

## Central Area Good Growth Supplementary Planning Document

### Strategic Environmental Assessment and Habitats Regulation Assessment Screening Report - Statement of Reasons

March 2021

## **Contents**

1. Introduction
2. Central Area Good Growth Supplementary Planning Document
3. Legislative and Policy Context
4. Screening Exercise
5. Assessment of Likely Significant Effects
6. Habitats Regulation Assessment Screening
7. Conclusion
8. Consultation

## **1. Introduction**

- 1.1. This screening exercise outlines the Council's consideration of whether the proposed Central Area Good Growth Supplementary Planning Document (SPD) (Regulation 14 consultation version, dated March 2021) should be subject to a Strategic Environmental Assessment (SEA) or Habitats Regulation Assessment (HRA).
  
- 1.2. This document constitutes the Council's Statement of Reasons for whether the Central Area Good Growth SPD requires a Strategic Environmental Assessment, as set out under Regulation 9 of the Environmental Assessment of Plans and Programmes Regulations 2004.

## **2. Central Area Good Growth Supplementary Planning Document**

- 2.1 The Central Area Good Growth SPD sets out detailed guidance on the implementation of policies in the Tower Hamlets Local Plan 2031. It seeks to support the plan to ensure that new homes delivered on small sites in the central part of the borough respect and enhance the existing, well-established character of the area.
- 2.2 The SPD applies to residential-led developments on small sites (any site of up to 0.25 hectares) located in the Central Area. The boundaries of this part of the borough were defined by the Tower Hamlets Local Plan 2031 and they can be found in page 23 of the SPD.
- 2.3 The guidance contained in the SPD seeks to provide a clear design vision and set expectations for future small-scale residential developments in the Central Area. The guidance, based on the Character Appraisal, helps to explain which principles need to be followed to ensure that developments respect and enhance their surrounding context. It supports the vision, objectives and policies of the Tower Hamlets Local Plan 2031. It also supports Priority 2 - A borough that our residents are proud of and love to live in - of the Mayor's Strategic Plan. Moreover, the SPD provides detailed guidance to help the council deliver its vision for the Central Area, in particular the following: 'By 2031, the distinct character and identity of the Central sub-area will have been enhanced and strengthened [...] New development will complement the well-established streetscape and character and the area's many heritage assets, and their settings will be preserved or enhanced through opportunities for new heritage-led development.'
- 2.4 To achieve this, the SPD contains a Character Appraisal describing existing character of the area (Part A) and design guidelines for future residential developments (Part B). Part A – Character Appraisal includes descriptions of the ten character places/neighbourhoods included in the Central Area (and whose boundaries were also defined by the Tower Hamlets Local Plan 2031), covering the following topics for each:

- History
- Heritage
- Townscape
- Typical Building Types
- Street Pattern and Movement

This is followed by a chapter where the most common housing typologies found are compiled and analysed. Part B - Guidelines for Good Growth is broken down into three chapters: Character-Based Growth Principles, Design Toolkit for Small Sites and Design Principles for Residential Developments. The first provides high-level guidelines to support the process of setting out a design vision at an early design stage. There are three principles: Reinforcement, Mediation and Reinvention. The second chapter provides more detailed design guidelines that vary according to the type of site such as streetscape infill, corner infill, block extension, among others. The guidelines are structured around the topics Footprint & Site Layout; Built Form; Design and Appearance. These guidelines are not addressing specific sites that exist in the borough, but rather the most typical types of sites found in the borough. The final chapter presents 12 principles that provide guidance for the following topics:

- Scale and proportions
- Relationship with street and public realm
- Mixed uses & Mixed tenures
- Community
- Internal spaces
- External Spaces
- Amenity: Light, Privacy & Outlook
- Bin and Bike Storage
- Materials and detailing
- Sustainable Design
- Embodied Energy
- Sustainable Systems

References are made to the specific policies from the Tower Hamlets Local Plan 2031 that the SPD is providing additional guidance on.

### **3. Legislative and Policy Context**

#### Sustainability Appraisal (SA)

- 3.1 A Sustainability Appraisal (SA) considers the potential impacts of a planning policy document on the environmental, economic, and social aspects of sustainability. It does this by assessing the extent to which the planning document will help achieve a set of sustainability objectives that cover a range of issues, including air quality, landscape, water, health and the population.
- 3.2 There is a statutory requirement for SAs to be produced for Development Plan Documents, but not for other kinds of planning documents. There is no legal requirement for an SA to be produced for a supplementary planning document (PPG on Strategic Environmental Assessment and Sustainability Appraisal, paragraph 008).
- 3.3 An SA was undertaken in 2017 as part of the Integrated Impact Assessment (IIA) of the Tower Hamlets Local Plan 2031, with an addendum added in March 2019 to cover modifications to the plan. The plan (and its SA) underwent an examination in public and was adopted in January 2020.
- 3.4 The sustainability objectives for the Local Plan SA were developed through a comparison of existing sustainability objectives in the borough, the objectives of the Local Plan, and the identification of sustainability issues through the scoping process for the IIA. The SA was publicly consulted on as part of the consultation process for the Local Plan. The sustainability objectives from that SA are set out in Table 1 below.

**Table 1: Tower Hamlets Local Plan Integrated Impact Assessment Sustainability Objectives (2017)**

- 1. Equality:** reduce poverty and social exclusion and promote equality for all communities.
- 2. Liveability:** promote liveable, safe, high quality neighbourhoods with good quality public services.
- 3. Health and wellbeing:** improve the health and wellbeing of the population and reduce health inequalities.
- 4. Housing:** ensure that all residents have access to good quality, well-located, affordable housing that meets a range of needs and promotes liveability.
- 5. Transport and mobility:** create accessible, safe and sustainable connections and networks by road, public transport, cycling and walking.
- 6. Education:** increase and improve the provision of and access to childcare, education and training facilities and opportunities for all age groups and sectors of the local population.
- 7. Employment:** reduce worklessness and increase employment opportunities for all residents.
- 8. Economic growth:** create and sustain local economic growth across a range of sectors and business sizes.
- 9. Town centres:** promote diverse and economically thriving town centres.
- 10. Design and heritage:** enhance and conserve heritage and cultural assets; distinctive character and an attractive built environment.
- 11. Open space:** enhance and increase open spaces that are high quality, networked, and multi-functional.
- 12. Climate change:** ensure the Local Plan incorporates mitigation and adaption measures to reduce and respond to the impacts of climate change.
- 13. Biodiversity:** protect and enhance biodiversity, natural habitats, water bodies and landscapes of importance.
- 14. Natural resources:** ensure sustainable use and protection of natural resources, including water, land and air, and reduce waste.
- 15. Flood risk reduction and management:** to minimise and manage the risk of flooding.
- 16. Contaminated land:** improve land quality and ensure mitigation of adverse effects of contaminated land on human health.

## Strategic Environmental Assessment (SEA)

- 3.5 A Strategic Environmental Assessment (SEA) is an assessment of the likely effects of a plan or programme on the environment. The requirement for an SEA is set out in the SEA Directive (2001/42/EC), transposed into UK law through the Environmental Assessment of Plans and Programmes Regulations 2004 (as amended) (known as the SEA Regulations). This particularly relates to plans which designate sites for development.
- 3.6 The purpose of an SEA is to ensure a high level of protection of the environment and to integrate consideration of the environment into the preparation and adoption of plans with a view to promoting sustainable development. SEAs must take account of the likely significant effects on the environment, including on issues such as biodiversity, population and human health, fauna, flora, soil, water, air quality, climate, material assets, cultural heritage, landscape, and the interrelationship between these factors. The SEA process sets out criteria for assessing the significance of the impact of a plan on the environment. If a significant effect is possible the assessment requires the consideration of alternative options.
- 3.7 SEA considers only the environmental effects of a plan, whereas SA considers the plan's wider economic and social effects in addition to its potential environmental impacts. The requirements of the SEA are subsumed within the requirements of the SA – that is, an SA requires all the detail expected of an SEA, and then more. Therefore, the objectives developed as part of the SA of the Local Plan can be extracted to cover the required considerations for an SEA. The correspondence between the SA objectives and the likely significant effects for an SEA to consider are set out in Appendix C of the Integrated Impact Assessment, and summarised in Table 2 below. These are the SA objectives that will be used when considering the effects of the Central Area Good Growth SPD for the purpose of the SEA screening.

<b>SEA Dimension</b>	<b>Relevant SA Objective</b>
Biodiversity, Flora and Fauna	13. Biodiversity
Population and Human Health	2. Liveability 3. Health and Wellbeing
Soil	14. Natural Resources 16. Contaminated Land
Water	14. Natural Resources 15. Flood Risk Reduction and Management
Air Quality	14. Natural Resources
Climate	12. Climate Change
Material Assets	14. Natural Resources 15. Flood Risk Reduction and Management 16. Contaminated Land
Cultural Heritage	10. Design and Heritage
Landscape	10. Design and Heritage 11. Open Space

**Table 2: Correspondence between SEA dimensions and SA objectives**

3.8 A **supplementary planning document** is considered to be a plan or programme as defined by the SEA Regulations. Under Regulation 5(6) of the SEA Regulations, plans or programmes which “determine the use of small areas at a local level” or constitute “minor modifications to plans and programmes” only require an SEA if there are likely to be significant environmental effects that have not already have been assessed during the preparation of the Local Plan. Regulation 9 of the SEA Regulations requires the responsible authority (Tower Hamlets Council in this case) to undertake a screening exercise to determine whether or not a plan or programme is likely to have significant environmental effects and would therefore be subject to an

SEA. This is also set out in the PPG on Strategic Environmental Assessment and Sustainability Appraisal, paragraph 008.

