

Tower Hamlets Annual Residents' Survey 2023

Transformation Advisory Board

October 2023

Introduction

- First full Annual Residents Survey since 2019.
- Fieldwork took place in May and June 2023.
- The cost of living is the crucial context. More residents are worried about rising prices than ever before, more are worried about managing financially, and fewer report no financial concerns.
- The Annual Residents Survey (ARS) helps to fulfil Strategic Plan Priority 8 by listening to residents' views, informing services and highlighting possible improvements. Having run the ARS since the 1990s we can see trends over time.

About ARS 2023

- This is the first face-to-face survey since 2019.
- The 2021 edition was carried out by phone due to pandemic restrictions. The results from 2021 are therefore not directly comparable to the 2023 results and 2019 is used for comparison.
- Fieldwork and some analysis were undertaken by M-E-L Research, an independent research company.
- The survey involves a representative sample of residents (1,117 respondents). We compared the sample to the 2021 Census data to ensure the sample is representative, and cross-referenced LIFT (Low Income Family Tracker).

Further analysis and next steps

- This is our initial analysis at a top level. The report from the contractor provides an external view and greater depth, covering all survey questions.
- Review of survey content and how it can be used alongside other work will take place throughout Autumn 2023.
- Where results are presented as a total, e.g. Sum Positive, the number given is all the positive responses added together. The sum positive/sum good etc. is the way that these numbers have been grouped and presented in past editions of the ARS; presenting in this way provides continuity.
 - For example, Q2 To what extent do you think these statements apply to your Borough... My council is doing a good job: A great deal 5%, To some extent 51% will be a Sum good of 56%.

Highlights

- Satisfaction with local area up 8 points – 70% to 78% and above national benchmark (76%).
- Residents' perception of the Borough as a place where people from different backgrounds get on well together increased (78% to 87%).
- Despite a challenging period for the public sector overall satisfaction with the council remains about the same compared to 2019 (60% to 63%, not statistically significant).
- Concern about crime remains high, but residents' worries about various types of ASB in their local areas is down.
- Almost all services show statistically significant improvement among users e.g. the positive sentiment of users of parking services is up 19 percentage points compared to 2019.
- Many areas see significant increases in those who say they Don't Know. To the question "My council is efficient and well run" the Sum positive is down 12 %points, Don't Knows are up 9 %points.

Context and insights

Analysis

- Many of our key indicators have improved. The council is performing well against national benchmarked data and is emerging well from the Covid period.
- Since the last comparable Annual Residents Survey in 2019, residents have faced two major crises with the pandemic and the cost-of-living.
- The survey results show that the current cost-of-living crisis appears to be having an impact on residents' lives and on concerns for the future.
- In 2019 more than half (55%) of residents reported that they were not concerned about any of the issues listed (paying bills, utilities, rent etc.). This figure has fallen to just 32% in 2023.

Analysis

- Residents' views of the council may be shaped by their financial circumstances. The 14% of residents who report that they are struggling financially are more likely to have negative views of the council across a range of measures.
- Those struggling financially are 10 % points more likely than those managing well to disagree that “My council is doing a better job now than one year ago”
 - Managing well: 42% disagree council is better than a year ago, financial problems: 52% disagree council is better than a year ago.
- The ARS findings should be viewed in the context of the cost of living crisis and the continued impact on public services of the pandemic.

Analysis

- Younger people, aged 18-34. are generally more positive about the council. Residents aged 35-54 are generally more negative, as are carers, those with health problems, and those living in the Borough for 10 years and more.
- When asked about their overall satisfaction with the council, just 9% of those aged 18-34 are dissatisfied, but the figure is 19% for those aged 55+.
- Those with a health problem or disability are almost 10 % points more likely to express dissatisfaction – 14% overall are dissatisfied compared to 23% with a health problem suggesting perceptions of the council are linked to those of public health providers.

Analysis

- Residents who are more positive about the council are also more positive about the police and vice versa. Though the council and the police are separate, residents' views of one appear to influence their view of the other.
- When asked whether they are satisfied with the council overall, those who believe police / local services are dealing well with crime / antisocial behaviour are more likely to be satisfied (81% compared to 63% overall). Fewer than 6% of those who agree police / local services are dealing well with crime / antisocial behaviour are dissatisfied with how Tower Hamlets run things.
- This continues to indicate that crime is a determining factor when forming a view of the council.
- We see the same with health. Satisfaction with local health services is the lowest since 2004, and views of local health services correlate with views of the council. Residents who are positive about local health services are more likely to say that the council is doing a good job (58% compared to 50% overall).

