

Non-Executive Report of the: PENSIONS COMMITTEE 27 July 2020		 TOWER HAMLETS
Report of: Neville Murton, Corporate Director, Resources	Classification: Unrestricted	
Contribution Deferral Policy Statement		

Originating Officer(s)	Miriam Adams, Pensions & Investments Manager
Wards affected	All

Introduction

This report provides the Pensions Committee with a draft policy on how it will make its determination in respect of deferral of employer contributions during COVID-19 lockdown and gradual unwinding of social distancing and related restrictions.

Recommendations:

Members are asked to

- note and approve the draft admission contribution deferral policy:
- agree that the period of deferral should be limited to 3 months after which extensions may be granted on a monthly basis:
- that the total annual contributions must be paid by 31 March of the applicable year and interest may apply:
- delegate the decision to consider and approve requests to the S151 Officer:
and
- the Committee is informed of any employer deferrals (those considered, accepted or rejected) at the earliest opportunity.

1. REASONS FOR THE DECISIONS

- 1.1 To ensure consistent treatment is applied across employers over time and enable employers, guarantors and the Fund understand the risks associated with granting contribution flexibility. It also enables the Fund to consider appropriate measures to manage the risks where possible.

2. ALTERNATIVE OPTIONS

- 2.1 There are no alternative options to this report.

3. DETAILS OF REPORT

- 3.1 The Pensions Regulator published on 27 March 2020 Scheme administration COVID-19 guidance for trustees and public service setting out the critical processes for administrators including paying members' benefits, retirement processing, bereavement services as well as any administration functions required to support this function. A revised statement was published on 16 June 2020. On 25 June, the Corporate Insolvency and Governance Act 2020 received royal assent and came into force on 26 June. The measure introduced by the Act which is designed to assist companies during the pandemic includes provisions for a moratorium during which companies can defer debts. The Scheme Advisory Board (SAB) is seeking legal advice on the potential impact of a moratorium on employer deficit contributions. In addition, LGPS administrators can access the LGPS guidance under frequently asked questions for administrators.

This paper considers the advice received and used by the Fund in the development of its contribution deferral policy. This policy covers delay of contribution payment or temporary reduction of rates payable.

- 3.2 COVID-19 has led to an extraordinary period of lockdown and social distancing measures which has put many employers with LGPS liabilities under considerable financial pressure as their sources of revenue have reduced. This pressure on employers is expected to continue over the short to medium term as Government measures to curb the spread of the infection are gradually lifted and public confidence improves. In addition, where employers have opted to furlough staff, pay continues to be pensionable (i.e. if a member receives 80% of their pay under furlough, employee and employer contributions are due on this level of pay). However, the Government furlough scheme only compensates employers by 3% of pay towards employer pension contributions (the minimum employer contribution under auto-enrolment rules). Therefore, the balance of employer pension contributions must be found by the employer through other sources which may deplete any cash reserves held by employers, putting their businesses at risk.
- 3.3 LGPS frequently asked questions for administrators does state that employers cannot delay or pause paying employee contributions. Employee contributions must be submitted to the administering authority in line with the timescales in the Pensions Act 1995. That is, by either the 22nd (where they are paid electronically) or the 19th of the month following the last day of the month in which the contributions are deducted. If an employer fails to submit employee contributions on time, paragraph 148 of TPR Code 14 states that where 'the scheme manager has reasonable cause to believe that the failure is likely to be of material significance to the regulator in the exercise of any of its functions, they may give notice of the failure to the regulator and the member within a reasonable period after the end of the prescribed period.

3.4 The LGPS view in the frequently asked questions for scheme administrators is that regulations confirm that an administering authority may determine the intervals for employer contribution payments, as they consider appropriate. There must be at least one payment per year but whatever intervals are set, the total contributions due for the year, as set out in the rates and adjustments certificate, must be received by year end and each payment must equal the appropriate proportion of the total contributions due for the year as determined by the administering authority. Deferrals of contributions are only allowed in the limited circumstances set out above and there is no provision for non-payment 'holidays' where contributions are not recovered during the year. If, as a last resort, administering authorities consider deferring the commencement of payments to later in the year it is imperative they consider the risks to the fund. These include but are not limited to the risk of the employer not being able to meet the full amount by year end and the risk to the fund's cash flow requirements. As any approach to contribution deferral should be applied consistently authorities may wish to consider agreeing a policy position. Although not directly applicable to the LGPS, administering authorities should be mindful of guidance issued by TPR on this matter, which was substantially revised on 16 June 2020.

3.5 This advice is based on LGPS 2013 Regulations 62,67 and 69 – every employer must pay, at a minimum the rates set out in the Fund's Rates and Adjustment Certificate. Advice paper from the Fund Actuary Hymans Robertson LLP does suggest that the timing of said payments are not explicitly addressed in the regulation. Therefore, the Fund does appear to have flexibility (given any terms in its Funding Strategy Statement) to consider changing contribution patterns paid by employers as long as the total contributions due are paid within the Fund's financial year i.e. before 31 March each year.

