

Subject: Fw: 7 (A) EZRA STREET

Hello again, Mr Ali

I have seen the most recent response from the Applicants' representative and have to emphasise his total inability to deal with the burning issues raised by many of us namely that a tiny residential area is about to be littered up with yet another licensed premises adding to the 9 such premises that we already have within 150 meters of such a tiny inaccessible area.

This is going to be an expensive restaurant to which its clientele will very often drive, over which the Council has no control. Its clients can park wherever they want in these tiny inaccessible streets to the exclusion and detriment of Residents. The premises in question front on to the most inaccessible road layout in the whole Borough, which, apart from the school, is entirely residential.

Added to this, no matter how much they try, it just isn't possible to run a restaurant in a tiny residential "soundbox" without making the Locals feel threatened and trapped. All restaurants generate noise over which the proprietors have no control just as they cannot say to clients you cannot drive to the premises.

With so many Residents within touching distance of the proposed restaurant, their lives are going to be made miserable.

Please can we have access to the Committee Hearing when this application is to be heard so that we can emphasise just how intrusive this proposal is going to be if granted. We are surely entitled to be heard in person

Christopher Cousins

Subject: Re: Reps - (Solid Floor Ltd), 7a Ezra Street, London E2 7RH

Dear Moshin Ali,

Having read the documents you have provided in response to my objection I am more convinced than ever that the if the proposed license were to be granted involving up to 80 diners and additional numbers of staff coming and going chaos would ensue in Ezra Street and that surrounding businesses and residential premises would be bound to be very adversely affected. I cannot withdraw my objection and would like this letter to be added to it please.

Yours sincerely

Charles Garrad
