

Queen's Head Diary

May 2019 (when new conditions were imposed on the licence) to Present

Date	Nuisance/Incident
24 th May 2019	The pub has been playing music since 22:00 hrs. Sounds like karaoke. At 22:20 the doors onto the street were still wide open.
1 st June 2019	<p>In the afternoon tables and chairs were put on the pavements of Flamborough and Chaseley Street. A licence is needed from the council for this, and I'm assuming that they don't have one. Most residents would object strongly to the granting of a licence for this based on the problems of the last few months. To the best of my knowledge, no previous landlord at the pub has done this.</p> <p>The doors onto Flamborough Street were wide open after 22:00.</p> <p>00:00 approximately there were a couple of people on the pavement on Chaseley Street and even though the blinds were drawn the lights were still on inside the pub. This is what happened before when they were serving after hours.</p>
2 nd June 2019	<p>On Sunday afternoon at around 17:00 I heard music (above my TV) and realised that it was coming from the pub. They continued playing music until approximately 20:30. At various points it was loud and I could hear what they were playing quite clearly in my house.</p> <p>On Sunday afternoon after 16:00, several of my neighbours saw the new DPS outside the pub, so I can only assume that he was on site when the condition about regulated entertainment was being breached.</p>
7 th June 2019	<p>19:00 From this time and through the evening there were rowdy customers outside the pub off and on.</p> <p>19:45 From this time I could hear faint music coming from the pub and the multi coloured disco lights were flashing.</p>
8 th June 2019	<p>15:50 - Heard music from the pub from my sitting room, sounded like a live singer, might have been karaoke.</p> <p>16:40 - Burst of music</p> <p>18:30 - Burst of music</p> <p>19:30 - Sounds like there's music in the pub, but not loud.</p> <p>20:15 - Can hear music and rowdy customers from my sitting room.</p> <p>21:30 - Didn't hear any music after this.</p>

21 st June 2019	<p>On Friday at around 17:20 there was music playing in the pub and the doors were wide open.</p> <p>It got progressively louder through the evening and I could hear music from my sitting room and bedroom. The multi-coloured disco lights were also on. I didn't hear anything after about 22:30, but I think this was because they closed the doors (half an hour late, if that's the case). Off and on through the evening there were rowdy customers outside.</p>
28 th June 2019	<p>18:40 - Could hear music in the pub when I walked home</p> <p>20:45 - Music got louder, possibly karaoke, could hear it in my sitting room over the TV</p> <p>22:30 - Music in the pub (quieter than earlier), multi-coloured disco lights on, door onto Flamborough Street open</p>
30 th June 2019	<p>18:00 - Music/karaoke, could hear in my sitting room. At times there were particularly loud bursts of music. Bar stools on the street.</p> <p>20:00 - In my garden, could hear karaoke. Very loud for a few minutes.</p>

31st August 2019	<p>19:40 Burst of loud music from the pub for 10 minutes or so, could be heard over my TV in the sitting room and from my bedroom. Might have been karaoke.</p> <p>00:45 Music playing in the pub, could hear it from my sitting room and bedroom even though the doors were closed.