- 3.9 The screening exercise looks at the proposals in the SPD to see if a significant effect is likely. The criteria for the screening exercise are set out in the relevant legislation and explained in the next section of this report.

#### Habitats Regulation Assessment (HRA)

- 3.10 Habitats Regulation Assessment (HRA) is a process which looks at the potential impact of proposals within a plan (either individually or in combination with others) on European protected wildlife sites – consisting of Special Protection Areas (SPAs), Special Areas of Conservation (SACs) and Ramsar wetland sites. This assessment is required by the European Habitats Directive (92/43/EEC), transposed into UK law as the Conservation of Habitats and Species Regulations 2017 (as amended).
- 3.11 The initial stage of the HRA process involves consideration of the reasons for designation and the conservation objectives of each designated wildlife site within a reasonable distance of the supplementary planning document area and the potential impact of proposals within the plan on these sites.

## **4 Screening Exercise**

- 4.1 The process of screening a plan or programme to determine whether an SEA is required is set out in Figure 1 below. This figure is taken from A Practical Guide to the Strategic Environmental Assessment Directive, issued by the Office of the Deputy Prime Minister in 2005. This approach is commonly used in SEA screening exercises at the current time.

		<p>through the Local Plan preparation process.</p> <p>Therefore, the SPD will not itself have any significant effects on the environment and may assist in addressing potential negative effects identified in the SEA of the relevant adopted policies. In coming to this view, due regard has been had to Schedule 1 of the SEA Regulations.</p> <p>The SPD will be a material consideration in the consideration of planning applications for new small-scale residential development proposals in the borough. The SPD does not modify the Local Plan, just adds detail to it and it does not determine use of sites. The SPD only recommends guidance for small-scale residential developments that happen to be proposed.</p>
<p>6. Does the plan set the framework for future development consent of projects (not just projects in Annexes to the EIA Directive)? (Article 3.4)</p>	<p>N</p>	<p>The purpose of the SPD is to provide guidance to assist in the interpretation of adopted policies in Local Plan. The policies to which the SPD relates were themselves subject to SEA (incorporated within the SA) through the Local Plan preparation process.</p> <p>Therefore, it is considered that the SPD will not itself have any significant effects on the environment, and may assist in addressing potential negative effects identified in the SA of the relevant adopted policies. In coming to this view, due regard has been had to Annex II of the SEA Directive (2001/42/EC). The considerations of Annex II (2)3 were fully examined as part of the SA report for the adopted Core</p>

		Local Plan (see Appendix 1).
7. Is the plan's sole purpose to serve national defence or civil emergency, OR is it a financial or budget PP, OR is it co-financed by structural funds or EAGGF programmes 2000 to 2006/7? (Articles 3.7, 3.8)	N	The SPD does not address these issues.
8. Is it likely to have a significant effect on the environment? (Article 3.5)	N	<p>It is not likely that the SPD will have any significant effect within Tower Hamlets that has not already been assessed through Sustainability Appraisal (including SEA) of the Tower Hamlets Local Plan 2031. Detailed considerations can be found in Section 5. The additional guidance which supplements each policy in the SPD will provide further detail tailored to inform small-scale residential design. It is considered that the SPD will not itself have any significant effects on the environment, and may assist in addressing potential negative effects identified in the SA of the relevant adopted policies.</p> <p>Therefore, it is considered that the SPD does not need to be subject to further SEA. In addition, each policy has already been assessed through Sustainability Appraisal (including SEA) of the Local Plan. Local Plan policies that are likely to be specifically within the scope of the further guidance within the SPD are as follows:</p> <ul style="list-style-type: none"> <li>• S.SG1: Areas of growth and opportunity within Tower Hamlets</li> <li>• S.SG2: Delivering sustainable growth in Tower Hamlets</li> <li>• S.DH1: Delivering high quality design</li> <li>• D.DH2: Attractive streets, spaces and public realm</li> </ul>

		<ul style="list-style-type: none"> <li>• S.DH3: Heritage and the historic environment</li> <li>• D.DH8: Amenity</li> <li>• S.H1: Meeting housing needs</li> <li>• D.H3: Housing standards and quality</li> <li>• S.OWS1: Creating a network of open spaces</li> <li>• D.OWS3: Open space and green grid networks</li> <li>• S.ES1: Protecting and enhancing our environment</li> <li>• D.ES2: Air quality</li> <li>• D.ES3: Urban Greening and biodiversity</li> <li>• D.ES5: Sustainable drainage</li> <li>• D.ES6: Sustainable water and wastewater management</li> <li>• D.ES7: A zero carbon borough</li> <li>• D.MW3: Waste collection facilities in new development</li> </ul>
--	--	--

**Table 3: SEA Screening of the Central Area Good Growth SPD**

4.3 The conclusion of the assessment is that an SEA is only required if the Supplementary Planning Document is likely to have significant effects on the environment. Section 5 of this report provides a detailed assessment of the likely significance of effects to determine whether this is the case.

4.4 Section 6 of this report will then screen the Central Area Good Growth SPD to determine whether a full HRA is required.

**5. Assessment of Likely Significant Effects**

5.1 The criteria for assessing the likely significance of effects stemming from a plan or programme are set out in Annex II of the SEA Directive (Schedule 1 of the SEA Regulations) and are quoted below in Table 4.

1. The characteristics of plans, having regard, in particular, to:
  - The degree to which the plan sets a framework for projects and other activities, either with regard to the location, nature, size and operating conditions or by allocating resources
  - The degree to which the plan influences other plans and programmes including those in a hierarchy
  - The relevance of the plan for the integration of environmental considerations in particular with a view to promoting sustainable development
  - Environmental problems relevant to the plan
  - The relevance of the plan for the implementation of Community [i.e. European Community] legislation on the environment (e.g. plans and programmes linked to waste management or water protection)
  
2. Characteristics of the effects and of the area likely to be affected, having regard, in particular, to:
  - The probability, duration, frequency and reversibility of the effects
  - The cumulative nature of the effects
  - The transboundary nature of the effects
  - The risks to human health or the environment (e.g. due to accidents)
  - The magnitude and spatial extent of the effects (geographical area and size of the population to be affected)
  - The value and vulnerability of the area likely to be affected due to:
    - Special natural characteristics or cultural heritage
    - Exceeded environmental quality standards or limit values
    - Intensive land-use

5.2 The Table below assesses the Central Area Good Growth SPD against the SEA Directive Annex II: Criteria for determining likely significance of effects referred to in Article 3(5).

	SEA Directive Annex II: Criteria for determining likely significance of effects referred to in Article 3(5)	Comment
<b>The characteristics of plans and programmes, having regard, in particular, to:</b>		
1a)	<b>The degree to which the plan or programme sets a framework for projects and other activities, either with regard to the location, nature, size and operating conditions or by allocating resources</b>	<p>The SPD will provide further guidance to the policies and proposals that are contained within the Tower Hamlets Local Plan 2031 which already sets the framework for the development projects and activities that could occur within the Tower Hamlets area. The Local Plan as a whole, including those policies relevant to housing and small-scale residential design, have been fully assessed for the purposes of SA/SEA. There will be no new policies or site allocations contained in the SPD. The SPD provides further information and guidance on implementation and interpretation of the existing policies through specific design details (for example room layouts, scale and proportions etc.). The SPD encourages small and infill sites to come forward for housing development by setting out design guidelines. The SPD, however, does not control or suggests the sites that will come forward. Moreover, by setting out high design standards (that support, among other things, appropriate levels of daylight/sunlight and outlook; urban drainage;</p>

		biodiversity; and energy-efficiency), the SPD supports how this growth is managed. Finally, each planning application will be assessed individually for effects to daylight/sunlight etc.
1b)	<b>The degree to which the plan or programme influences other plans and programmes including those in a hierarchy</b>	The Central Area Good Growth SPD, in providing further guidance to the framework set within the Local Plan, does not directly affect other specific public sector plans or programmes but rather is influenced by the Local Plan and other higher tier planning policy, including the NPPF and the London Plan.
1c)	<b>The relevance of the plan or programme for the integration of environmental considerations in particular with a view to promoting sustainable development</b>	The Local Plan and other higher level policies set the context for achieving sustainable development. The SPD will provide further guidance as to how this can be achieved (for example by designing high-quality homes). The SPD will not revisit or change the higher-level policy requirements which have been subject to SA/SEA. The SA Report (March 2019) shows that the policies relevant to housing design have a positive impact overall and a specifically positive impact for the majority of the SA objectives when assessed against these. The SPD is intended to provide further guidance to Tower Hamlets Local Plan 2031 on how small-scale residential buildings can be designed to meet the relevant policies including policies related to promoting sustainable development such as urban drainage, accessibility and safety.

