Strategic 100a	Percentage of earners that are LP07 or above of Local Authority staff that are women Measured in: % (This indicator was a former BVPI and is monitored as part of the Council's Workforce to Reflect the Community Strategy) Good Performance: Higher	Simon Kilbey Resources	51	50	46.34	50	50	49.8	50	46.41	RED	-7.2% AMBER	↓
Quarter 1: Performance is below the target range but has marginally improved against last year's year end performance. New initiatives have been agreed as part of the Workforce to Reflect the Community programme, which will be brought into play in order to have a greater medium term impact on this indicator.													
Strategic 100b	Percentage of earners that are LP07 or above of Local Authority staff that are from an ethnic minority. Measured in: % (This indicator was a former BVPI and is monitored as part of the Council's Workforce to Reflect the Community Strategy) Good Performance: Higher	Simon Kilbey Resources	17	27	22.23	22	30	22.23	30	22.37	GREEN	-25.4% RED	↑
Quarter 1: Performance is within the target range but has marginally dipped after several months of steady increase, but can change with very small movements in numbers. New initiatives have been agreed as part of the Workforce to Reflect the Community programme, which will be brought into play in order to have a greater medium term impact on this indicator.													
Strategic 100c	Percentage of earners that are LP07 or above of Local Authority staff who have a disability (excluding those in maintained schools.) Measured in: % (This indicator was a former BVPI and is monitored as part of the Council's Workforce to Reflect the Community Strategy. Staff who have a disability are those that identify themselves as such in the staff survey, against the definition provided in the Disability Discrimination Act 1995). Good Performance: Higher	Simon Kilbey Resources	2	5.4	2	2	5.5	2	5.5	2	GREEN	-63.6% RED	→
Quarter 1: Performance has remained constant in the last 2 months of this quarter. Of overall staff at LP07 and above, 3 have currently declared a disability. To reach our target, we would require a total of 8 disabled staff at LP07 and above. Further improvement will rely in part on the rigour of the vacancy management / assurance processes. Additionally, we are due to undertake a staff equality audit which will improve data quality - this may result in more disabled staff identifying themselves to the Council for monitoring purposes. Currently, only 75% of staff overall have informed the Council whether or not they have a disability.

<p>34 units have been cleared and counted on the London Development Database. This is a provisional outturn only; a large number of net additional units have been completed; however they are currently non reportable via the LDD, due to missing plot level breakdowns. If this information is collected from developers an additional 413 units would be reportable.</p> <p>Although developers are under no legal obligation to provide the Council with detailed completions information, processes are still being strengthened to collect outstanding information from them to maximise the numbers reported. It also worth noting that housing completions are spread out across the year with the majority of completions expected in Q4.</p>													
<p>Strategy 208 Number of affordable homes delivered (gross)</p> <p>Measured in: Number (the sum of social rent housing and intermediate housing - low cost home ownership and intermediate rent) Good Performance: Higher</p>	<p>Jackie Odunoye</p> <p>Development & Renewal</p>	1931	1287	733	116	1231	297	308	326	GREEN	5.8% GREEN	↑	
<p>Quarterly target = 297. 11/12 target range = 1187 - 1231. Performance is above target for Quarter 1, as 326 units of new affordable housing were produced. It is rare for one quarter's figure to match the target exactly as this indicator does not measure a process which provides an even performance across the year. Completed housing units come in batches, as individual building projects complete, and the completion dates are never evenly distributed throughout the year.</p> <p>The forecast is that our annual performance will be comfortably over the higher target figure of 1231. The total predicted output is 2034 units, but as a quantity of these units are scheduled to complete in March 2012, it is likely that some of these will slip into 2012/13. There are 38 different schemes currently on site which are due to deliver units this year and our RSL partners, encouraged by the HCA, will be doing everything they can to ensure completion before 31.3.12.</p>													
<p>Strategy 224 Number of social rented housing completions for family housing (gross figures only)</p> <p>Measured in: Number (a count of the number of affordable housing - local authority, housing associations, and co-operative tenants. Family housing is 3 bedrooms or more) Good Performance: Higher</p>	<p>Jackie Odunoye</p> <p>Development & Renewal</p>	619	405	214	25	390	90	98	100	GREEN	2.04% GREEN	↑	
<p>Quarter 1 target = 90. Projected outturn for 2011/12 is considerably higher than was previously forecast due to a number of schemes which failed to complete by 31.3.11 and therefore unexpectedly fell into the statistics for the 11/12 financial year.</p> <p>Similarly, the target for family housing for affordable rent has achieved the higher of our two possible target figures (90-98), with 100 units of social rented units of 3 bed and larger sizes.</p>