Timeline

- Draft timeline

Fieldwork	Took place in April/May 2023
Top lines to Chief Executive	19 th July
Discussion with Director of Communications	18 th August
Present to CMT	12 th September
MAB	20 th September
Press release	4 th October
Overview and Scrutiny	5 th October
Present to TAB	10 th October
Sessions to explore the data and teach people how to find what they want.	Autumn 2023

Findings

Findings - positives

Topic area	Measure	Tower Hamlets	LGA
Thinking about your local area/neighbourhood, how satisfied are you with the area as a place to live?	Satisfied	78%	76%
How much do you trust Tower Hamlets Council?	Great deal/Fair amount	65%	59%
Taking everything into account, how satisfied or dissatisfied are you with the way Tower Hamlets run things?	Satisfaction	63%	60%
My council keeps residents informed about what they are doing	A great deal/To some extent	57%	57%
How safe or unsafe do you feel when outside in your local area during the day?	Safe	94%	92%
How safe or unsafe do you feel when outside in your local area after dark?	Safe	66%	71%

Tower Hamlets performs **above or at the national average for most key benchmarks**. Whilst the LGA's benchmarking club has been discontinued, it continues to run a quarterly survey of the whole country. The LGA figures are taken from the [February 2023](#) edition.

Findings - change over time

All these findings are statistically significant

To what extent do you think these statements apply to your Borough?	Measure	2023	2019	2019-2023	Significant?
How safe or unsafe do you feel when outside in your local area during the day?	Safe	94%	86%	↑8% points	✓
To what extent do you agree or disagree that this local area is a place where people from different backgrounds get on well together?	Agree	87%	78%	↑9% points	✓
Thinking about your local area/neighbourhood, how satisfied are you with the area as a place to live?	Satisfied	78%	70%	↑8% points	✓
How safe or unsafe do you feel when outside in your local area after dark?	Safe	66%	58%	↑8% points	✓

- The benchmarked areas set out above show significant improvements in residents' perceptions of the borough.
- Residents in Tower Hamlets believe the borough is a place where people from different backgrounds get on well together, up 9 percentage points from the 2019 edition of the ARS.
- Residents are more satisfied with their local area as a place to live compared to 2019, up by 8 percentage points.
- Residents feel safer in the Borough than they did in 2019. For both during the day and after dark, feelings of safety have increased, both by 8 percentage points.
- 'Significant' refers to whether the result is statistically significant.

Findings - change over time

Thinking about this local area (within 15/20 minutes walking distance), how much of a problem do you think are...?	Measure	2023	2019	Difference	Significant?
Noisy neighbours or loud parties	Problem	18%	35%	↓17 %points	✓
People being drunk or rowdy in public places	Problem	29%	48%	↓19 %points	✓
Vandalism, graffiti and other deliberate damage to property or vehicles	Problem	29%	45%	↓16 %points	✓
People using or dealing drugs	Problem	49%	67%	↓18 %points	✓

While crime and anti-social behaviour remain a concern for many, residents are notably less worried about ASB in their local area than they were in 2019

‘Significant’ refers to whether the result is statistically significant.

Areas for improvement

Tower Hamlets Annual Residents' Survey 2023 results

Benchmarking questions - results

The table shows the % of residents giving a positive response to each question and the % of 'Don't Knows'.

Whilst these indicators suggest a decline, much of this is based upon an increase in 'Don't Know' rather than an increase in dissatisfaction. Of the key benchmark questions, all in the table below saw an increase in Don't Knows, of which six increased by 10 % points or more. All the results below show a statistically significant change since 2019.

To what extent do you think these statements apply to your Borough?	Measure	2023	2019	2019-2023 change % points	Don't know (2019)	Don't know (2023)
My council involves residents when making decisions	A great deal/To some extent	42%	57%	↓15%	4%	17%*

Parking services	52%	33%	↑19%	2%	✓
Youth Services	47%	x	x	9%	X
Council Housing*	42%	40%	↑2%	8%	X

Service users are more positive about all services than in 2019.

‘Significant’ refers to whether the result is statistically significant.

