| Expenditure | | 9,058 | | | The increase in expenditure is related mainly to an increase in residential costs. However, as a result of successful negotiations with the PCT over the appropriate sharing or distribution of costs in a number of complex cases of clients receiving very high levels of support, additional income will cover these costs and contribute to a net underspend. However this position is liable to significant change throughout the year as individual cases are reviewed and re- |

| A44 Mental Health Commissioning | 7,565 | 7,614 | 7,369 | -245 | |
| Expenditure | 7,253 | 7,253 | 7,210 | | The reduction in income is due to a reduction in Carers government grant, to reflect there being less Carers related expenditure in this budget. However a small number of recently agreed high cost care packages have contributed to the |
| Income | -1,452 | -1,452 | -1,232 | | reduction in expenditure being less than the reduction in income. |

| Expenditure | 38,807 | 38,806 | 39,424 | 618 | The £618K Gross expenditure variance is mainly due to over spends on the Premisies related budget heads, in consequence of there being more households in temporary accommodation than originally budgeted for. The £1,432K Gross income variance likewise reflects increased temporary accommodation placements, with more households contributing to administration |
