(scope tba)	Somen Banerjee and Afazul Hoque (tbc) and relevant commissioners?

Placeholder items

1. **Service variations:** During the course of the year, it is possible that health or social care services which are undergoing change or development will need to bring such items to scrutiny. As long as there are only 3 items planned for each meeting, there should always be enough time to squeeze in a service variation item too. When a request has been received, they should be sent a service variation form to complete (found in the scrutiny folder under 'templates' in the shared drive). Once this has been completed, and after liaising with the Chair, an item can be added if deemed appropriate.