*For council housing the figures are the views on Council Housing of residents who said they rent from the council / through Tower Hamlets Homes

Findings

Cost of living

Findings: Personal concerns

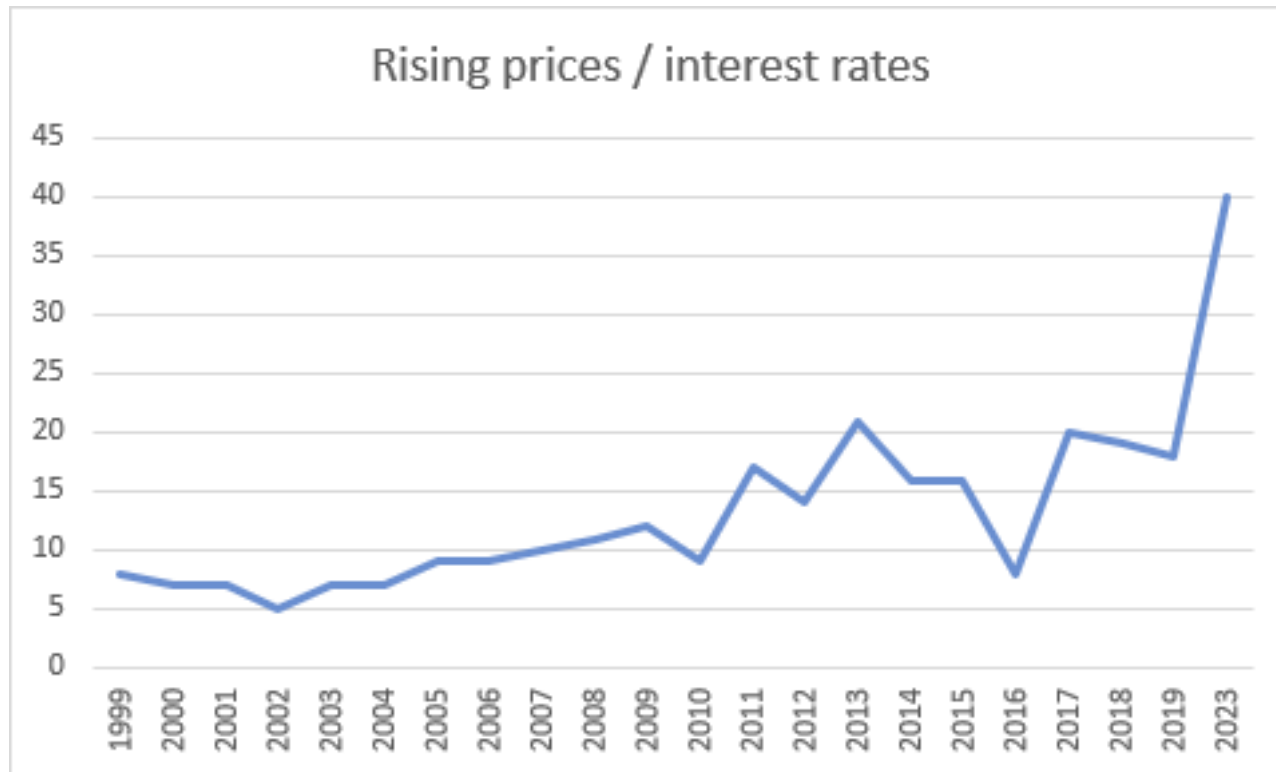

Which three of these are you personally most concerned about?	2023	2019	2019-2023	Statistically Significant?
Rising prices/interest rates	40%	18%	↑ 22%	✓
Crime and Anti-Social Behaviour	39%	48%	↓ 9%	✓
Litter/ dirt in streets	30%	28%	↑ 2%	X
Level of council tax	24%	14%	↑ 10%	✓
Quality of Health Service	23%	11%	↑ 12%	✓
Number of homeless people	17%	19%	↓ 2%	X
Traffic congestion	12%	11%	↑ 1%	X
Level of air pollution	11%	16%	↓ 5%	✓
Lack of jobs	9%	7%	↑ 2%	X
Not enough being done for elderly people	7%	6%	↑ 1%	X
Other	7%	6%	↑ 1%	X
Standards of education	5%	5%	0%	X
None of these	5%	8%	↓ 3%	✓
Poor public transport	3%	3%	0%	X
Don't know	1%	0%	↑ 1%	✓

There have been statistically significant changes in several areas, most notably Rising prices/interest rates, Level of council tax, and Quality of Health Service which all saw increases of 10 percentage points or more.

