Summary

This report presents the finding of the review of the adequacy of internal control measures put in place by the London CIV and their review of underlying fund managers controls. Officers have reviewed the available AAF 01/06 and SSAE3402 for investment managers whom the Fund has direct relationships with. These internal control reports signifies that a service organization has had its control objectives and control activities examined by an independent accounting and auditing firm.

The third-party internal controls oversight summary report received from LCIV concludes that no significant changes in the internal control environment for the period 1 April 2022 to 31 March 2023 was reported and bridging letters were provided by LCIV underlying managers covering periods to 31 March 2023 not covered by the internal control reports.

The Committee considered reports for Northern Trust, Schroders, Legal & General, Goldman Sachs and Insights in June. London CIV report was not available at the time of the June Committee and Board meetings.

The Pensions Committee is recommended to:

2. Note that the London CIV Third Party Controls and Oversight Summary Report at 31 March 2023 (Appendix 1).

1. REASONS FOR THE DECISIONS

- 1.1 There are no alternative decisions to be made.

2. ALTERNATIVE OPTIONS

- 2.1 The review of fund managers' AAF 01/06 and ISAE 3402 reports and associated reports should provide some assurance to the Pension Fund (Members and Trustees) that fund managers including London CIV have adequate controls and safeguards are in place for managing the Fund's assets. It is appropriate for the committee and Fund members to be kept abreast of any risks identified through this process and the likely impact of such risks to the Fund.

3. DETAILS OF REPORT

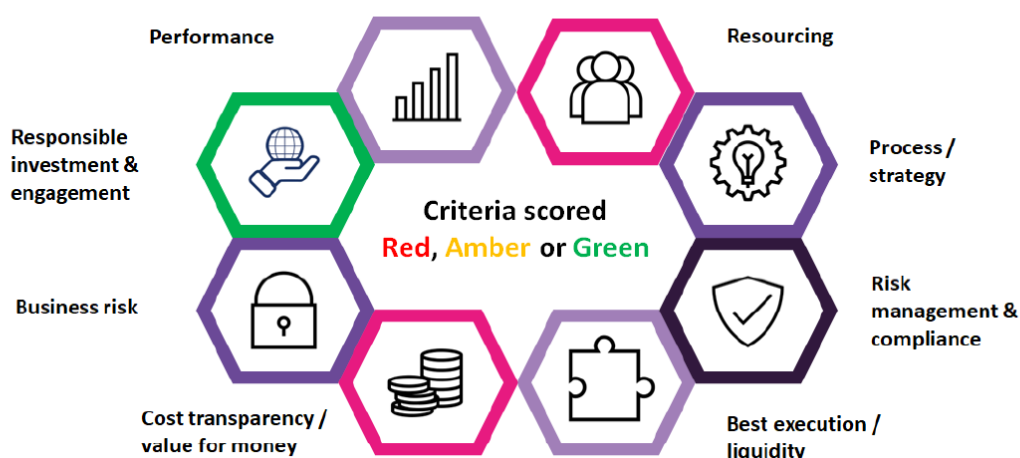

- 3.1 The Pensions Regulator Code of Practice 9 Internal Controls requires Trustees to review internal controls as part of risk management.
- 3.2 There are a range of internal control reports produced in different countries in response to local and regulatory pressures. The guidance allows service organisations to disclose their controls activities and processes to their clients and the auditors of their clients in a uniform reporting format.
- 3.3 The publication of a service auditor's report prepared in accordance with a country's authoritative guidance indicates that a service organisation has had its service control objectives and control activities examined by an independent accounting and auditing firm.

The importance of these assurance reports is that they can provide appropriate audit evidence under ISA (UK & I) 402.