1d)	<b>Environmental problems relevant to the plan or programme</b>	The Local Plan SA did not identify any negative effects against the SA Objectives for the policies relevant to housing design.
1e)	<b>The relevance of the plan or programme for the implementation of Community legislation on the environment (e.g. plans and programmes linked to waste management or water protection).</b>	It is unlikely that there would be any significant impact resulting from the further guidance included in the Central Area Good Growth SPD.
<b>Characteristics of the effects and of the area likely to be affected, having regard, in particular, to:</b>		
2a)	<b>The probability, duration, frequency and reversibility of the effects</b>	The SPD will cover the same period of time as the Tower Hamlets Local Plan 2031. A Sustainability Appraisal was undertaken for the Local Plan which included an assessment of the policies relevant to housing design that will be supplemented by the SPD. The evidence to support the SA for the Local Plan continues to be updated and the assessment looked at the probability, duration, frequency and reversibility of effects. Whilst the SPD will provide further guidance and supplement the existing policies in the Local Plan (and have largely positive effect), the probability, duration, frequency and reversibility of the effects from the implementation of the SPD will remain the same.
2b)	<b>The cumulative nature of the effects</b>	The SPD encourages small and infill sites to come forward for housing development by setting out design guidelines. The SPD, however, does not control or suggests the sites that will come forward. Moreover, by setting out high design standards (that

		support, among other things, appropriate levels of daylight/sunlight and outlook; urban drainage; biodiversity; and energy-efficiency) for these developments, any potential cumulative effects will be of a beneficial nature.
2c)	<b>The trans-boundary nature of the effects</b>	There will be no national trans boundary effects resulting from the Central Area Good Growth SPD given that it will only apply on a district wide basis. Local administrative trans boundary effects were considered as part of the SA/SEA of the Local Plan.
2d)	<b>The risks to human health or the environment (e.g. due to accidents)</b>	Human health and environmental effects were assessed in the SA for the Local Plan (Policy S.ES1 - Protecting and enhancing our environment). No risks to human health or the environment were identified in relation to the policies relative to housing design. Further specific guidance on housing design will provide more certainty that the probable positive effects already assessed in the SA for the Local Plan will arise.
2e)	<b>The magnitude and spatial extent of the effects (geographical area and size of the population likely to be affected)</b>	The spatial extent of the SPD will be that of the Central Area whose boundaries were defined in the Local Plan. The potential impacts of development proposals in this geographical area have been assessed as part of the SA/SEA of the Local Plan. The SPD will focus on the comprehensive approach to development delivery in a way which will enhance the consideration given to housing design and in turn reduce the likelihood of adverse impacts arising with respect to safety, access, parking, cycling, walking, flood risk and drainage.
2f)	<b>The value and vulnerability of the area likely to be affected due to: I. special natural</b>	The value and vulnerability of the area of the SPD have been considered as part of the SA/SEA of the Local Plan. The

	<b>characteristics or cultural heritage, II. exceeded environmental quality standards or limit values III. intensive land use</b>	intensiveness of the proposed use of land is a factor for which information was available at the time of the SA/SEA assessment of the Local Plan and no significant impacts were identified in relation to this.
2g)	<b>The effects on areas or landscapes which have a recognised national, Community or international protection status</b>	The SPD is unlikely to result in significant effects on landscapes which have a recognised national, Community or international protection status.

## 6. Habitats Regulation and Assessment Screening

6.1 A Habitats Regulation Assessment (HRA) examines the potential impacts of a plan or programme, whether alone or cumulatively, on European protected sites. These sites are Special Protection Areas (SPAs) designated under the Bird Directive 79/409/EEC and Special Areas of Conservation (SACs) designated under the Habitats Directive 92/43/EEC. It is government policy that HRAs should also consider sites designated under the Ramsar Convention of 1971 (known as 'Ramsar sites') in the same way as the European protected sites.

6.2 The first stage of the HRA process is a screening exercise where the details of nearby designated sites are assessed to see if there is the potential for the plan or programme to have an impact on the sites. For the purposes of the screening exercise, the potential impact of the Central Area Good Growth SPD on designated sites within 15km of the Central Area will be considered.

6.3 There are five European protected sites or Ramsar sites within 15km of the Central Area. These sites are:

- Epping Forest SAC
- Richmond Park SAC
- Wimbledon Common SAC
- Lee Valley SPA

- Lee Valley Ramsar

6.4 None of these sites is closer than 3km to the Central Area, so the SPD cannot influence development in the direct vicinity of any of the sites.

6.5 The HRA of the Tower Hamlets Local Plan 2031 identified that the main reasons for 'unfavourable' ratings of the condition of the designated sites were due to public access, air pollution, and inappropriate management. The Central Area Good Growth SPD cannot affect the management of these sites, and therefore the only potential for adverse impacts on these sites from development in this form would be through increased visitor pressure from a large population increase, or an increase in negative air quality impacts.

6.6 The Central Area Good Growth SPD provides design recommendations that aims to increase the level of greenery and biodiversity across the Central Area, partially with the intention of improving air quality, although it is considered that the impact of this design recommendation will be no more significant than existing Tower Hamlets planning policies on this topic and is unlikely to have an effect on the designated sites.

6.7 The Central Area Good Growth SPD does not set any additional growth targets or site allocations, and therefore does not propose any more development than that planned for in the Tower Hamlets Local Plan 2031. The Local Plan was subject to an HRA screening as part of the Integrated Impact Assessment. This screening concluded that the Local Plan would have no significant effects (alone or in combination) on any of the sites due to an absence of impact pathways, policy controls within the plan which can ensure significant effects are avoided, and some suggested changes to the plan which were accepted by the Council and included in the adopted Local Plan. As part of the examination process, a technical note was appended to the HRA justifying how the Local Plan HRA was in line with the outcome of the 'People Over Wind' decision, and had not considered mitigation measures as part of the HRA screening process. This position was accepted by Natural England, and the Integrated Impact Assessment (including the HRA

screening) was successfully examined as part of the Local Plan examination process.

- 6.8 As the scale of development proposed by the Central Area Good Growth SPD does not exceed that proposed by the Local Plan, it is considered that the SPD cannot have any additional significant impact (either by itself or cumulatively with other plans and programmes) than the Local Plan itself. The findings of the HRA screening of the Local Plan are therefore considered to apply in this situation, and no further HRA screening of the Central Area Good Growth SPD is required.

## **7. Conclusion**

- 7.1 On the basis of the SEA screening assessment carried out in this document, it is concluded that the Central Area Good Growth SPD will not have any significant effects in relation to the criteria set out in Schedule 1 of the SEA Regulations that have not already been assessed through Sustainability Appraisal (including SEA) of the Tower Hamlets Local Plan 2031, and therefore does not need to be subject to a full SEA, as the SPD will not change or introduce new planning policy over and above the Tower Hamlets Local Plan 2031.
- 7.2 Therefore, it is considered that the SPD does not need to be subject to further SEA. The key areas where the SPD adds to the Local Plan policy is in terms of guidance for small-scale housing design with respect to access, design, drainage, energy efficiency, bike and waste storage and greenery.
- 7.3 To conclude, it is not considered that SEA is a formal requirement given that the principles within the SPD have already been covered in the Local Plan SA.

## **8. Consultation**

- 8.1 The draft report was sent for consultation to the three statutory consultees – the Environment Agency, Natural England, and Historic England – as required under Regulation 11(1) of the SEA Regulations. The consultees have responded that they do not have any comments on the report. The report will be published as the Council’s Statement of Reasons.

## **Appendix 1: Sustainability Appraisal of Local Plan Policies**

- S.SG1: Areas of growth and opportunity within Tower Hamlets
- S.SG2: Delivering sustainable growth in Tower Hamlets
- S.DH1: Delivering high quality design
- D.DH2: Attractive streets, spaces and public realm
- S.DH3: Heritage and the historic environment
- D.DH8: Amenity
- S.H1: Meeting housing needs
- D.H3: Housing standards and quality
- S.OWS1: Creating a network of open spaces
- D.OWS3: Open space and green grid networks
- S.ES1: Protecting and enhancing our environment
- D.ES2: Air quality
- D.ES3: Urban Greening and biodiversity
- D.ES5: Sustainable drainage
- D.ES6: Sustainable water and wastewater management
- D.ES7: A zero carbon borough
- D.MW3: Waste collection facilities in new development

SA Objective	Commentary	Draft Policies										Cumulative Effect of the Draft Policies	
		S.DH1: Delivering high quality design	D.DH2: Attractive Streets, Spaces, and Public Realm	Policy D.DH3: Heritage and the historic environment	D.DH4: Shaping and managing views	S.DH5: World Heritage Sites	D.DH6: Tall Buildings	D.DH7: Density	D.DH8: Amenity	D.DH9: Shopfronts	D.DH10: Advertisements, and hoardings and signage		D.DH11: Telecommunications
1. Equality: Reduce poverty and social exclusion and promote equality for all communities.	<p><b>Likely Significant Effects</b></p> <p>Policy S.DH1 requires development proposals to demonstrate good design principles, partly to protect and enhance amenity – promoting mental and physical well-being of occupants/users of the site and neighbouring properties. S.DH1 also includes criteria to ensure that development proposals are adaptable to the changing needs of users and that open spaces are publicly accessible. These factors indirectly contribute to this SA objective through ensuring access to high quality places for a range of demographic groups, which could promote social cohesion and integration and reduce social exclusion.</p> <p>Policy D.DH2 requires development proposals to provide a range of public spaces that can function as places for social gatherings and also resists the creation of gated communities, a principal that is relevant to this objective. This could enhance social interactions within neighbourhoods, resulting in an indirect positive effect on this SA objective through improved social cohesion and integration.</p> <p>Policies D.DH6, D.DH7 and D.DH8 make a minor positive contribution and seek to ensure that all communities enjoy a comfortable living environment.</p> <p><b>Mitigation</b></p> <p>None required.</p> <p><b>Assumptions</b></p> <p>None identified.</p> <p><b>Uncertainties</b></p> <p>None identified.</p>	+	+	~	~	~	+	+	+	~	~	~	+
2. Liveability: Promote liveable, safe, high quality neighbourhoods with good quality services	<p><b>Likely Significant Effects</b></p> <p>Policy S.DH1 and Policy D.DH2 require development proposals to demonstrate good placemaking principles and high quality architecture, urban and landscape design. This would ensure that developments provide permeable, multi-functional and connecting street infrastructure and high quality public realm provision, such that these policies directly contribute to this SA objective.</p> <p>Policy S.DH1 also sets out criteria to ensure that development creates well connected and integrated places and that over - development of sites is avoided.</p>	++	++	~	~	~	+	++	++	++	++	++	++

