Hi Lynsey,

That's a very comprehensive / helpful response - thank you! I suspect part of the responsibility lies with TH, but I chased 4-5 times after the '23 event and the power harrow and Redgra was never done. A lot of heavy equipment is driven over the track given where the main stage is, so it really causes a lot of damage, which cumulates year after year. I use the track every week as the Mile End track is run by Better and requires booking in advance and a £7 fee or membership at the club. Anything you can do to ensure the track is looked after would be much appreciated!

Dan
