Hi Simmi,

I would like to attend online, please.

I would also like the following evidence to be admitted as part of the opposition to the license. Granting the license will increase the scale of these problems:

- GoPuff blocking the pavement on a nearby site. Causing pedestrians to have to dangerously walk on the road.
- Delivery drivers congregating outside our building, which would be of course acceptable if it wasn't for the cat-calling, the loud conversations and yelling late into the night, and the littering that we have to privately pay to pick up
- A congested hemming street causing unacceptable levels of acoustic and luminous pollution. In addition to dangerous driving by many delivery drivers due to what I assume are targets to deliver as many orders as possible in as little time as possible.

I'd be happy to speak about these issues however, I understand fellow residents are already speaking so that may not be necessary.

Many thanks
Sacha

Go Puff – 89 Hemming Street
