in line with the relevant grant conditions? (tick-box)</p> <p>Is there an agreed plan for use of the Winter Pressures grant that sets out how the money will be used to address expected demand pressures on the Health system over Winter?</p> <p>Has funding for the following from the CCG contribution been identified for the area?</p> <ul style="list-style-type: none"> - Implementation of Care Act duties? - Funding dedicated to carer-specific support? - Reablement? 	Yes			
	PR8	Indication of outputs for specified scheme types	Has the area set out the outputs corresponding to the planned scheme types (Note that this is only for where any of the specified set of scheme types requiring outputs are planned)? (auto-validated)	Yes			
Metrics	PR9	Does the plan set stretching metrics and are there clear and ambitious plans for delivering these?	<p>Is there a clear narrative for each metric describing the approach locally to meeting the ambition set for that metric?</p> <p>Is there a proportionate range of scheme types and spend included in the expenditure section of the plan to support delivery of the metric ambitions for each of the metrics?</p> <p>Do the narrative plans for each metric set out clear and ambitious approaches to delivering improvements?</p> <p>Have stretching metrics been agreed locally for:</p> <ul style="list-style-type: none"> - Metric 2: Long term admission to residential and nursing care homes - Metric 3: Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement 	Yes