We have data on rising prices/interest rates since at least 1999. In 2023 40% of respondents put it in their top 3 concerns, an increase of 22 percentage points since 2019, double its previous highest level (21% in 2013). This graph shows the percentage who put rising prices/interest rates as a top 3 concern. 2023 is only the second year that crime has not been top. In 2017 availability of affordable housing overtook it.

Note: Not all of the concern areas are directly comparable with previous years as questions have been added or reworded.

Key context: Personal concerns

In answer to which three of these are you PERSONALLY most concerned about?

The key context to this edition of the Annual Resident Survey is the cost of living. Each edition of the ARS has asked residents for their top personal concerns. The 2023 edition is the first to see the cost of living (framed as rising prices/interest rates) come top. In addition to the many who chose the cost of living, a further quarter selected council tax as among their top three concerns.

The chart below shows how concern about crime has fallen over time, and that cost of living and quality of local health services have become more salient.

Which three of these are you personally most concerned about?

Findings – key context: Personal concerns

In answer to which three of these are you PERSONALLY most concerned about?

Thinking about your finances, which, if any, of the following are you most concerned about at the moment:	2023	2019	Difference	Statistically Significant?
Paying fuel bills	50%	15%	↑35%	✓
Paying for food / grocery bills	32%	12%	↑20%	✓
Paying other bills or costs	30%	19%	↑11%	✓
Paying the rent / mortgage	29%	15%	↑14%	✓
Paying council tax	27%	15%	↑12%	✓
Paying credit card bills	8%	6%	↑2%	X
Paying loans	4%	4%	0%	X
I am not concerned about any of these issues	32%	55%	↓23%	✓
Don't know	2%	3%	↓1%	✓

It is striking that the percentage of people not worried about any of the issues listed fell from 55% to less than one-third (32%).

Findings: Personal concerns – cost of living

LIFT data from May

Risk group	Count of households	% of all low income households
Coping	28,014	85%
Struggling	749	2%
At risk	3,243	10%
In crisis	809	2%
Grand Total	32,815	100%

We have compared the figures against the Low Income Family Tracker (LIFT) by working with the Poverty Insights Officer in the Growth & Economic Development team.

Combining the data from LIFT with the Annual Resident Survey on personal concerns, personal finances, and the question on concerns about paying bills we gain some insights into residents' financial situations. Combining all these implies that there is not currently widespread destitution in the Borough, but that residents are concerned about the future.

Of those in low-income households, 85% are coping financially according to the most up-to-date figures.

Methodology

About the survey and context

- All surveys, even the Census, are estimates. They are also snapshots at that time, and things change.
- Surveys are estimates of the results that we would get if we asked the same questions to every Tower Hamlets resident. The concept of **statistical reliability** is based on how confident we are that the sample of individuals we interviewed is representative of the general population.
- Our sample was drawn to be representative of the local population across the Borough. Surveys were conducted at over 100 locations.
- M-E-L interviewed 1,117 Tower Hamlets residents – our “sample”. With a sample of this size, at a 95% level of confidence, and on a 50% agreement score, the confidence intervals attached to the % ratings is $\pm 3.0\%$. This means that there is a 95% chance that the “true” value will (if we had interviewed all residents) fall within 47% and 53%. The confidence intervals depend as well on the result itself: the closer to 50% the wider the confidence interval; the further away from 50% (i.e., closer to 0% or 100%) the narrower the confidence interval.

• Who we interviewed

To what extent do you think these statements apply to your Borough?

- My council is doing a good job
- My council is efficient and well run
- My council involves residents when making decisions
- My council listens to the concerns of local residents
- My council is easy to contact
- My council responds quickly when asked for help
- My council keeps residents informed about what it is doing
- My council has staff who are friendly and polite
- My council doesn't do enough for people like me
- My council provides good value for money for the council tax I pay
- My council is doing a better job now than one year ago
- My council is making the local area a better place for people to live

Taking everything into account, how satisfied or dissatisfied are you with the way Tower Hamlets runs things?

To what extent do you agree or disagree that Tower Hamlets Council is open and transparent about its activities?

How much do you trust Tower Hamlets Council?

To what extent do you agree or disagree that this local area is a place where people from different backgrounds get on well together?

How safe or unsafe do you feel when outside in your local area after dark? And during the day?