SA Objective	Commentary	Draft Policies										Cumulative Effect of the Draft Policies	
		S.DH1: Delivering high quality design	D.DH2: Attractive Streets, Spaces, and Public Realm	Policy D.DH3: Heritage and the historic environment	D.DH4: Shaping and managing views	S.DH5: World Heritage Sites	D.DH6: Tall Buildings	D.DH7: Density	D.DH8: Amenity	D.DH9: Shopfronts	D.DH10: Advertisements, and hoardings and signage		D.DH11: Telecommunications
	<p>It was previously suggested that Strategic policy S.DH1 could highlight the need for all development to incorporate designing out crime principles. Policy D.DH2 references Secured by Design.</p> <p><b>Assumptions</b> None identified.</p> <p><b>Uncertainties</b> None identified.</p>												
3. Health and wellbeing: Improve the health and wellbeing of the population and reduce health inequalities.	<p><b>Likely Significant Effects</b></p> <p>Policy S.DH1 requires development proposals to demonstrate good placemaking principles, seeking to ensure that developments are supported by publicly accessible open spaces that promote health and well-being. This would provide opportunities to participate in recreational activities, encourage active travel and increase social interactions, all of which would increase health and wellbeing and directly contribute to this SA objective. As such the policy would have a significant positive effect on this SA objective.</p> <p>Policy S.DH1 also sets out criteria to ensure that proposed developments are designed to be adaptable to the changing needs of users and that the effects on microclimate are taken into account. The policy also seeks to ensure that development mitigates the impacts of noise, overheating and air pollution. Consequently the policy would have a significant positive effect on this SA objective.</p> <p>Policy D.DH2 requires development proposals promote a well-connected, joined up and easily accessible street network and wider network of public spaces by taking steps to improve and enhance connectivity, permeability and legibility. This would encourage development proposals to embed active travel infrastructure within street networks, which could increase participation in, and the safety of, active travel, resulting in indirect positive physical health outcomes and therefore indirectly contributing to this SA objective.</p> <p>Policy D.DH6 makes a minor positive contribution by requiring developments with tall buildings, which include residential use, to provide high quality private and communal open space and play areas for local residents. Development outside of Tall Building Zones must also meet three criteria, which include demonstrating that it can deliver significant publicly accessible open space.</p> <p>Policy D.DH7 in relation to densities will contribute to this objective by ensuring that developments exceeding the appropriate density range in the London Plan should</p>	++	+	~	~	~	+	+	++	~	~	~	++

SA Objective	Commentary	Draft Policies										Cumulative Effect of the Draft Policies	
		S.DH1: Delivering high quality design	D.DH2: Attractive Streets, Spaces, and Public Realm	Policy D.DH3: Heritage and the historic environment	D.DH4: Shaping and managing views	S.DH5: World Heritage Sites	D.DH6: Tall Buildings	D.DH7: Density	D.DH8: Amenity	D.DH9: Shopfronts	D.DH10: Advertisements, and hoardings and signage		D.DH11: Telecommunications
	<p><b>Uncertainties</b></p> <p>None identified.</p>												
7. Employment: Reduce worklessness and Increase employment opportunities for all residents	<p><b>Likely Significant Effects</b></p> <p>There is no clear relationship between these policies and this SA objective.</p> <p><b>Mitigation</b></p> <p>None required.</p> <p><b>Assumptions</b></p> <p>None identified.</p> <p><b>Uncertainties</b></p> <p>None identified.</p>	~	~	~	~	~	~	~	~	~	~	~	0
8. Economic Growth: Create and sustain local economic growth across a range of sectors and business sizes.	<p><b>Likely Significant Effects</b></p> <p>Policy S.DH1 and Policy D.DH2 require development proposals to demonstrate good placemaking principles and high quality architecture, urban and landscape design. These policies would improve the appearance of neighbourhoods and enhance the quality of the built environment, which would be likely to support investment by existing and new businesses, resulting in local business growth, wider economic growth and regeneration of neighbourhoods in need of socio-economic renewal. The policies would therefore have a significant positive effect on this SA objective.</p> <p>D.DH6 directs Tall Building proposals to designated Tall Building Zones. This could help create clusters of firms that desire such a location, it is uncertain how relevant this would be as a locational factor so a minor positive effect has been recorded.</p> <p><b>Mitigation</b></p> <p>None required.</p> <p><b>Assumptions</b></p> <p>None identified.</p>	++	++	~	~	~	+	~	~	~	~	~	+

SA Objective	Commentary	Draft Policies										Cumulative Effect of the Draft Policies	
		S.DH1: Delivering high quality design	D.DH2: Attractive Streets, Spaces, and Public Realm	Policy D.DH3: Heritage and the historic environment	D.DH4: Shaping and managing views	S.DH5: World Heritage Sites	D.DH6: Tall Buildings	D.DH7: Density	D.DH8: Amenity	D.DH9: Shopfronts	D.DH10: Advertisements, and hoardings and signage		D.DH11: Telecommunications
	<p>All of the policies therefore directly contribute to this SA objective and would have a significant positive effect on it through ensuring that development proposals are appropriately sited, designed and integrated with their surroundings.</p> <p><b>Mitigation</b> None identified.</p> <p><b>Assumptions</b> None identified.</p> <p><b>Uncertainties</b> None identified.</p>												
11. Open space: Enhance and increase open spaces that are high quality, networked and multi-functional.	<p><b>Likely Significant Effects</b></p> <p>Policy S.DH1 requires development proposals to provide a mix and range of publically accessible open spaces that promote biodiversity, health and well-being.</p> <p>Policy D.DH2 requires development proposals promote a well-connected, joined up and easily accessible street network and wider network of public spaces by taking steps to improve and enhance connectivity, permeability and legibility. As such the policy could help link and enhance open spaces, resulting in a significant positive effect on this SA objective.</p> <p>Policy D.DH6 makes a minor positive contribution by requiring developments with tall buildings to provide high quality private and communal open space and play areas for local residents. Development outside of Tall Building Zones must also demonstrate that it can deliver significant publicly accessible open space.</p> <p>There is no clear relationship between the other Design and Historic Environment policies and this SA objective.</p> <p><b>Mitigation</b> None required.</p> <p><b>Assumptions</b> None identified.</p>	++	++	~	~	~	+	~	~	~	~	~	++

	<p>of this policy in relation to biodiversity, only a minor positive effect on this SA objective is predicted.</p> <p>There is no clear relationship between the other Design and Historic Environment policies and this SA objective.</p> <p><b>Mitigation</b></p> <p>None required.</p> <p><b>Assumptions</b></p> <p>None identified.</p> <p><b>Uncertainties</b></p> <p>None identified.</p>												
14. Natural Resources: Ensure sustainable use and protection of natural resources, including water, land and air, and reduce waste	<p><b>Likely Significant Effects</b></p> <p>Policy S.DH1 requires development proposals to optimise energy and waste efficiency. Consequently the policy would support the development of the circular economy and contribute to this SA objective.</p> <p>Policy D.DH2 requires development proposals to improve connectivity to public transport hubs, town centres, open spaces and social and community facilities. Consequently the policy could indirectly help to improve local air quality and therefore contribute to this SA objective.</p> <p>Policy D.DH6 includes a requirement that tall buildings do not have an adverse impact on watercourses and water bodies and a minor positive effect is identified on this basis.</p> <p>There is no clear relationship between the other Design and Historic Environment policies and this SA objective.</p> <p><b>Mitigation</b></p> <p>None required.</p> <p><b>Assumptions</b></p> <p>None identified.</p>	++	+	?	?	?	+	?	?	?	?	?	+

SA Objective	Commentary	Draft Policies										Cumulative Effect of the Draft Policies	
		S.DH1: Delivering high quality design	D.DH2: Attractive Streets, Spaces, and Public Realm	Policy D.DH3: Heritage and the historic environment	D.DH4: Shaping and managing views	S.DH5: World Heritage Sites	D.DH6: Tall Buildings	D.DH7: Density	D.DH8: Amenity	D.DH9: Shopfronts	D.DH10: Advertisements, and hoardings and signage		D.DH11: Telecommunications
	<p><b>Uncertainties</b></p> <p>None identified.</p>												
15. Flood risk reduction and management: To minimise and manage the risk of flooding	<p><b>Likely Significant Effects</b></p> <p>Policies S.DH1 and D.DH2 require development proposals to incorporate high-quality public and open spaces, which could reduce surface run-off and therefore reduce flood risks. Consequently these policies contribute to and would have a significant positive effect on this SA objective.</p> <p>Policy D.DH6 requires proposals for tall buildings to demonstrate that they will not adversely impact on water courses and their hydrology, it also requires the provision of open space which could help reduce surface run-off.</p> <p>There is no clear relationship between the other Design and Historic Environment policies and this SA objective.</p> <p><b>Mitigation</b></p> <p>None required.</p> <p><b>Assumptions</b></p> <p>None identified.</p> <p><b>Uncertainties</b></p> <p>None identified.</p>	++	++	?	?	?	+	?	?	?	?	?	++
16. Contaminated Land: Improve land quality and ensure mitigation of adverse effects of contaminated land on human health.	<p><b>Likely Significant Effects</b></p> <p>Policy D.DH8 safeguards human health by requiring development proposals to avoid unacceptable nuisances and pollution impacts. This would help to ensure that contaminated land is adequately and safely remediated, resulting in reduced adverse health risks. Consequently the policy would have a significant positive effect on this SA objective.</p> <p>There is no clear relationship between the other Design and Historic Environment policies and this SA objective.</p>	?	?	?	?	?	?	?	++	?	?	?	0

