

Notes:

- Proposed access improvements to the waterfront require further detailed discussion with stakeholders and town owners. Due to the proximity of the waterfront to the town, the proposed access improvements will be restricted to the design. Potential outdoor would be to build out existing physical restrictions.
- The layout of all retention gateways are subject to detailed design and consultation with the town owners. The layout of the retention gateways is subject to the town owners' approval. The layout of the retention gateways is subject to the town owners' approval.

Legend:

- Proposed cycle paths
- Proposed small unit concrete block paving
- Impact planting of mixed herbaceous species