3.6 There are several risks to the operation of the Fund to consider, such as:

- Cashflow
- Fund returns
- Administrative complexity

Several considerations which may help protect the Fund from taking excess risks are required at employer level:

- Covenant and solvency
- Interest
- Redundancy
- Guarantors/letting employer
- Employee contributions
- Evidence that the LGPS is not the only avenue being used to preserve cash.
- Evidence that where applicable the Guarantor is aware of the application

4. FINANCIAL IMPLICATIONS

- 4.1 There are no direct financial implications. However, the outcomes could have financial implications for the Fund.

5. LEGAL COMMENTS

- 5.1 There are no immediate legal implications arising this policy

6. ONE TOWER HAMLETS CONSIDERATIONS

- 6.1 The employer's contribution is a significant element of the Council's budget and consequently any improvement in costs management will reduce the contribution and increase the funds available for other corporate priorities.

7. BEST VALUE (BV) IMPLICATIONS

- 7.1 The effective and efficient management of scheme costs is key to the achievement of the funding strategy objectives and this is considered to be a good decision which can result in greater cost savings to the fund.

8. SUSTAINABLE ACTION FOR A GREENER ENVIRONMENT

- 8.1 There is no direct Sustainable Action for A Greener Environment implication arising from this report.

9. RISK MANAGEMENT IMPLICATIONS

- 9.1 The rigorous robust management of LBTH Pension Fund results in better quicker and more effective decision making which can lead to better Fund performance and reduction in the contribution required from the Council towards the Fund.

10. CRIME AND DISORDER REDUCTION IMPLICATIONS

- 10.1 There are no crime and disorder reduction implications arising from this report.

London Borough of Tower Hamlets draft COVID-19 Contribution Deferral Policy Statement

COVID-19 – Policy on the deferment of employer contributions

As a result of Government policies to manage the spread of COVID-19, many employers are experiencing a severe impact on their immediate and ongoing revenues. The London Borough of Tower Hamlets Pension Fund (“the Fund”) recognises the challenges this may bring in respect of meeting employer pension costs over the shorter term. This document sets out the Fund’s policy on granting flexibility in respect of the payment of employer contributions during these unprecedented times.

The Fund is restricted by the LGPS Regulations in granting flexibility as there are limited circumstances where contribution rates certified in the Rates and Adjustments Certificate can be amended. In addition, the Regulations require that employer contributions in line with the Rates and Adjustments Certificate must be paid within each 12 month period.

As a result, the Fund is not able to consider reducing contributions or granting contribution holidays to employers. However, the Fund is able to consider the deferral (or temporary reduction) of employer contributions whereby an employer delays payment of employer contributions at the full rate for the current year that are owed to the Fund.

The Fund will only consider deferral where an employer makes a formal request. All other circumstances will be considered as late payments to the Fund and handled in accordance with the Fund’s administration policy. In making a request for deferral, the Fund requires:

1. A clear business case and rationale for the request, including evidence that the employer will likely be able to meet the deferred contributions at the end of the deferment period;
2. Assurances that other financial obligations, such as dividend payments, will also be suspended during the period of deferral;
3. Evidence the employer is seeking relief from other creditors, including any other pension arrangements, to ensure the Fund is being treated consistently; and
4. Evidence of discussions with their letting employer or any employer providing a guarantee.

Failure to provide the above will result in the Fund being unable to provide a deferral of contributions.

The request and accompanying evidence will be considered on a case by case basis and, if successful, would be approved by Neville Murton, the Section 151 officer with responsibility for the Fund, after the Fund has taken covenant, legal and actuarial advice.

The Fund will also consult with any associated employer that is providing a guarantee to the employer seeking deferral.

The Fund will respond to a request for contribution deferment as quickly as possible and usually within a 21 day period.

Employer contributions should be remitted as usual during the period that a deferment request is being considered.

Where a request for deferral is not approved in the first instance, the Fund may require additional evidence or security to reconsider the request. There is no explicit appeals process for contribution deferment requests. If an employer feels they have been treated unfairly by the Fund, they may refer to the Fund's standard complaints and Internal Dispute Resolution Procedure (IDRP) processes.

Where a request for deferral is accepted, employers will be able to defer contributions for up to 3 months.

Following the 3-month period, 1-month extensions may be granted on request subject to submission of updated evidence of the employer's financial position. Extensions cannot go beyond 31 March 2021 at which point annual employer contributions for the whole 2020/21 year are due in full. Where contributions are not received in full by 31 March 2021, the Fund has a statutory obligation to consider reporting the failure to make employer contributions to the Pensions Regulator.

It should be noted that employee contributions should be remitted as usual during the period of deferment, and are unaffected by the employer's decision to request (or not) any deferral.