SA Objective	Commentary	Draft Policies						Cumulative Effect of the Draft Policies
		S.H1 Meeting housing needs	D.H2: Affordable housing	D.H3: Housing standards and quality	D.H4: Specialist housing	D.H5: Gypsy and traveller accommodation	D.H6: Student housing	
2. Liveability: Promote liveable, safe, high quality neighbourhoods with good quality services	<p><b><u>Likely Significant Effects</u></b></p> <p>Policies S.H1 D H4, D.H5 and D.H6 direct residential developments, including for specialist housing, to areas with high accessibility, the potential to accommodate high densities (including areas with existing high densities), suitable infrastructure provision and open space.</p> <p>Policy D.H2 aims to ensure the availability of affordable housing in new developments. It contains criteria for estate regeneration which requires development schemes to protect and enhance open space and community facilities, as well as bring existing homes up to the latest decent homes standard.</p> <p>Policy D.H3 requires residential developments to protect or re-provide existing and provide new amenity and play spaces. Through providing well designed residential developments in accessible locations these policies would improve access to local services, facilities and amenities, promote the development of a high quality public realm and ensure appropriate infrastructure provision.</p> <p>Policy D.H7 directs houses in multiple occupation (HMO) to areas of high transport accessibility. Significant positive effects are anticipated for the identified policies.</p> <p><b><u>Mitigation</u></b></p> <p>None identified.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	++	++	++	++	++	++	++

		S.H1 Meeting housing needs	D.H2: Affordable housing	D.H3: Housing standards and quality	D.H4: Specialist housing	D.H5: Gypsy and traveller accommodation	D.H6: Student housing	D.H7: Housing with shared facilities	
14. Natural Resources: Ensure sustainable use and protection of natural resources, including water, land and air, and reduce waste	<p><b><u>Likely Significant Effects</u></b></p> <p>These policies do not directly contribute to this SA objective. However, Policies S.H1, D.H4 and D.H6 direct housing proposals to locations with good public transport accessibility and infrastructure. The proposed use of more sustainable, accessible locations which could indirectly safeguard air quality by maximising public transport commuting rather than increased car travel. As such the policies are predicted to have an indirect minor positive effect on this SA objective.</p> <p>There is no clear relationship between the other Housing policies and this SA objective.</p> <p><b><u>Mitigation</u></b></p> <p>None identified.</p> <p><b><u>Assumptions</u></b></p> <p>Potential effects in relation to air quality are highlighted for consideration in other policies, e.g. Policy S.ES2.</p> <p><b><u>Uncertainties</u></b></p> <p>None required.</p>	+	~	~	+	~	+	~	+

SA Objective	Commentary	Draft Policies				Cumulative Effect of the Draft Policies
		S.CF1: Supporting community facilities	D.CF2: Existing community facilities	D.CF3: New community facilities	Policy D.CF4: Public houses	
1. Equality: Reduce poverty and social exclusion and promote equality for all communities.	<p><b><u>Likely Significant Effects</u></b></p> <p>Policy S.CF1 requires development proposals to protect existing community facilities and contribute to the capacity, quality, usability and accessibility of existing facilities. This would directly contribute to this SA objective through increasing opportunities to reduce social exclusion and promote integration through community based activities.</p> <p>Policy D.CF2 sets out criteria to safeguard existing community facilities, which would protect existing opportunities to promote social cohesion and integration and therefore have a positive effect on this SA objective.</p> <p>Policy D.CF3 makes a minor positive contribution to this objective by directing new facilities locations that will be accessible to people living outside the development.</p> <p>Policy D.CSF4 seeks to protect existing public houses from development pressures and will make a minor positive contribution to this objective.</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	++	+	+	+	++
2. Liveability: Promote liveable, safe, high quality neighbourhoods with good quality services	<p><b><u>Likely Significant Effects</u></b></p> <p>Directly in alignment with this SA objective, these policies set out criteria to protect existing services and facilities and to support new ones in accessible and appropriate locations.</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified</p>	++	++	++	++	++

SA Objective	Commentary	Draft Policies				Cumulative Effect of the Draft Policies
		S.CF1: Supporting community facilities	D.CF2: Existing community facilities	D.CF3: New community facilities	Policy D.CF4: Public houses	
3. Health and wellbeing: Improve the health and wellbeing of the population and reduce health inequalities.	<p><b><u>Likely Significant Effects</u></b></p> <p>Policy S.CF1 requires development proposals to protect existing facilities and improve them and to deliver new facilities in appropriate locations. This would directly contribute to this SA objective and a significant positive effect is identified.</p> <p>Policy S.CF1 also directs proposals for new health infrastructure/facilities to accessible locations, which would ensure that enhanced infrastructure provision can increase access to healthcare services. As such this policy would directly contribute to this SA objective by addressing issues of wide and equitable access to health care facilities.</p> <p>Policy D.CF2 sets out criteria to safeguard existing community facilities (including health facilities), which will also directly contribute to this objective.</p> <p>Policy D.CF3 seeks to locate new community facilities at accessible locations and ensure that play space provision associated with schools can meet relevant standards.</p> <p>Policy D.CF4 seeks to protect existing public houses from development pressures. This could improve wellbeing through reducing social exclusion and increasing social cohesion, however the net positive effects of the policies are potentially reduced due to potential negative alcohol related health impacts resulting from a proliferation of social facilities and the retention of public houses.</p> <p><b><u>Mitigation</u></b></p> <p>None identified.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	++	++	++	+	++
4. Housing: Ensure that all residents have access to good quality, well-located, affordable housing that meets a range of needs and promotes liveability.	<p><b><u>Likely Significant Effects</u></b></p> <p>There is potential for these policies to work in synergy with the housing policies to contribute towards the liveability aspects of this objective, resulting in a significant positive effect.</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p>	++	++	++	++	++

	<p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>					
7. Employment: Reduce worklessness and Increase employment opportunities for all residents	<p><b><u>Likely Significant Effects</u></b></p> <p>These policies support the provision of high quality education, community, social and cultural facilities in appropriate locations, which would indirectly contribute to this SA objective through providing opportunities for local employment.</p> <p>Policy D.CF3 would directly contribute to this SA objective by increasing opportunities to access adult, further and higher education facilities and therefore improve skill levels, resulting in reduced worklessness and improved access to employment.</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	+	+	+	+	+
8. Economic Growth: Create and sustain local economic growth across a range of sectors and business sizes.	<p><b><u>Likely Significant Effects</u></b></p> <p>These policies support the provision of high quality education, community, social and cultural facilities in appropriate locations, which would indirectly contribute to this SA objective through providing local employment and enabling the growth of certain economic sectors (e.g. arts, leisure &amp; culture).</p> <p>D.CF2 sets out criteria to protect existing community facilities whilst policy D.CF3 requires proposals to demonstrate a local need for the facility. This would directly contribute to this SA objective through protecting the viability of existing facilities and thereby potentially supporting a range of existing organisations and associated employment.</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p>	+	+	+	+	++

SA Objective	Commentary	Draft Policies				Cumulative Effect of the Draft Policies
		S.CF1: Supporting community facilities	D.CF2: Existing community facilities	D.CF3: New community facilities	Policy D.CF4: Public houses	
	<p><b><u>Uncertainties</u></b></p> <p>None identified.</p>					
9. Town Centres: Promote diverse and economically thriving town centres.	<p><b><u>Likely Significant Effects</u></b></p> <p>Policy S.CF1 and Policy D.CF3 direct community, cultural and social facilities to locations within the Town Centre hierarchy. This would enhance the vitality of Town Centres and therefore directly contribute to this SA objective (a significant positive effect).</p> <p>Policy D.CF2 will contribute to this objective as it supports the retention of existing facilities, which could include those in town centre locations and a minor positive effect is identified on this basis.</p> <p><b><u>Mitigation</u></b></p> <p>None identified.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	++	+	++	+	++
10. Design and Heritage: Enhance and conserve heritage and cultural assets; distinctive character and an attractive built environment.	<p><b><u>Likely Significant Effects</u></b></p> <p>As drafted there is no clear relationship between the CF policies and this SA objective.</p> <p><b><u>Mitigation</u></b></p> <p>None identified.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	~	~	~	~	0
11. Open space: Enhance and increase open spaces that are high quality, networked and multi-functional.	<p><b><u>Likely Significant Effects</u></b></p> <p>Policy D.CF2 sets out criteria to protect existing community facilities (which could include an element of open space) and also requires that extensions to schools retain or increase the current level of child space. Policy D.CF3 could result in the creation of new open space associated with new schools, minor positive effects are identified on this basis.</p>	~	+	+	~	+

