

EQUALITIES IMPACT ASSESSMENT UPDATE

P149 Learning Disabilities Day Service Review

<p>How we have been monitoring the EqlAs for the first phase of efficiencies</p>	<p>At a strategic level progress on delivery has been monitored through regular Project Highlight Report meetings, Learning Disability Partnership Board, Transforming Adult Social Care Programme Board and briefings to the Mayor on specific areas of interest.</p>
<p>How we have been monitoring the impact of the first phase of efficiencies on different equalities groups</p>	<p>At a more local and operational level the EqlA actions have been monitored through statutory social work reviews, assessments and the compilation of individual support plans to offer service users an individual budget and personalise their care.</p> <p>Consultation with service users, parents and carers, including consultation within specific BME communities, has also been used to monitor the impact of planned service changes.</p>
<p>How we have been mitigating the impact of the first phase of efficiencies on different equalities groups</p>	<p>No negative impact for service users as a result of planned changes was identified in the original Equalities Impact Assessment appended to the Cabinet report agreed on 9th February 2011.</p> <p>Any change to this status will be mitigated through the meetings attended, consultation undertaken and reviews/assessments conducted as outlined above.</p>
