Children Social Care - Plans: Ethnicity Disproportionality

Tower Hamlets Safeguarding Children Partnership

The graphs below show the ethnicity for each Children's Social Care cohort and how it differs from the overall child (0-17) population by ethnic group from the 2021 Census (Data Source: ONS).
A positive difference shows there are more children in the Social Care cohort from this ethnicity group compared to the overall child population.
A negative difference shows there are less children in the Social Care cohort from this ethnicity compared to the overall child population.