SA Objective	Commentary	Draft Policies				Cumulative Effect of the Draft Policies
		S.CF1: Supporting community facilities	D.CF2: Existing community facilities	D.CF3: New community facilities	Policy D.CF4: Public houses	
	<p>There is no clear relationship between the other policies and this SA objective.</p> <p><b><u>Mitigation</u></b> None identified.</p> <p><b><u>Assumptions</u></b> None identified.</p> <p><b><u>Uncertainties</u></b> None identified.</p>					
12. Climate change: Ensure the Local Plan incorporates mitigation and adaption measures to reduce and respond to the impacts of climate change.	<p><b><u>Likely Significant Effects</u></b> Policies S.CF1 and D.CF3 direct proposals for new facilities and services to accessible locations, which could encourage sustainable modal shifts and thus contribute to the climate change SA objective.</p> <p>There is no clear relationship between the other policies and this SA objective.</p> <p><b><u>Mitigation</u></b> None identified</p> <p><b><u>Assumptions</u></b> None identified.</p> <p><b><u>Uncertainties</u></b> None identified.</p>	++	~	++	~	++
13. Biodiversity: Protect and enhance biodiversity, natural habitats, water bodies and landscapes of importance.	<p><b><u>Likely Significant Effects</u></b> There is no clear relationship between these policies and this SA objective.</p> <p><b><u>Mitigation</u></b> None required.</p> <p><b><u>Assumptions</u></b> None identified.</p> <p><b><u>Uncertainties</u></b> None identified.</p>	~	~	~	~	0

		S.OWS1: Creating a network of open spaces	S.OWS2 Enhancing the network of water spaces	D.OWS3: Open space and green grid networks	D.OWS4: Water spaces	
1. Equality: Reduce poverty and social exclusion and promote equality for all communities.	<p><b><u>Likely Significant Effects</u></b></p> <p>These policies require development proposals to protect, develop and enhance public access to, and the quality of, a range of open spaces, water spaces and green corridors, and also provide support for new allotments and pocket parks, including the temporary use of vacant developable sites. The policies would therefore facilitate increased use of open spaces by a range of population groups, which could stimulate increased participation in recreational activities, thereby reducing social exclusion and promoting integration. For these reasons the policies would contribute directly to this SA objective.</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	++	++	++	++	++
2. Liveability: Promote liveable, safe, high quality neighbourhoods with good quality services	<p><b><u>Likely Significant Effects</u></b></p> <p>These policies require development proposals to protect, develop and enhance public access to, and the quality of, a range of open spaces, water spaces and green corridors. In addition to improving physical access and provision the policies require development proposals to safeguard amenity and the existing use of open and water spaces. Therefore the policies would directly contribute to this SA objective through increasing access to a range of open spaces (and, equally, water spaces) and indirectly promoting improvements to public realm.</p> <p><b><u>Mitigation</u></b></p> <p>None identified.</p> <p><b><u>Assumptions</u></b></p> <p>None required.</p> <p><b><u>Uncertainties</u></b></p> <p>None required.</p>	++	++	++	++	++

SA Objective	Commentary	Draft Policies				Cumulative Effect of the Draft Policies
		S.OWS1: Creating a network of open spaces	S.OWS2 Enhancing the network of water spaces	D.OWS3: Open space and green grid networks	D.OWS4: Water spaces	
3. Health and wellbeing: Improve the health and wellbeing of the population and reduce health inequalities.	<p><b><u>Likely Significant Effects</u></b></p> <p>These policies require development proposals to protect, develop and enhance public access to, and the quality of, a range of open spaces, water spaces and green corridors. This would directly protect and enhance access to open space facilities and would also promote increased use of open (and water) spaces for a range of uses including public recreational activities. Consequently the policies would support improved health (physical and mental) and wellbeing outcomes and could also reduce health inequalities. Therefore these policies directly contribute to this SA objective.</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	++	++	++	++	++
4. Housing: Ensure that all residents have access to good quality, well-located, affordable housing that meets a range of needs and promotes liveability.	<p><b><u>Likely Significant Effects</u></b></p> <p>There is potential for these policies to work in synergy with the housing policies to contribute towards this objective by ensuring that new housing benefits from well-located open space, resulting in a significant positive effect. Policy D.OWS4 also provide criteria relating to the provision of residential moorings.</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	++	++	++	++	++

SA Objective	Commentary	Draft Policies				Cumulative Effect of the Draft Policies
		S.OWS1: Creating a network of open spaces	S.OWS2 Enhancing the network of water spaces	D.OWS3: Open space and green grid networks	D.OWS4: Water spaces	
5. Transport and mobility: Create accessible, safe and sustainable connections and networks by road, public transport, cycling and walking.	<p><b><u>Likely Significant Effects</u></b></p> <p>Policies S.OWS2 and D.OWS4 require development proposals to protect navigation and water transport uses from adverse impacts, as well as to enhance the use of water spaces and the network of water spaces. This would safeguard and could also enhance the use of waterways for passenger and freight transport, which would increase transport efficiency and encourage in sustainable modal shifts. As such these two policies would directly contribute to this SA objective resulting in a significant positive effect.</p> <p>Other policies will help ensure that open spaces contribute to the Green Grid and provide well connected open space that will enable walking and cycling. As such, the policies would directly contribute to this SA objective resulting in significant positive effects.</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	++	++	++	++	++
6. Education: Increase and improve the provision of and access to childcare, education and training facilities and opportunities for all age groups and sectors of the local population.	<p><b><u>Likely Significant Effects</u></b></p> <p>There is no clear relationship between these policies and this SA objective. However, it should be noted that open spaces and water spaces can provide suitable environments for some learning activities, so their enhancement and protection through these policies has the potential to deliver beneficial outcomes in relation to this SA objective, resulting in a minor positive effect.</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	+	+	+	+	+

		S.OWS1: Creating a network of open spaces	S.OWS2 Enhancing the network of water spaces	D.OWS3: Open space and green grid networks	D.OWS4: Water spaces	
11. Open space: Enhance and increase open spaces that are high quality, networked and multi-functional.	<p><b><u>Likely Significant Effects</u></b></p> <p>These policies require development proposals to protect, develop and enhance public access to, and the quality of, a range of open spaces, water spaces and green corridors, and also provide support for new allotments and pocket parks. The policies would directly contribute to this SA objective through delivering increased, enhanced and more accessible open space provision (including water spaces).</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified/</p> <p><b><u>Uncertainties</u></b></p> <p>None required.</p>	++	++	++	++	++
12. Climate change: Ensure the Local Plan incorporates mitigation and adaption measures to reduce and respond to the impacts of climate change.	<p><b><u>Likely Significant Effects</u></b></p> <p>These policies require development proposals to protect, develop and enhance public access to, and the quality of, a range of open spaces, water spaces and green corridors, and also provide support for new allotments and pocket parks. This would indirectly contribute to climate change adaptation and this SA objective through reducing surface run-off and climate related flood risk from new development proposals.</p> <p>Policy D.OWS4 requires development to demonstrate that it will not contribute to flood risk.</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	+	+	+	++	+

SA Objective	Commentary	Draft Policies				Cumulative Effect of the Draft Policies
		S.OWS1: Creating a network of open spaces	S.OWS2: Enhancing the network of water spaces	D.OWS3: Open space and green grid networks	D.OWS4: Water spaces	
13. Biodiversity: Protect and enhance biodiversity, natural habitats, water bodies and landscapes of importance.	<p><b><u>Likely Significant Effects</u></b></p> <p>These policies require development proposals to protect, develop and enhance public access to, and the quality of, a range of open spaces, water spaces and green corridors, and also provide support for new allotments and pocket parks. In addition Policies S.OWS2, D.OWS3 and D.OWS4 require development proposals to enhance biodiversity. All of the policies would therefore directly contribute to this SA objective through conserving, enhancing and improving connectivity between a range of habitats, facilitating biodiversity within new developments, improving access to nature and safeguarding protected species (through habitat protection and enhancement).</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	++	++	++	++	++

SA Objective	Commentary	Draft Policies				Cumulative Effect of the Draft Policies
		S.OWS1: Creating a network of open spaces	S.OWS2 Enhancing the network of water spaces	D.OWS3: Open space and green grid networks	D.OWS4: Water spaces	
14. Natural Resources: Ensure sustainable use and protection of natural resources, including water, land and air, and reduce waste	<p><b><u>Likely Significant Effects</u></b></p> <p>Policy S.OWS1 and Policy D.OWS3 require development proposals to protect, develop and enhance the quality of a range of open spaces and green corridors. This would directly help to improve soil quality and indirectly could help to improve air quality (through the aerobic effects of additional hedge and tree planting), resulting in a positive effect on this SA objective. In addition the support for the temporary greening of vacant land within Policy D.OWS3 would improve the appearance of the Borough and could stimulate interest in either bringing the land back into economically productive use or long term use for community benefit; thereby optimising resource usage and contributing to this SA objective.</p> <p>Policy S.OWS2 and D.OWS4 include the requirement to enhance the ecological and biodiversity value of water and will therefore make a significant positive contribution to the achievement of this objective.</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None required.</p> <p><b><u>Uncertainties</u></b></p> <p>None required.</p>	++	++	++	++	++

SA Objective	Commentary	Draft Policies				Cumulative Effect of the Draft Policies
		S.OWS1: Creating a network of open spaces	S.OWS2 Enhancing the network of water spaces	D.OWS3: Open space and green grid networks	D.OWS4: Water spaces	
15. Flood risk reduction and management: To minimise and manage the risk of flooding	<p><b><u>Likely Significant Effects</u></b></p> <p>These policies require development proposals to protect, develop and enhance public access to, and the quality of, a range of open spaces, water spaces and green corridors, and also provide support for new allotments and pocket parks. This would indirectly contribute to this SA objective through reducing surface run-off and flood risk from new development proposals.</p> <p>Policy D.OWS4 requires development proposals in or adjacent to the borough's water spaces it will not increase in flood risk. This would directly contribute to this SA objective through reducing the exposure of new developments to fluvial flood risks.</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	+	+	+	++	+
16. Contaminated Land: Improve land quality and ensure mitigation of adverse effects of contaminated land on human health.	<p><b><u>Likely Significant Effects</u></b></p> <p>As set out in relation to SA objective 14, the protection, development and enhancement of open spaces required by S.OWS1 and Policy D.OWS3 would help to improve soil quality, whilst the support provided by D.OWS4 for temporary greening would improve the appearance and longer term development potential of vacant and brownfield sites. As such these policies would directly contribute to this SA objective.</p> <p>There is no clear relationship between other policies and this SA objective.</p> <p><b><u>Mitigation</u></b></p> <p>None required.</p> <p><b><u>Assumptions</u></b></p> <p>None identified.</p> <p><b><u>Uncertainties</u></b></p> <p>None identified.</p>	++	~	++	~	++

