**Secondary:** Third

**Special:** First

**If you wish to be a governor of a specific school(s) please give details. I have::**One school option

**School 1:** Stephen Hawking School

**Are you a resident of Tower Hamlets:** Yes

**For how long:** 46

**Do you or have you had children attending schools in Tower Hamlets, been a school governor before or employed in a Tower Hamlets School or by the council?:** Yes

**Please give the details:** Stephen Hawking School - co-opted governor

**General:** I am passionate about the health and wellbeing of children and young people with a long-standing personal, academic and professional interest in the role that education plays to improve the life-long outcomes of young people.

Since June 2019 I have been a co-opted member of the SHS governing body and have enjoyed applying my skills to support the valuable work that the executive team are undertaking to support vulnerable children.

**Skills:** I have practical safeguarding experience, through child protection medical, looked-after-children assessments and special educational needs assessments. I have supported the school in the capacity as governor for safeguarding, looked-after-children and health and safety. Most recently I have provided support and advice to the school during the COVID19 outbreak.

In addition I have strategic skills relevant to providing support to executive teams. I have overseen large healthcare projects with budgets up to ~£1billion, and have practical experience overseeing high profile decision making, including national contract negotiations worth over £25billion.

I hope that this skill combination will enable me to provide useful support and scrutiny to the work of the school, whilst keeping the needs of children and young people at the heart of strategic decision making.

**Experience:** In addition to the experience outlined above, I have worked extensively in national children's policy. Through roles at the Department of Health, NHS England and other national organisations I have helped shaped national policy on children's mental health, childhood obesity, and underage drinking, amongst other areas.

I am currently a commissioner for the Royal College of Paediatrics and Child Health 2040 project - which looks to future-proof UK children's services. I am also working with Healthy London Partnership to help develop a digital solution for supporting young people's mental health.

**Commitment:** As outlined above, I am extremely passionate about promoting children's wellbeing and health, through a number of professional and personal commitments. I have worked with SHS for almost a year and have contributed positively to the work that the school does.

I am also committed to continue my work and advocacy for children and young people. I was

recently awarded a Fellowship at the Royal Society of Arts in recognition of my commitment to advocating for young people's health and from September 2020 I will commence an academic clinical fellowship where I will be researching the use of technology and AI in improving children's services.

My commitment to the work of the school is best evidenced by the full support that the governing body chair and executive head have given my nomination. To quote their recommendation: "We consider his appointment will be a great asset to the Governing Body, bringing clinical paediatrics expertise to the Governing Body". I am happy to provide a copy of this letter if required.

I am able to continue committing to the role for the foreseeable future and have no current plans to leave the Tower Hamlets area (I am currently a resident in the E1 postcode, owning my own property).