SA Objective	Commentary	Draft Policies										Cumulative Effect of the Draft Policies
		Policy S.ES1: Protecting and enhancing our environment	D.ES2: Air quality	D.ES3: Urban greening and biodiversity	D.ES4: Flood risk	D.ES5: Sustainable drainage	D.ES6: Sustainable water management	D.ES7: A zero carbon borough	D.ES8: Contaminated land and development and storage of hazardous substances	D.ES9: Noise and vibration	D.ES10: Overheating	
1. Equality: Reduce poverty and social exclusion and promote equality for all communities.	<p><b>Likely Significant Effects</b></p> <p>Policy S.ES1 and Policy D.ES3 require all developments to protect and enhance the natural environment, and Policy S.ES1 specifically identifies the need to improve opportunities to experience nature, in particular in deficient areas. This could prioritise environmental improvements in deprived areas (or areas lacking open spaces) and increase access to environmental assets (e.g. open spaces) for a range of demographic groups, which would help to tackle social exclusion and promote social cohesion and integration. As such the policy makes a significant positive contribution to this SA objective.</p> <p>Policy D.ES2 requires all development proposals to meet or exceed the 'Air Quality Neutral' standard, which ensures all neighbourhoods receive the same minimum treatment when considering air quality issues, regardless of their social or demographic characteristics. This could prevent environmental justice related concerns from arising, resulting in an indirect positive effect on this SA objective.</p> <p>Criterion 3b of Policy D.ES7 and the supporting text to it identify the potential for development to support the Decentralised Energy Network (DEN). If this subsequently results in the deployment of decentralised energy systems in residential developments, this could reduce the exposure of future residents to market prices and enable the provision of subsidised energy for vulnerable groups. Consequently this policy has the potential to indirectly reduce fuel poverty and therefore contribute to this SA objective. Similarly, measures to address water consumption could help address water poverty, although a minor positive effect is identified in this instance.</p> <p>Policies D.ES9 and D.ES10 make a minor positive contribution as they seek to ensure that all communities enjoy a comfortable living environment.</p> <p>There is no clear relationship between policies D.ES4, D.ES5 and D.ES8 and this SA objective.</p> <p><b>Mitigation</b> None identified.</p> <p><b>Assumptions</b> None required.</p> <p><b>Uncertainties</b> None identified.</p>	++	+	++	~	~	+	+	~	+	+	+
2. Liveability: Promote liveable, safe, high quality neighbourhoods with good quality services	<p><b>Likely Significant Effects</b></p> <p>Policy S.ES1 identifies the need to improve opportunities to experience nature, in particular in deficient areas, as well as a requirement for all development proposals to protect and enhance the quality of the natural environment. This could result in development proposals providing new open space provision, providing improved access to and/or enhancing the quality of existing open spaces, improving the appearance of localities, and upgrading public realm, all of which would make a significant positive contribution to this SA objective.</p>	++	++	+	+	+	~	~	~	++	~	+

SA Objective	Commentary	Draft Policies										Cumulative Effect of the Draft Policies
		Policy S.ES1: Protecting and enhancing our environment	D.ES2: Air quality	D.ES3: Urban greening and biodiversity	D.ES4: Flood risk	D.ES5: Sustainable drainage	D.ES6: Sustainable water management	D.ES7: A zero carbon borough	D.ES8: Contaminated land and development and storage of hazardous substances	D.ES9: Noise and vibration	D.ES10: Overheating	
	<p>Policy D.ES2 seeks to secure air quality neutral development, contributing to a high quality public realm and reducing the impacts of pollution on the public realm, a significant positive contribution to this SA objective.</p> <p>Policy D.ES3 relates to the protection and enhancement of biodiversity and a minor positive effect in relation to liveability is identified as this will also contribute to liveable neighbourhoods.</p> <p>Policy D.ES4 sets out a pro-active approach to flood risk management which promote liveable and safe areas.</p> <p>Policy D.ES5 provides the opportunity to provide multi-functional open spaces and a minor positive effect is identified on this basis.</p> <p>Policy D.ES9 directly contributes to this SA objective through safeguarding noise sensitive receptors from adverse noise impacts resulting from development proposals. A significant positive effect is therefore anticipated.</p> <p>There is no clear relationship between the other Environmental Sustainability policies and this SA objective.</p> <p><b>Mitigation</b> None identified.</p> <p><b>Assumptions</b> None identified.</p> <p><b>Uncertainties</b> None identified.</p>											
3. Health and wellbeing: Improve the health and wellbeing of the population and reduce health inequalities.	<p><b>Likely Significant Effects</b></p> <p>Policy S.ES1 identifies the need through biodiversity protection and enhancement to improve opportunities to experience nature, in particular in biodiversity deficient areas, which could be beneficial to mental and physical health. It also identifies the need to mitigate the adverse effects of contaminated land on human health. The policy also requires development to contribute towards achievement of the Borough's Air Quality Action Plan. These criterion would enhance open space provision, thereby encouraging increased recreational activity with associated positive health outcomes, as well as reducing existing health risks from contamination. As such the policy directly contributes to this SA objective.</p> <p>Policy D.ES2 sets out criteria to ensure that development proposals safeguard air quality and, through design, reduce exposure to air pollution. This would protect the physical health of both users of a development proposal and, in the case of developments with wider potential air quality effects, the wider public, resulting in a significant positive effect in relation to this objective.</p> <p>Policy D.ES3 sets out criteria to ensure that development proposals protect and enhance biodiversity interests. This could indirectly enhance open space provision and result in other environmental improvements with consequential indirect positive health and wellbeing impacts, including through increased</p>	++	++	++	+	+	~	~	++	++	++	++

SA Objective	Commentary	Draft Policies										Cumulative Effect of the Draft Policies
		Policy S.ES1: Protecting and enhancing our environment	D.ES2: Air quality	D.ES3: Urban greening and biodiversity	D.ES4: Flood risk	D.ES5: Sustainable drainage	D.ES6: Sustainable water management	D.ES7: A zero carbon borough	D.ES8: Contaminated land and development and storage of hazardous substances	D.ES9: Noise and vibration	D.ES10: Overheating	
	<p>active travel and recreational activities. As such the policy directly contributes to this SA objective.</p> <p>Policy S.ES1 and Policies D.ES4 and 5 set out a proactive approach to flood risk management which is likely to reduce flood risks and associated fears, whilst restricting development in flood risk areas that could be retained for recreational use. Therefore these policies could indirectly help to safeguard mental health and improve people's physical health and quality of life. A minor positive effect on this SA objective is identified for both D.ES4 and ES5.</p> <p>Policy D.ES8 sets out criteria to control development on potentially contaminated or unstable land and to control the storage and management of hazardous substances. These criteria seek to protect the environment, human health and general amenity from unacceptable impacts whilst enabling appropriate development proposals to proceed. Owing to the focus on protecting and enhancing human health the policy would directly contribute to this SA objective.</p> <p>Policy D.ES9 contributes to this SA objective through safeguarding noise sensitive receptors from adverse noise impacts (from development proposals), which would help to safeguard the physical and mental health and wellbeing of residents.</p> <p>Policy D.ES10 requires new development to avoid contributing to overheating which will have a significant positive effect on this objective.</p> <p>There is no clear relationship between other policies and this SA objective.</p> <p><b>Mitigation</b> None required.</p> <p><b>Assumptions</b> None identified.</p> <p><b>Uncertainties</b> None required.</p>											
4. Housing: Ensure that all residents have access to good quality, well-located, affordable housing that meets a range of needs and promotes liveability.	<p><b>Likely Significant Effects</b></p> <p>There is no clear relationship between the Environmental Sustainability policies and this SA objective.</p> <p><b>Mitigation</b> None required.</p> <p><b>Assumptions</b> None identified.</p> <p><b>Uncertainties</b> None identified.</p>	~	~	~	~	~	~	~	~	~	0	
5. Transport and mobility: Create accessible, safe and sustainable connections and networks by road, public transport,	<p><b>Likely Significant Effects</b></p> <p>Policy S.ES1 and Policy D.ES2 will contribute to this objective by requiring development to deliver air quality neutral development and, in the case of Policy SES1 contribute to the objectives of the Borough's Air Quality Action Plan.</p>	++	++	~	+	+	~	~	~	~	+	

SA Objective	Commentary	Draft Policies										Cumulative Effect of the Draft Policies
		Policy S.ES1: Protecting and enhancing our environment	D.ES2: Air quality	D.ES3: Urban greening and biodiversity	D.ES4: Flood risk	D.ES5: Sustainable drainage	D.ES6: Sustainable water management	D.ES7: A zero carbon borough	D.ES8: Contaminated land and development and storage of hazardous substances	D.ES9: Noise and vibration	D.ES10: Overheating	
	<p><b>Uncertainties</b></p> <p>None identified.</p>											
9. Town Centres: Promote diverse and economically thriving town centres.	<p><b>Likely Significant Effects</b></p> <p>Policy S.ES1 and Policy D.ES2 will contribute to this objective by requiring development to deliver air quality neutral development and, in the case of Policy S.ES1 contribute to the objectives of the Borough's Air Quality Action Plan. This will help maintain the attractiveness of town centres.</p> <p>Policies D.ES4 and 5 relate to flood risk and could contribute to this objective by helping to avoid flood risk in town centres.</p> <p>Policies D.ES9 and D.ES10 seek to avoid noise pollution and overheating. They will help achieve this objective by encouraging an attractive built environment that will help maintain the vitality of town centres.</p> <p>There is no clear relationship between other policies and this SA objective.</p> <p><b>Mitigation</b></p> <p>None required.</p> <p><b>Assumptions</b></p> <p>None identified.</p> <p><b>Uncertainties</b></p> <p>None identified.</p>	+	+	~	+	+	~	~	~	++	++	+
10. Design and Heritage: Enhance and conserve heritage and cultural assets; distinctive character and an attractive built environment.	<p><b>Likely Significant Effects</b></p> <p>By ensuring that development proposals adequately mitigate predicted environmental and amenity impacts and by proactively managing flood risk, these policies would ensure that natural and cultural heritage assets, including those which contribute to landscapes/townscapes, are protected from adverse development impacts and from the damaging effects of flooding. Therefore these policies would have a minor positive effect on this SA objective.</p> <p>Policy D.ES9 and D.ES10 seeks to protect the built environment and could also contribute to this objective by protecting heritage and cultural assets and their settings and people's ability to enjoy them.</p> <p><b>Mitigation</b></p> <p>None required.</p> <p><b>Assumptions</b></p> <p>None identified.</p> <p><b>Uncertainties</b></p> <p>None identified.</p>	+	+	+	+	+	+	+	+	++	++	+
11. Open space: Enhance and increase open spaces that are high quality, networked and multi-functional.	<p><b>Likely Significant Effects</b></p> <p>Policy S.ES1 and Policy D.ES2 require all developments to protect and enhance the natural environment, and Spatial Policy S.ES1 specifically identifies the need to improve opportunities to experience nature, in particular in deficient areas. This could increase access to and improve the quality of open space provision, including through encouraging</p>	++	+	++	~	~	~	~	~	+	+	+

SA Objective	Commentary	Draft Policies										Cumulative Effect of the Draft Policies
		Policy S.ES1: Protecting and enhancing our environment	D.ES2: Air quality	D.ES3: Urban greening and biodiversity	D.ES4: Flood risk	D.ES5 Sustainable drainage	D.ES6: Sustainable water management	D.ES7: A zero carbon borough	D.ES8: Contaminated land and development and storage of hazardous substances	D.ES9: Noise and vibration	D.ES10: Overheating	
	<p>connectivity, resulting in major positive effects on this SA objective.</p> <p>Other Environmental Sustainability policies provide the opportunity to protect and where possible enhance environmental, including biodiversity, interests and amenity, resulting in indirect positive effects on this SA objective, for example D.ES5 relating to sustainable drainage could provide biodiversity benefits, depending on the methods used in a particular development.</p> <p><b>Mitigation</b> None required.</p> <p><b>Assumptions</b> None identified.</p> <p><b>Uncertainties</b> None identified.</p>											
14. Natural Resources: Ensure sustainable use and protection of natural resources, including water, land and air, and reduce waste	<p><b>Likely Significant Effects</b></p> <p>All policies make a significant contribution to the achievement of this objective. Specifically:</p> <p>Policies S,ES1 and D.ES2 set out criteria to ensure that development proposals safeguard air quality and, through design, reduce exposure to air pollution.</p> <p>Policies S,ES1 and D.ES3 require all developments to protect and enhance biodiversity, which would include protecting and improving soil resources.</p> <p>Policies S,ES1, D.ES4 and ES5 set out a pro-active approach to flood risk management, which would ensure that development proposals contribute to sustainable drainage practices and the protection of water quality.</p> <p>Policy D.ES6 requires development proposals to minimise water consumption and pressure on the combined sewer network, thereby ensuring the minimisation of water use.</p> <p>Policy D.ES7 will help reduce use of none renewable resources associated with energy generation.</p> <p>Policy D.ES8 sets out criteria to control development on potentially contaminated or unstable land subject in order to safeguard environmental and amenity interests. This provides a framework to allow the appropriate redevelopment of brownfield land.</p> <p>There is not relationship between Policies D.ES9 and D.ES10.</p> <p><b>Mitigation</b> None required.</p> <p><b>Assumptions</b> None identified.</p> <p><b>Uncertainties</b> None identified.</p>	++	++	++	++	++	++	++	++	~	~	++
15. Flood risk reduction and management: To minimise and	<p><b>Likely Significant Effects</b></p> <p>Policy S,ES1 and Policies D.ES4 and 5 set out a pro-active approach to flood risk management, which directs</p>	++	~	~	++	++	+	~	~	~	~	++

SA Objective	Commentary	Draft Policies										Cumulative Effect of the Draft Policies
		Policy S.ES1: Protecting and enhancing our environment	D.ES2: Air quality	D.ES3: Urban greening and biodiversity	D.ES4: Flood risk	D.ES5: Sustainable drainage	D.ES6: Sustainable water management	D.ES7: A zero carbon borough	D.ES8: Contaminated land and development and storage of hazardous substances	D.ES9: Noise and vibration	D.ES10: Overheating	
manage the risk of flooding	<p>development away from flood risk areas and therefore minimises flood risks to people and property. Policy D.ES5 also sets out criteria to ensure surface run-off is kept within acceptable limits and encourages the use of SUDS. As such these policies directly contribute to this SA objective through requiring flood risk and drainage to be managed sustainably.</p> <p>The requirement within Policy D.ES6 for development proposals to minimise impacts on water supply and sewerage networks would indirectly contribute to this SA objective through reducing potential flood risks.</p> <p>There is no clear relationship between the other Environmental Sustainability policies and this SA objective.</p> <p>There is not relationship between Policies D.ES9 and D.ES10.</p> <p><b>Mitigation</b> None required.</p> <p><b>Assumptions</b> None identified.</p> <p><b>Uncertainties</b> None identified.</p>											
16. Contaminated Land: Improve land quality and ensure mitigation of adverse effects of contaminated land on human health.	<p><b>Likely Significant Effects</b></p> <p>Policy S.ES1 sets the context for D.ES8 on contaminated land, making a minor positive contribution to this objective.</p> <p>Policy D.ES8 sets out criteria to control development on potentially contaminated or unstable land subject in order to safeguard environmental and amenity interests. This provides a framework to allow the appropriate redevelopment of brownfield land whilst reducing human health impacts arising from existing contaminated land, and therefore makes a significant positive contribution to this SA objective.</p> <p>There is no clear relationship between these the other Environmental Sustainability policies and this SA objective.</p> <p><b>Mitigation</b> None required.</p> <p><b>Assumptions</b> None identified.</p> <p><b>Uncertainties</b> None identified.</p>	+	~	~	~	~	~	~	++	~	~	+

SA Objective	Commentary	Draft Policies			Cumulative Effect of the Draft Policies
		S.MW1: Managing our waste	D.MW2: New and enhanced waste facilities	D.MW3: Waste collection facilities in new development	
1. Equality: Reduce poverty and social exclusion and promote equality for all communities.	<p><b>Likely Significant Effects</b></p> <p>There is no clear relationship between the policies and this SA objective.</p> <p><b>Mitigation</b></p> <p>None identified.</p> <p><b>Assumptions</b></p> <p>None required.</p> <p><b>Uncertainties</b></p> <p>None identified.</p>	~	~	~	0
2. Liveability: Promote liveable, safe, high quality neighbourhoods with good quality services	<p><b>Likely Significant Effects</b></p> <p>S.MW1 will contribute to this objective by safeguarding existing waste management facilities and identifying suitable areas of search for new facilities.</p> <p>D.MW2 includes criteria to protect the amenity of existing uses where new waste facilities are proposed and a significant positive effect is identified.</p> <p>Policy D.MW3 will contribute to liveable neighbourhoods by ensuring that adequate waste management is in place at the development level and a minor positive effect is identified.</p> <p><b>Mitigation</b></p> <p>None identified.</p> <p><b>Assumptions</b></p> <p>None identified.</p> <p><b>Uncertainties</b></p> <p>None identified.</p>	+	++	+	+
3. Health and wellbeing: Improve the health and wellbeing of the population and reduce health inequalities.	<p><b>Likely Significant Effects</b></p> <p>Policy S.MW1 safeguards existing sites for waste recycling and treatment capacity and identifies sites for new facilities, providing the basis for avoiding development proposals that would prejudice these uses and any associated health impacts.</p> <p>Policy D.MW2 identifies the need for new waste management proposals to be enclosed and to consider impacts on amenity, including emissions to air resulting in a positive effect.</p> <p>Policy D.MW3 will contribute to this objective by ensuring that provisions for managing waste are incorporated in developments.</p> <p><b>Mitigation</b></p> <p>None required.</p> <p><b>Assumptions</b></p> <p>None identified.</p> <p><b>Uncertainties</b></p> <p>None required.</p>	+	+	+	+
4. Housing: Ensure that all residents have access to good quality, well-located, affordable housing that meets a range of needs and promotes liveability.	<p><b>Likely Significant Effects</b></p> <p>There is no clear relationship between the policies and this SA objective.</p> <p><b>Mitigation</b></p> <p>None required.</p> <p><b>Assumptions</b></p> <p>None identified.</p> <p><b>Uncertainties</b></p> <p>None identified.</p>	~	~	~	0
